

CORPORATE SUMMARY

January 2019

YAMANAGOLD | 15 YEARS

CAUTIONARY NOTE
REGARDING FORWARD-LOOKING STATEMENTS

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS: This presentation contains or incorporates by reference "forward-looking statements" and "forward-looking information" under applicable Canadian securities legislation within the meaning of the United States Private Securities Litigation Reform Act of 1995. Forward-looking information includes, but is not limited to information with respect to the Company's optimization and expansion plans, strategy, other plans or future financial or operating performance. Forward-looking statements are characterized by words such as "plan," "expect", "budget", "target", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur. Forward-looking statements are based on the opinions, assumptions and estimates of management considered reasonable at the date the statements are made, and are inherently subject to a variety of risks and uncertainties and other known and unknown factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. These factors include the Company's expectations in connection with the production and exploration, the impact of declaring commercial production, development, expansion plans and expansionary capital expectations at the Company's projects discussed herein being met, the impact of proposed optimizations at the Company's projects, changes in national and local government legislation, taxation, controls or regulations and/or changes in the administration or laws, policies and practices, and the impact of general business and economic conditions, global liquidity and credit availability on the timing of cash flows and the values of assets and liabilities based on projected future conditions, fluctuating metal prices (such as gold, copper, silver and zinc), currency exchange rates (such as the Brazilian real, the Chilean peso, the Canadian dollar, and the Argentine peso versus the United States dollar), the impact of inflation, possible variations in ore grade or recovery rates, changes in the Company's hedging program, changes in accounting policies, changes in Mineral Resources and Mineral Reserves, risks related to asset disposition, risks related to metal purchase agreements, risks related to acquisitions, changes in project parameters as plans continue to be refined, changes in project development, construction, production and commissioning time frames, unanticipated costs and expenses, higher prices for fuel, steel, power, labour and other consumables contributing to higher costs and general risks of the mining industry, failure of plant, equipment or processes to operate as anticipated, unexpected changes in mine life, final pricing for concentrate sales, unanticipated results of future studies, seasonality and unanticipated weather changes, costs and timing of the development of new deposits, success of exploration activities, permitting timelines, government regulation and the risk of government expropriation or nationalization of mining operations, risks related to relying on local advisors and consultants in foreign jurisdictions, environmental risks, unanticipated reclamation expenses, risks relating to joint venture operations, title disputes or claims, limitations on insurance coverage and timing and possible outcome of pending and outstanding litigation and labour disputes, risks related to enforcing legal rights in foreign jurisdictions, as well as those risk factors discussed or referred to herein and in the Company's Annual Information Form filed with the securities regulatory authorities in all provinces of Canada and available at www.sedar.com, and the Company's Annual Report on Form 40-F filed with the United States Securities and Exchange Commission. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. The Company undertakes no obligation to update forward-looking statements if circumstances or management's estimates, assumptions or opinions should change, except as required by applicable law. The reader is cautioned not to place undue reliance on forward-looking statements. The forward-looking information contained herein is presented for the purpose of assisting investors in understanding the Company's expected financial and operational performance and results as at and for the periods ended on the dates presented in the Company's plans and objectives and may not be appropriate for other purposes.

The Company has included certain non-GAAP financial measures and additional line items or subtotals, which the Company believes that together with measures determined in accordance with IFRS, provide investors with an improved ability to evaluate the underlying performance of the Company. Non-GAAP financial measures do not have any standardized meaning prescribed under IFRS, and therefore they may not be comparable to similar measures employed by other companies. The data is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. The non-GAAP financial measures included in this presentation include: co-product cash costs per ounce of gold and silver produced, co-product cash costs per pound of copper produced, all-in sustaining co-product costs per ounce of gold and silver produced, all-in sustaining by-product costs per ounce of gold and silver produced and all-in sustaining co-product costs per pound of copper produced. Please refer to section 10 and section 13 of the Company's current and annual Management's Discussion and Analysis, respectively, which are filed on SEDAR and include a detailed discussion of the usefulness of the non-GAAP measures. The Company believes that in addition to conventional measures prepared in accordance with IFRS, the Company and certain investors and analysts use this information to evaluate the Company's performance. In particular, management uses these measures for internal valuation for the period and to assist with planning and forecasting of future operations.

