Supporting Our Residents & Communities

Who We Are

As the nation's premier home leasing and management company, Invitation Homes is proud to provide high-quality homes and professional service to people who count on the flexibility and savings of leasing versus owning a home. Our associates work hard every day to honor the trust our residents have placed in us to provide them a safe and secure home. We recognize that the vitality of our business is directly linked to the vitality of our residents and the communities in which we operate. We are proud to offer these facts that show the work we do to support our residents and our communities.

Empowering Residents on the Path to Homeownership

We strive to provide our residents a safe place to call home and an opportunity to build financial stability while leasing with us. In addition, we support pathways to homeownership for those who desire that choice.

Leasing is about $1,000/month less expensive than owning in our core markets*, offering our residents an opportunity to save money toward homeownership or any other personal goal.

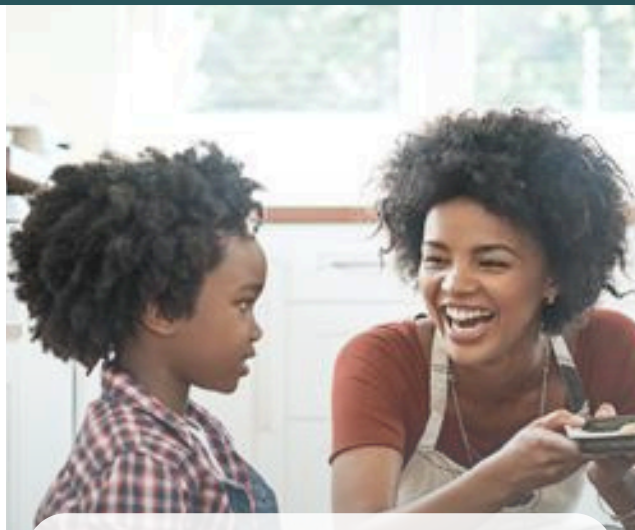

We offer free positive credit reporting for on-time rent payments, creating the opportunity for our residents to build good credit.

We honor existing rent-to-own agreements and work with participating residents throughout the term of their contracts.

Our Resident First Look program provides residents in certain homes that we've identified for sale the opportunity to purchase their home before it's placed on the market.
