EXPLANATORY NOTE

In this Quarterly Report on Form 10-Q, and unless the context otherwise requires, the “Company,” “we,” “us,” and “our” refer to Citius Pharmaceuticals, Inc. and its wholly owned subsidiaries, Citius Pharmaceuticals, LLC and Leonard-Meron Biosciences, Inc., and its majority-owned subsidiary, NoveCite, Inc., taken as a whole.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains “forward-looking statements.” Forward-looking statements include, but are not limited to, statements that express our intentions, beliefs, expectations, strategies, predictions or any other statements relating to our future activities or other future events or conditions. These statements are based on current expectations, estimates and projections about our business based, in part, on assumptions made by management. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may, and are likely to, differ materially from what is expressed or forecasted in the forward-looking statements due to numerous factors discussed from time to time in this report and in other documents which we file with the Securities and Exchange Commission. In addition, such statements could be affected by risks and uncertainties related to:

- the cost, timing and results of our pre-clinical and clinical trials;
- our ability to raise funds for general corporate purposes and operations, including our pre-clinical and clinical trials;
- our ability to obtain and maintain required regulatory approvals for our product candidates;
- the commercial feasibility and success of our technology and product candidates;
- our ability to recruit and retain qualified management and scientific and technical personnel to carry out our operations; and
- the other factors discussed in the “Risk Factors” section of our most recent Annual Report on Form 10-K and elsewhere in this report.

Any forward-looking statements speak only as of the date on which they are made, and except as may be required under applicable securities laws, we do not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the filing date of this report.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED JUNE 30, 2021 AND 2020
(Unaudited)

1. NATURE OF OPERATIONS, BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business

Citius Pharmaceuticals, Inc. (“Citius,” the “Company,” “we” or “us”) is a specialty pharmaceutical company dedicated to the development and commercialization of critical care products with a focus on anti-infective products in adjunct cancer care, unique prescription products and stem cell therapy.

On March 30, 2016, Citius acquired Leonard-Meron Biosciences, Inc. (“LMB”) as a wholly-owned subsidiary. The Company acquired all of the outstanding stock of LMB by issuing shares of its common stock. The net assets acquired included identifiable intangible assets of \$19,400,000 related to in-process research and development. The Company recorded goodwill of \$9,346,796 for the excess of the purchase price over the net assets.

In-process research and development represents the value of LMB’s leading drug candidate, which is an antibiotic solution used to treat catheter-related bloodstream infections (Mino-Lok®) and is expected to be amortized on a straight-line basis over a period of eight years commencing upon revenue generation. Goodwill represents the value of LMB’s industry relationships and its assembled workforce. Goodwill will not be amortized but will be tested at least annually for impairment.

On September 11, 2020, we formed NoveCite, Inc. (“NoveCite”), a Delaware corporation, of which we own 75% (7,500,000 shares) of the issued and outstanding capital stock (see Note 3).

Citius is subject to a number of risks common to companies in the pharmaceutical industry including, but not limited to, risks related to the development by Citius or its competitors of research and development stage product candidates, market acceptance of its product candidates that might be approved, competition from larger companies, dependence on key personnel, dependence on key suppliers and strategic partners, the Company’s ability to obtain additional financing and the Company’s compliance with governmental and other regulations.

Basis of Presentation and Summary of Significant Accounting Policies

Basis of Preparation — The accompanying condensed consolidated financial statements include the operations of Citius Pharmaceuticals, Inc., and its wholly-owned subsidiaries, Citius Pharmaceuticals, LLC, and LMB, and its majority-owned subsidiary NoveCite. NoveCite was inactive until October 2020. All significant inter-company balances and transactions have been eliminated in consolidation.

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared on the same basis as the annual consolidated financial statements and, in the opinion of management, reflect all adjustments, which include only normal recurring adjustments, necessary to fairly state the condensed consolidated financial position of the Company as of June 30, 2021, and the results of its operations and cash flows for the three and nine month periods ended June 30, 2021 and 2020. The operating results for the three- and nine-month periods ended June 30, 2021 are not necessarily indicative of the results that may be expected for the year ending September 30, 2021. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended September 30, 2020 filed with the Securities and Exchange Commission.

Use of Estimates — Our accounting principles require our management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Estimates having relatively higher significance include stock-based compensation, accounting for leases, valuation of warrants, and income taxes. Actual results could differ from those estimates and changes in estimates may occur.

Basic and Diluted Net Loss per Common Share — Basic and diluted net loss per common share applicable to common stockholders is computed by dividing net loss applicable to common stockholders in each period by the weighted average number of shares of common stock outstanding during such period. For the periods presented, common stock equivalents, consisting of stock options and warrants were not included in the calculation of the diluted loss per share because they were anti-dilutive.