Qualified Persons

Scientific and technical information contained in this presentation relating to operations at Chapada, Jacobina, Canadian Malartic, El Peñón, Minera Florida, Gualcamayo, and Cerro Moro has been reviewed and approved by Yohann Bouchard (Senior Vice President, Operations); and relating to exploration has been reviewed and approved by Henry Marsden (Senior Vice President, Exploration). Each of Messrs. Bouchard and Marsden is an employee of Yamana Gold Inc. and a "Qualified Person" as defined by Canadian Securities Administrators' National Instrument 43-101 - Standards of Disclosure for Mineral Projects. Please also refer to the Company's technical reports as filed on SEDAR.

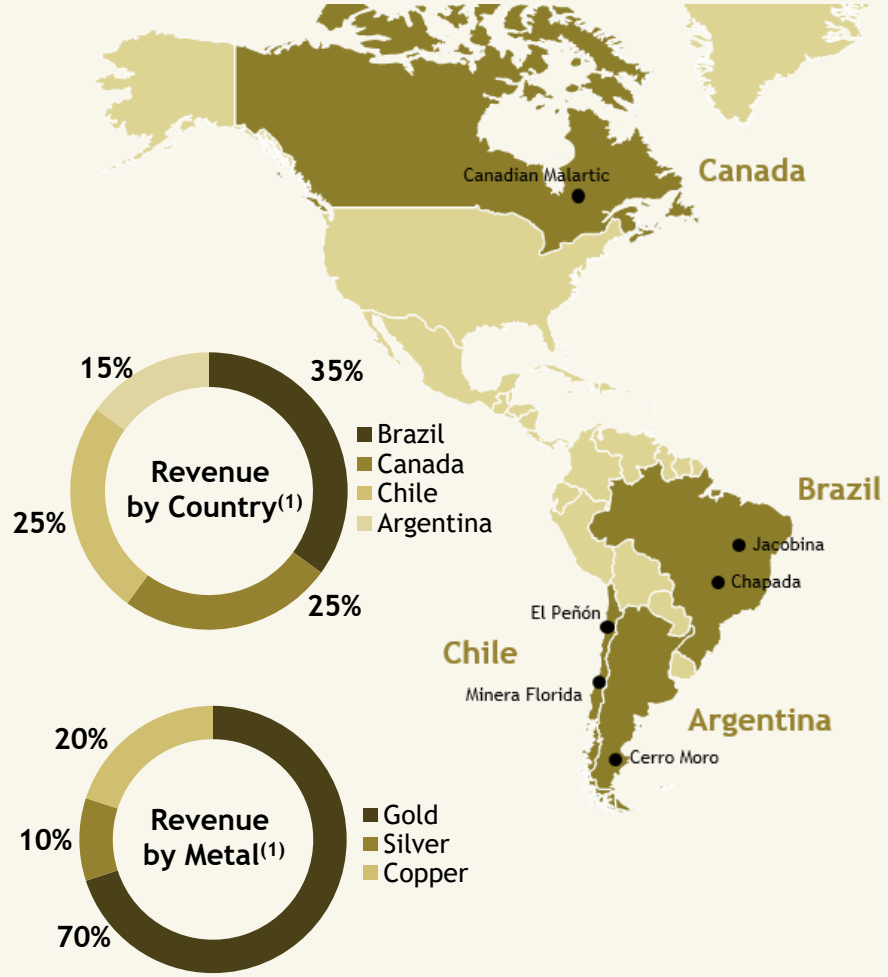

The information presented herein was approved by management of Yamana Gold on January 11, 2019.

All amounts are expressed in United States dollars unless otherwise indicated.

PORTFOLIO WELL POSITIONED
PRODUCTION PLATFORM FOR THE CURRENT (AND NEXT) CYCLE

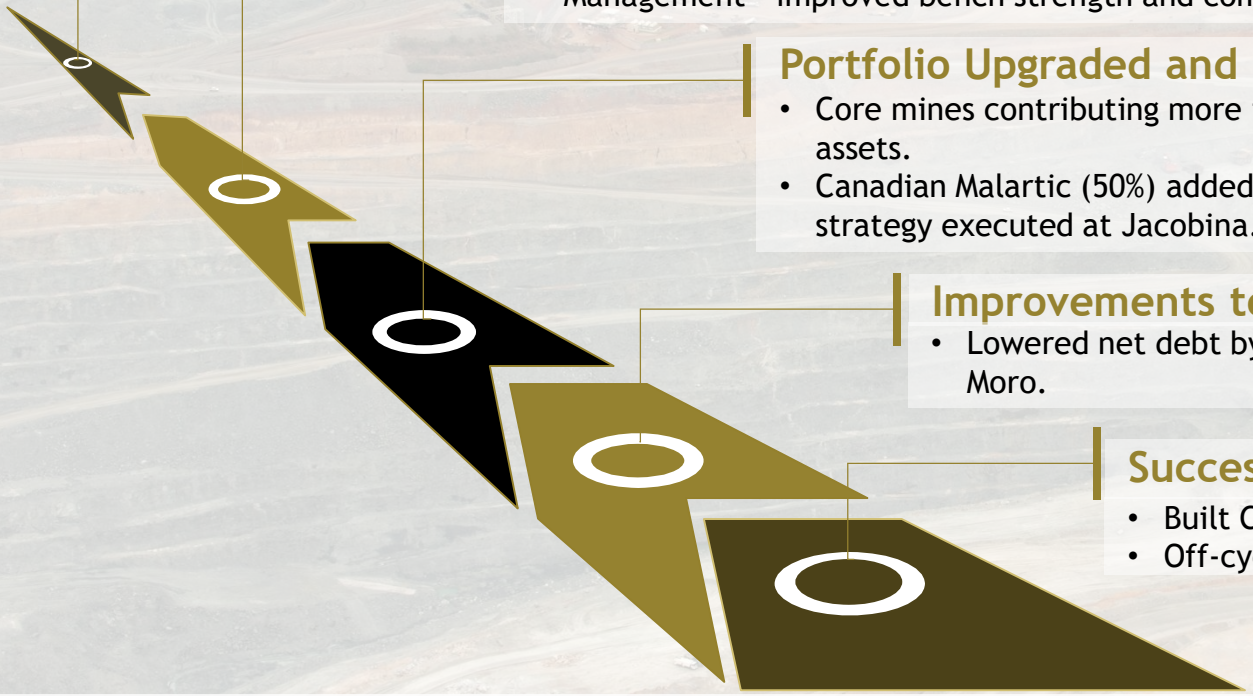

- HIGH QUALITY PORTFOLIO WITH LONG LIFE ASSETS
- TRACK RECORD OF CONSISTENCY
- DIVERSIFIED BY METAL AND BY JURISDICTION
- ON THE CUSP OF FCF AND EARNINGS GROWTH
- NAV AND RESERVE ACCRETION IN FOCUS

1M gold-equivalent oz and growing

1. Estimated run rate for revenue contribution by metal including full year contribution from Cerro Moro.

BEHIND THE PERFORMANCE
PATHWAY TO IMPROVEMENTS

Enhancements to Management Construct

- Centralized senior management at head office.
- Direct reporting from mine sites to senior management.
- Process enhancements, including for life-of-mine planning and project execution.

Changes to the Board and Management

- Board - of the 10 independent directors, 5 are new since 2014. Added executive expertise from EPCM, utilities, mining, and oil & gas industries.
- Management – improved bench strength and completed successional changes.

Portfolio Upgraded and Right-Sized

- Core mines contributing more to overall performance, divested non-core assets.
- Canadian Malartic (50%) added as a long-life asset in Canada. Turnaround strategy executed at Jacobina.