Recently Issued Accounting Standards

In December 2019, the FASB issued ASU No. 2019-12 Simplifications to Accounting for Income Taxes. ASU 2019-12 removes certain exceptions for recognizing deferred taxes for investments, performing intra-period allocation, and calculating income taxes in interim periods. The ASU also adds guidance to reduce complexity in certain areas, including deferred taxes for goodwill and allocating taxes for members of a consolidated group. ASU 2019-12 is effective for all entities for fiscal years beginning after December 15, 2020, and earlier adoption is permitted. The Company is currently evaluating the impact of adopting ASU 2019-12 on its consolidated financial statements.

In August 2020, FASB issued ASU 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity, which, among other things, provides guidance on how to account for contracts on an entity's own equity. This ASU eliminates the beneficial conversion and cash conversion accounting models for convertible instruments. It also amends the accounting for certain contracts in an entity's own equity that are currently accounted for as derivatives because of specific settlement provisions. In addition, this ASU modifies how particular convertible instruments and certain contracts that may be settled in cash or shares impact the diluted EPS computation. The amendments in this ASU are effective for the public companies for fiscal years beginning after December 15, 2021, including interim periods within those fiscal years. Early adoption is permitted, but no earlier than fiscal years beginning after December 15, 2020. The Company is currently evaluating the impact of ASU 2020-06 on its consolidated financial statements.

2. LIQUIDITY AND MANAGEMENT'S PLAN

The accompanying condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company experienced negative cash flows from operations of \$18,659,384 for the nine months ended June 30, 2021. As a result of the Company's recent common stock offerings and common stock warrant exercises during the nine months ended June 30, 2021, the Company had working capital of approximately \$113,000,000 at June 30, 2021. The Company estimates that its available cash resources will be sufficient to fund its operations through March 2023.

The Company has generated no operating revenue to date and has principally raised capital through the issuance of debt and equity instruments to finance its operations. However, the Company's continued operations beyond March 2023, including its development plans for Mino-Lok, Mino-Wrap, Halo-Lido and Novecite, will depend on its ability to obtain regulatory approval to market Mino-Lok and generate substantial revenue from the sale of Mino-Lok and on its ability to raise additional capital through various potential sources, such as equity and/or debt financings, strategic relationships, or out-licensing of its product candidates. However, the Company can provide no assurances on future sales of Mino-Lok or that financing or strategic relationships will be available on acceptable terms, or at all. If the Company is unable to raise sufficient capital, find strategic partners or generate substantial revenue from the sale of Mino-Lok, there would be a material adverse effect on its business. Further, the Company expects in the future to incur additional expenses as it continues to develop its product candidates, including regulatory approval, and protect its intellectual property.

3. PATENT AND TECHNOLOGY LICENSE AGREEMENTS

Patent and Technology License Agreement – Mino-Lok

LMB has a patent and technology license agreement with Novel Anti-Infective Therapeutics, Inc. ("NAT") to develop and commercialize Mino-Lok® on an exclusive, worldwide sub licensable basis. LMB is required to pay an annual maintenance fee each June until commercial sales of a product subject to the license commence. The annual fee paid in June 2021 was \$90,000 (at which level it will remain for as long as it is due).

LMB will also pay annual royalties on net sales of licensed products, with royalties ranging from the mid-single digits to the low double digits or, in the event the licensed product is not subject to a valid patent claim, the royalty is reduced to mid- to lower-single digits. In limited circumstances in which the licensed product is not subject to a valid patent claim and a competitor is selling a competing product, the royalty rate is in the low single digits. After a commercial sale is obtained, LMB must pay minimum aggregate annual royalties of \$100,000 in the first commercial year which is prorated for a less than 12-month period, increasing \$25,000 per year to a maximum of \$150,000 annually. LMB must also pay NAT up to \$1,100,000 upon achieving specified regulatory and sales milestones. Finally, LMB must pay NAT a specified percentage of payments received from any sub licensees.

Unless earlier terminated by NAT, based on the failure by the Company to achieve certain development and commercial milestones or for various breaches by the Company, the license agreement remains in effect until the date that all patents licensed under the agreement have expired and all patent applications within the licensed patent rights have been cancelled, withdrawn or expressly abandoned.

Patent and Technology License Agreement – Mino-Wrap

On January 2, 2019, we entered into a patent and technology license agreement with the Board of Regents of the University of Texas System on behalf of the University of Texas M. D. Anderson Cancer Center (“Licensor”), whereby we in-licensed exclusive worldwide rights to the patented technology for any and all uses relating to breast implants. We intend to develop a liquefying gel-based wrap containing minocycline and rifampin for the reduction of infections associated with breast implants following breast reconstructive surgeries (“Mino-Wrap”). We are required to use commercially reasonable efforts to commercialize Mino-Wrap under several regulatory scenarios and achieve milestones associated with these regulatory options leading to an approval from the U.S. Food and Drug Administration (“FDA”).

Under the license agreement, the Company paid annual maintenance fees of \$45,000 and \$30,000 in January 2021 and 2020, respectively. The annual maintenance fee increases by \$15,000 per year up to a maximum of \$90,000. Annual maintenance fees cease on the first sale of product. We also must pay up to an aggregate of \$2.1 million in milestone payments, contingent on the achievement of various regulatory and commercial milestones. Under the terms of the license agreement, we also must pay a royalty of mid- to upper-single digit percentages of net sales, depending on the amount of annual sales, and subject to downward adjustment to lower- to mid-single digit percentages in the event there is no valid patent for the product in the United States at the time of sale. After the first sale of product, we will owe an annual minimum royalty payment of \$100,000 that will increase annually by \$25,000 for the duration of the term. We will be responsible for all patent expenses incurred by Licensor for the term of the agreement although Licensor is responsible for filing, prosecution and maintenance of all patents. Unless earlier terminated by Licensor, based upon the failure by us to achieve certain development and commercial milestones or for various breaches by us, the agreement expires on the later of the expiration of the patents or January 2, 2034.

License Agreement with Novellus

On March 31, 2020, we entered into an option agreement with a subsidiary of Novellus, Inc. (“Novellus”) to in-license from Novellus on a worldwide basis, a novel cellular therapy for acute respiratory distress syndrome (“ARDS”). In April 2020, we paid Novellus \$100,000 for the option and recorded it as a research and development expense.

Our Board Chairman Leonard Mazur, who is also our largest stockholder, is a significant shareholder of Novellus and subsequent to the option agreement and the license agreement below, became a director of Novellus. As required by our Code of Ethics, the Audit Committee of our Board of Directors approved the entry into the option agreement with Novellus, as did the disinterested members of our Board of Directors.

On October 6, 2020, our subsidiary, NoveCite, exercised the option and signed an exclusive license agreement with Novellus. Upon execution of the agreement, we paid \$5,000,000 to Novellus, which was charged to research and development expense during the nine months ended June 30, 2021, and issued Novellus shares of NoveCite’s common stock representing 25% of the outstanding equity. We own the other 75% of NoveCite’s outstanding equity. Pursuant to the terms of the stock subscription agreement between Novellus and NoveCite, if NoveCite issues additional equity, subject to certain exceptions, NoveCite had to maintain Novellus’s ownership at 25% by issuing additional shares to Novellus.

The \$5,000,000 payment to Novellus was charged to research and development expense during the nine months ended June 30, 2021.

Citus is responsible for the operational activities of NoveCite, and bears all costs necessary to operate NoveCite. Citius's officers are also the officers of NoveCite and oversee the business strategy and operations of NoveCite. As such, NoveCite is accounted for as a consolidated subsidiary with a noncontrolling interest.

Novellus has no contractual rights in the profits or obligations to share in the losses of NoveCite, and the Company has not allocated any losses to the noncontrolling interest.

NoveCite is obligated to pay Novellus up to \$51,000,000 upon the achievement of various regulatory and developmental milestones. NoveCite also must pay a royalty equal to low double-digit percentages of net sales, commencing upon the sale of a licensed product. This royalty is subject to downward adjustment to an upper-single digit percentage of net sales in any country in the event of the expiration of the last valid patent claim or if no valid patent claim exists in that country. The royalty will end on the earlier of (i) the date on which a biosimilar product is first marketed, sold, or distributed in the applicable country or (ii) the 10-year anniversary of the date of expiration of the last-to-expire valid patent claim in that country. In the case of a country where no licensed patent ever exists, the royalty will end on the later of (i) the date of expiry of such licensed product's regulatory exclusivity and (ii) the 10-year anniversary of the date of the first commercial sale of the licensed product in the applicable country. In addition, NoveCite will pay to Novellus an amount equal to a mid-twenties percentage of any sublicensee fees it receives.

Under the terms of the license agreement, in the event that Novellus receives any revenue involving the original cell line included in the licensed technology, then Novellus shall remit to NoveCite 50% of such revenue.

The term of the license agreement will continue on a country-by-country and licensed product-by-licensed product basis until the expiration of the last-to-expire royalty term. Either party may terminate the license agreement upon written notice if the other party is in material default. NoveCite may terminate the license agreement at any time without cause upon 90 days prior written notice.

Novellus will be responsible for preparing, filing, prosecuting and maintaining all patent applications and patents included in the licensed patents in the territory, provided however, that if Novellus decides that it is not interested in maintaining a particular licensed patent or in preparing, filing, or prosecuting a licensed patent, NoveCite will have the right, but not the obligation, to assume such responsibilities in the territory at NoveCite's sole cost and expense.

In July 2021, Novellus was acquired by Brooklyn ImmunoTherapeutics, Inc. In connection with that transaction, the stock subscription agreement between Novellus and NoveCite was amended to assign to Brooklyn ImmunoTherapeutics, Inc. all of Novellus's right, title, and interest in the stock subscription agreement and delete the anti-dilution protection and replace it with a right of first refusal whereby Brooklyn ImmunoTherapeutics, Inc. will have the right to purchase all or a portion of the securities that NoveCite intends to sell or in the alternative, at the option of NoveCite, Brooklyn ImmunoTherapeutics, Inc. may purchase that amount of the securities proposed to be sold by NoveCite to allow Brooklyn ImmunoTherapeutics, Inc. to maintain its then percentage ownership.

4. NOTES PAYABLE

Notes Payable – Related Parties

The aggregate principal balance consisted of notes payable held by our Chairman, Leonard Mazur, in the amount of \$160,470 and notes payable held by our Chief Executive Officer, Myron Holubiak, in the amount of \$12,500. Notes with an aggregate principal balance of \$104,000 accrued interest at the prime rate plus 1.0% per annum and notes with an aggregate principal balance of \$68,970 accrued interest at 12% per annum.

In June 2021, we repaid the \$172,970 principal balance of these notes and paid accrued interest of \$38,917. Accrued interest of \$59,917 was forgiven and has been recorded as other income in the three and nine months ended June 30, 2021.

Interest expense on notes payable – related parties was \$2,509 and \$3,909, respectively, for the three months ended June 30, 2021 and 2020. Interest expense on notes payable – related parties was \$9,605 and \$11,880, respectively, for the nine months ended June 30, 2021 and 2020.

Paycheck Protection Program

On April 12, 2020, due to the disruption caused by the COVID-19 health crisis, the Company applied for a forgivable loan through the Small Business Association's Paycheck Protection Program (the "PPP"). The loan accrues interest at a rate of 1% and a portion of the loan may be forgiven if it is used to pay qualifying costs such as payroll, rent and utilities. Amounts that are not forgiven will be repaid 2 years from the date of the loan. On April 15, 2020, the Company received \$164,583 from the PPP and in June 2021, the Company applied for forgiveness of the loan. Interest expense was \$423 and \$1,234 for the three and nine months ended June 30, 2021, respectively. Interest expense was \$336 for the three and nine months ended June 30, 2020. The Company received notification of the PPP loan formal forgiveness approval on July 28, 2021.

Stock Option Plans

Pursuant to our 2014 Stock Incentive Plan, we reserved 866,667 common shares for issuance to employees, directors and consultants. As of June 30, 2021, options to purchase 855,171 shares were outstanding, options to purchase 4,829 shares were exercised, options to purchase 6,667 shares expired, and no shares remain available for future grants.

On February 7, 2018, our stockholders approved the 2018 Omnibus Stock Incentive Plan and we reserved 2,000,000 common shares for issuance to employees, directors and consultants. As of June 30, 2021, options to purchase 1,820,000 shares were outstanding, options to purchase 70,000 shares were exercised, and the remaining 110,000 shares were transferred to the 2020 Omnibus Stock Incentive Plan (“2020 Stock Plan”).

On February 10, 2020, our stockholders approved the 2020 Stock Plan and we reserved 3,110,000 common shares. The 2020 Stock Plan provides incentives to employees, directors, and consultants through options, SARs, dividend equivalent rights, restricted stock, restricted stock units, or other rights. As of June 30, 2021, options to purchase 1,870,000 shares were outstanding and the remaining 1,240,000 shares were transferred to the 2021 Omnibus Stock Incentive Plan (“2021 Stock Plan”).

On May 24, 2021, our stockholders approved the 2021 Stock Plan and we reserved 8,740,000 shares. The 2021 Stock Plan provides incentives to employees, directors, and consultants through options, SARs, dividend equivalent rights, restricted stock, restricted stock units, or other rights. As of June 30, 2021, options to purchase 110,000 shares were outstanding and there were 8,630,000 shares available for future grants.

The fair value of each stock option award is estimated on the date of grant using the Black-Scholes option pricing model. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant commensurate with the expected term assumption. The expected term of stock options granted, all of which qualify as “plain vanilla,” is based on the average of the contractual term (generally 10 years) and the vesting period. For non-employee options, the expected term is the contractual term.

A summary of option activity under our stock option plans (excluding the NoveCite Stock Plan) is presented below:

	Option Shares	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term	Aggregate Intrinsic Value

6. RELATED PARTY TRANSACTIONS

The Company had outstanding debt due to Leonard Mazur (Chairman of the Board) and Myron Holubiak (Chief Executive Officer) (see Note 4).

Leonard Mazur is a director and significant shareholder of Novellus, Inc. On October 6, 2020, the Company, through its subsidiary NoveCite, entered into an exclusive agreement with Novellus to develop cellular therapies (see Note 3).

In April 2021, we extended the term by three years for 1,294,498 warrants held by our Chairman and our Chief Executive Officer (see Note 5).

7. OPERATING LEASE

Effective July 1, 2019, Citius entered into a 76-month lease for office space in Cranford, NJ. Citius will pay its proportionate share of real estate taxes and operating expenses in excess of the base year expenses. These costs are considered to be variable lease payments and are not included in the determination of the lease's right-of-use asset or lease liability.

The Company identified and assessed the following significant assumptions in recognizing its right-of-use assets and corresponding lease liabilities:

- As the Company's current Cranford lease does not provide an implicit rate, the Company estimated the incremental borrowing rate in calculating the present value of the lease payments. The Company estimated its incremental borrowing rate based on the remaining lease term as of the adoption date.
- Since the Company elected to account for each lease component and its associated non-lease components as a single combined component, all contract consideration was allocated to the combined lease component.
- The expected lease terms include noncancelable lease periods.

The elements of lease expense are as follows:

	Nine Months Ended June 30, 2021	Nine Months Ended June 30, 2020
Lease cost		
Operating lease cost	\$ 179,118	\$ 167,725

Interest expense on the lease liability was \$57,779 and \$66,512 for the nine months ended June 30, 2021 and 2020, respectively.

8. FDA REFUND

In November 2019, the Company received a \$110,207 refund from the FDA for 2016 product and establishment fees because the fees paid by the Company exceeded the costs of the FDA's review of the associated applications. The Company recorded the \$110,207 as other income during the nine months ended June 30, 2020.

9. SUBSEQUENT EVENTS

On July 19, 2021 Novellus was acquired by Brooklyn ImmunoTherapeutics, Inc., see Note 3.

On July 28, 2021, the Company received notification from the Small Business Administration, (the "SBA") granting full forgiveness of its PPP Loan.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations for the three and nine months ended June 30, 2021 should be read together with our unaudited consolidated financial statements and related notes included elsewhere in this report and in conjunction with the audited financial statements of Citius Pharmaceuticals, Inc. included in our Annual Report on Form 10-K for the year ended September 30, 2020. The following discussion contains "forward-looking statements" that reflect our future plans, estimates, beliefs and expected performance. Our actual results may differ materially from those currently anticipated and expressed in such forward-looking statements as a result of a number of factors. We caution that assumptions, expectations, projections, intentions or beliefs about future events may, and often do, vary from actual results and the differences can be material. Please see "Cautionary Note Regarding Forward-Looking Statements" on page ii of this Report.

Historical Background

Citius Pharmaceuticals, Inc. ("Citius," the "Company," "we" or "us") is a specialty pharmaceutical company dedicated to the development and commercialization of critical care products with a focus on anti-infective products in adjunct cancer care, unique prescription products and stem cell therapy. On September 12, 2014, we acquired Citius Pharmaceuticals, LLC as a wholly-owned subsidiary and on March 30, 2016, we acquired Leonard-Meron Biosciences, Inc. ("LMB") as a wholly-owned subsidiary. On September 11, 2020, we formed NoveCite, Inc. ("NoveCite"), a Delaware corporation, of which we own 75% of the issued and outstanding capital stock.

Through June 30, 2021, the Company has devoted substantially all of its efforts to business planning, acquiring our proprietary technology, research and development, recruiting management and technical staff, and raising capital. We are developing three proprietary products: Mino-Lok, an antibiotic lock solution used to treat patients with catheter-related bloodstream infections by salvaging the infected catheter; Mino-Wrap, a liquifying gel-based wrap for reducing tissue expander infections following breast reconstructive surgeries; and Halo-Lido, a corticosteroid-lidocaine topical formulation that is intended to provide anti-inflammatory and anesthetic relief to persons suffering from hemorrhoids. NoveCite is focused on the development and commercialization of its proprietary mesenchymal stem cells for the treatment of acute respiratory disease syndrome ("ARDS").

Patent and Technology License Agreements

Our patent and technology license agreements are discussed in the footnotes to our unaudited consolidated financial statements included in this Report.

Mino-Lok® - LMB has a patent and technology license agreement with Novel Anti-Infective Therapeutics, Inc. ("NAT") to develop and commercialize Mino-Lok® on an exclusive, worldwide sub-licensable basis. Since May 2014, LMB has paid an annual maintenance fee, which began at \$30,000 and that increased over five years to \$90,000, where it will remain until the commencement of commercial sales of a product subject to the license. LMB will also pay annual royalties on net sales of licensed products, with royalties ranging from the mid-single digits to the low double digits or, in the event the licensed product is not subject to a valid patent claim, the royalty is reduced to mid- to lower-single digits. In limited circumstances in which the licensed product is not subject to a valid patent claim and a competitor is selling a competing product, the royalty rate is in the low single digits. After a commercial sale is obtained, LMB must pay minimum aggregate annual royalties that increase in subsequent years. LMB must also pay NAT up to \$1,100,000 upon achieving specified regulatory and sales milestones. Finally, LMB must pay NAT a specified percentage of payments received from any sub licensees.

Mino-Wrap - On January 2, 2019, we entered into a patent and technology license agreement with the Board of Regents of the University of Texas System on behalf of the University of Texas M. D. Anderson Cancer Center ("Licensor"), whereby we in-licensed exclusive worldwide rights to the patented technology for any and all uses relating to breast implants. We intend to develop a liquefying gel-based wrap containing minocycline and rifampin for the reduction of infections associated with breast implants following breast reconstructive surgeries ("Mino-Wrap"). We are required to use commercially reasonable efforts to commercialize Mino-Wrap under several regulatory scenarios and achieve milestones associated with these regulatory options leading to an approval from the Food and Drug Administration ("FDA").

Under the license agreement, we paid a nonrefundable upfront payment of \$125,000. We paid annual maintenance fees of \$45,000 and \$30,000 in January 2021 and 2020, respectively. The annual maintenance fee increases annually by \$15,000 per year up to a maximum of \$90,000. Annual maintenance fees cease on the first sale of product. We also must pay up to an aggregate of \$2.1 million in milestone payments, contingent on the achievement of various regulatory and commercial milestones. Under the terms of the license agreement, we also must pay a royalty of mid- to upper-single digit percentages of net sales, depending on the amount of annual sales, and subject to downward adjustment to lower- to mid-single digit percentages in the event there is no valid patent for the product in the United States at the time of sale. After the first sale of product, we will owe an annual minimum royalty payment of \$100,000 that will increase annually by \$25,000 for the duration of the term. We will be responsible for all patent expenses incurred by Licensor for the term of the agreement although Licensor is responsible for filing, prosecution and maintenance of all patents.

NoveCite – On October 6, 2020, our subsidiary NoveCite entered into a license agreement with Novellus Therapeutics Limited (“Licensor”), to develop and commercialize a stem cell therapy based on the Licensor’s patented technology for the treatment of acute pneumonitis of any etiology in which inflammation is a major agent in humans. NoveCite paid a \$5,000,000 license fee and issued 25% of its outstanding equity to the Licensor. We own the other 75% of NoveCite’s currently outstanding equity. If NoveCite issues additional equity, subject to certain exceptions, NoveCite had to maintain Novellus’s ownership at 25% by issuing additional shares to Novellus. In July 2021, Novellus was acquired by Brooklyn ImmunoTherapeutics, Inc. In that transaction, the stock subscription agreement between Novellus and NoveCite was amended to delete the anti-dilution protection and replace it with a right of first refusal whereby Novellus will have the right to purchase all or a portion of the securities that NoveCite intends to sell or in the alternative, at the option of NoveCite, Novellus may purchase that amount of the securities proposed to be sold by NoveCite to allow Novellus to maintain its then percentage ownership.

Under the license agreement, NoveCite is obligated to pay Licensor up to an aggregate of \$51,000,000 in regulatory and developmental milestone payments. NoveCite also must pay a royalty equal to low double-digit percentages of net sales, commencing upon the first commercial sale of a licensed product. This royalty is subject to downward adjustment on a product-by-product and country-by-country basis to an upper-single digit percentage of net sales in any country in the event of the expiration of the last valid patent claim or if no valid patent claim exists in that country. The royalty will end on the earlier of (i) the date on which a biosimilar product is first marketed, sold, or distributed by Licensor or any third party in the applicable country or (ii) the 10-year anniversary of the date of expiration of the last-to-expire valid patent claim in that country. In the case of a country where no licensed patent ever exists, the royalty will end on the later of (i) the date of expiry of such licensed product’s regulatory exclusivity and (ii) the 10-year anniversary of the date of the first commercial sale of the licensed product in the applicable country. In addition, NoveCite will pay to Licensor an amount equal to a mid-twenties percentage of any sublicensee fees it receives.

Under the terms of the license agreement, in the event that Licensor receives any revenue involving the original cell line included in the licensed technology, then Licensor shall remit to NoveCite 50% of such revenue.

Revenues

We did not generate any revenues for the three months ended June 30, 2021 or 2020.

Research and Development Expenses

For the three months ended June 30, 2021, research and development expenses were \$2,203,748 as compared to \$2,644,244 during the three months ended June 30, 2020, a decrease of \$440,496. Research and development costs for Mino-Lok® decreased by \$335,318 to \$1,153,967 for the three months ended June 30, 2021 as compared to \$1,489,285 for the three months ended June 30, 2020 due to a decrease in the costs associated with our registration batches. Research and development costs for our Halo-Lido product candidate decreased by \$263,806 to \$104,507 for the three months ended June 30, 2021 as compared to \$368,313 for the three months ended June 30, 2020 due to a reduction in costs associated with manufacturing development as well as our patient reported outcome tool. Research and development costs for our Mino-Wrap product candidate were \$41,507 for the three months ended June 30, 2021 as compared to \$22,216 during the three months ended June 30, 2020, an increase of \$19,291. During the three months ended June 30, 2021, research and development costs for our proposed novel cellular therapy for ARDS increased by \$139,337 to \$903,767 as compared to \$764,430 for the three months ended June 30, 2020.

As a result of the capital raised in our recent common stock offerings and common stock warrant exercises, we expect that research and development expenses will continue to increase in fiscal 2021 as we continue to focus on our Phase 3 trial for Mino-Lok®, progress the Halo-Lido product candidate and continue our research and development efforts related to ARDS and Mino-Wrap.

General and Administrative Expenses

For the three months ended June 30, 2021, general and administrative expenses were \$3,407,088 as compared to \$1,869,636 during the three months ended June 30, 2020. General and administrative expenses increased by \$1,537,452 in comparison with the prior period. The primary reason for the increase is incremental costs associated with investor relations and legal services, as well as additional compensation costs for new employees and performance bonuses. General and administrative expenses consist primarily of compensation costs, consulting fees incurred for financing activities and corporate development services, and investor relations expenses.

Stock-based Compensation Expense

For the three months ended June 30, 2021, stock-based compensation expense was \$373,570 as compared to \$175,011 for the three months ended June 30, 2020. Stock-based compensation expense includes options granted to directors, employees and consultants. For the three months ended June 30, 2021, stock-based compensation includes \$18,833 in expense for the NoveCite stock option plan that was adopted in November 2020. Stock-based compensation expense for the most recently completed quarter increased by \$198,559 in comparison to the prior period due to new grants made by Citius and the expense for the NoveCite stock plan.

Other Income (Expense)

Other income for the three months ended June 30, 2021 was \$59,917 and consists of accrued interest of \$59,917 on notes payable – related parties that was forgiven in June 2021.

Interest income for the three months ended June 30, 2021 was \$103,413 as compared to interest income of \$13,018 for the prior period. We have invested the majority of the proceeds of our recent equity offerings and common stock warrant exercises in money market accounts.

Interest expense on notes payable for the three months ended June 30, 2021 was \$2,932 compared to \$4,245 for the three months ended June 30, 2020. In June 2021, we repaid the \$172,970 principal balance of the notes payable – related parties.

Net Loss

For the three months ended June 30, 2021, we incurred a net loss of \$5,824,008 compared to a net loss for the three months ended June 30, 2020 of \$4,680,118. The \$1,143,890 increase in the net loss was primarily due to the increase of \$1,537,452 in general and administrative expenses.

Revenues

We did not generate any revenues for the nine months ended June 30, 2021 or 2020.

Research and Development Expenses

For the nine months ended June 30, 2021, research and development expenses were \$9,946,268 as compared to \$7,324,730 during the nine months ended June 30, 2020, an increase of \$2,621,538. Research and development costs for Mino-Lok® decreased by \$2,216,656 to \$2,983,951 for the nine months ended June 30, 2021 as compared to \$5,200,607 for the nine months ended June 30, 2020 driven primarily by a decrease in the cost of registration batches produced in the nine months ended June 30, 2021. Research and development costs for our Halo-Lido product candidate decreased by \$670,280 to \$578,080 for the nine months ended June 30, 2021 as compared to \$1,248,360 for the nine months ended June 30, 2020 due to a reduction in costs associated with manufacturing development as well as our patient reported outcome tool for the nine months ended June 30, 2021. Research and development costs for our Mino-Wrap product candidate were \$96,744 for the nine months ended June 30, 2021 as compared to \$111,333 during the nine months ended June 30, 2020, a decrease of \$14,589. During the nine months ended June 30, 2021, research and development costs for our proposed novel cellular therapy for ARDS were \$6,287,493 as compared to \$764,430 during the nine months ended June 30, 2020, an increase of \$5,523,063.

We expect that research and development expenses will continue to increase in fiscal 2021 as we continue to focus on our Phase 3 trial for Mino-Lok®, progress the Halo-Lido product candidate and continue our research and development efforts related to ARDS and Mino-Wrap.

General and Administrative Expenses

For the nine months ended June 30, 2021, general and administrative expenses were \$7,389,269 as compared to \$5,690,953 during the nine months ended June 30, 2020. General and administrative expenses increased by \$1,698,316 in comparison with the prior period. The primary reason for the increase is incremental costs associated with investor relations and legal services, as well as additional compensation costs for new employees and performance bonuses. General and administrative expenses consist primarily of compensation costs, consulting fees incurred for financing activities and corporate development services, and investor relations expenses.

Stock-based Compensation Expense

For the nine months ended June 30, 2021, stock-based compensation expense was \$993,114 as compared to \$554,228 for the nine months ended June 30, 2020. Stock-based compensation expense includes options granted to directors, employees and consultants. For the nine months ended June 30, 2021, stock-based compensation includes \$50,222 in expense for the NoveCite stock option plan that was adopted in November 2020. Stock-based compensation expense for the most recently completed quarter increased by \$438,886 in comparison to the prior period due to new grants made by Citius and the expense for the NoveCite stock plan.

Other Income (Expense)

Other income for the nine months ended June 30, 2021 was \$59,917 and consists of accrued interest of \$59,917 on notes payable – related parties that was forgiven in June 2021. In November 2019, we received an additional \$110,207 refund from the FDA for 2016 product and establishment fees because the fees paid by the Company exceeded the costs of the FDA's review of the associated applications. The Company recorded the \$110,207 as other income during the nine months ended June 30, 2020.

Interest income for the nine months ended June 30, 2021 was \$186,224 as compared to interest income of \$44,463 for the prior period. We have temporarily invested most of the proceeds of our recent equity offerings and common stock warrant exercises in money market accounts.

Interest expense on notes payable for the nine months ended June 30, 2021 was \$10,839 compared to \$12,216 for the nine months ended June 30, 2020. In June 2021, we repaid the \$172,970 principal balance of the notes payable – related parties.

Net Loss

For the nine months ended June 30, 2021, we incurred a net loss of \$18,093,349 compared to a net loss for the nine months ended June 30, 2020 of \$13,427,457. The \$4,665,892 increase in the net loss was primarily due to the \$2,621,538 increase in research and development expenses and the \$1,698,316 increase in general and administrative expenses.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity and Working Capital

Citius has incurred operating losses since inception and incurred a net loss of \$18,093,349 for the nine months ended June 30, 2021. At June 30, 2021, Citius had an accumulated deficit of \$91,086,736. Citius' net cash used in operations during the nine months ended June 30, 2021 was \$18,659,384.

Our September 30, 2020 consolidated financial statements contain an emphasis of a matter regarding substantial doubt about our ability to continue as a going concern and that the consolidated financial statements have been prepared assuming we will continue as a going concern and do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets, or the amounts and classification of liabilities that may result if we do not continue as a going concern.

As a result of the Company's recent common stock offerings and common stock warrant exercises, the Company had working capital of approximately \$113,000,000 at June 30, 2021. At June 30, 2021, Citius had cash and cash equivalents of \$115,663,976 available to fund its operations. The Company's primary sources of cash flow since inception have been from financing activities. Our primary uses of operating cash were for in-licensing of intellectual property, product development and commercialization activities, employee compensation, consulting fees, legal and accounting fees, insurance and investor relations expenses.

On January 27, 2021, the Company closed a private placement for 15,455,960 common shares and warrants to purchase 7,727,980 common shares, at a purchase price of \$1.294 per share of common stock and accompanying warrant, for gross proceeds of \$20,000,012. Net proceeds from the offering were \$18,450,410.

On February 19, 2021, the Company closed a registered direct offering for 50,830,566 common shares and warrants to purchase 25,415,283 common shares, at a purchase price of \$1.505 per share and accompanying warrant, for gross proceeds of \$76,500,002. Net proceeds from the offering were \$70,979,842.

During the nine months ended June 30, 2021, we received \$31,130,134 in proceeds from the exercise of common stock warrants.

Based on our cash and cash equivalents at June 30, 2021, we expect that we will have sufficient funds to continue our operations through March 2023. We may need to raise additional capital in the future to support our operations beyond March 2023. There is no assurance, however, that we will be successful in raising the needed capital or that the proceeds will be received in an amount or in a timely manner to support our operations.

Inflation

Our management believes that inflation has not had a material effect on our results of operations.

Off Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Critical Accounting Policies and Estimates

The preparation of our financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities as of the date of the financial statements and the amounts of revenues and expenses recorded during the reporting periods. We base our estimates on historical experience, where applicable, and other assumptions that we believe are reasonable under the circumstances. Actual results may differ from our estimates under different assumptions or conditions.

Our critical accounting policies and use of estimates are discussed in, and should be read in conjunction with, the annual consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended September 30, 2020 as filed with the SEC.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

Item 4. Controls and Procedures**Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the specified time periods and accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding disclosure.

Our Chief Executive Officer (who is our principal executive officer) and Chief Financial Officer (who is our principal financial officer and principal accounting officer), evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act) as of June 30, 2021. In designing and evaluating disclosure controls and procedures, we recognize that any disclosure controls and procedures, no matter how well designed and operated, can only provide reasonable assurance of achieving the desired control objective. As of June 30, 2021, based on the evaluation of these disclosure controls and procedures, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms.

Changes In Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2021 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

I, Jaime Bartushak, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Citius Pharmaceuticals, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