Improvements to our Balance Sheet

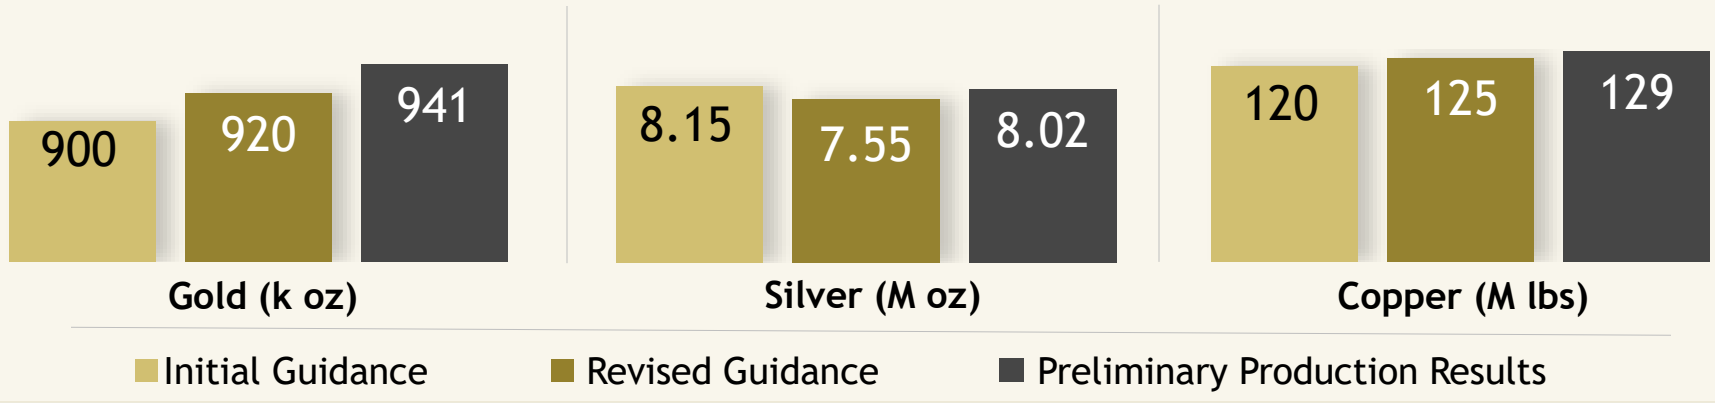

- Lowered net debt by $211M since 2014 while building Cerro Moro.

Success on Project Delivery

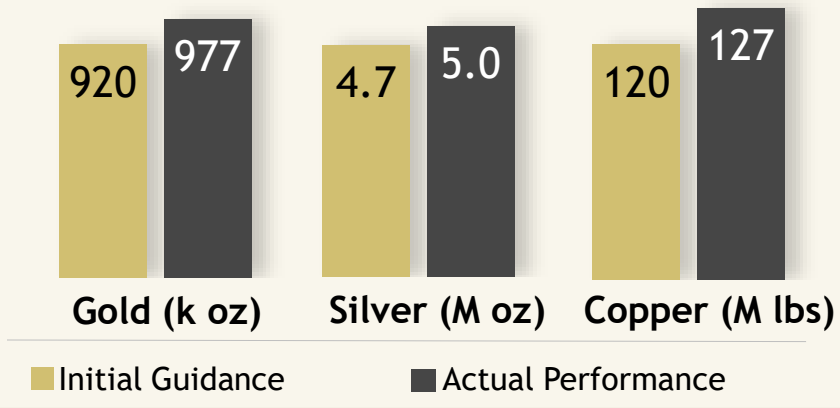

- Built Cerro Moro on time and on budget.
- Off-cycle construction reduced development risk.

DELIVERING OPERATIONAL PERFORMANCE
TRACK RECORD OF CONSISTENCY

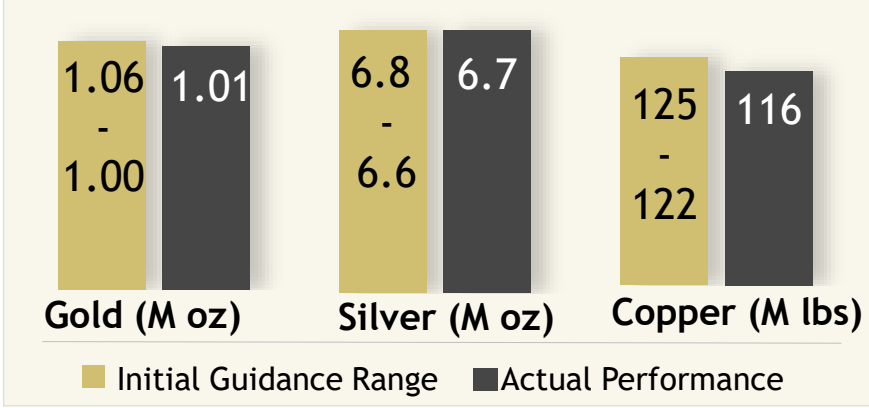

2018 Production Results Against Initial and Revised Guidance(1,2)

2017 Production(3)

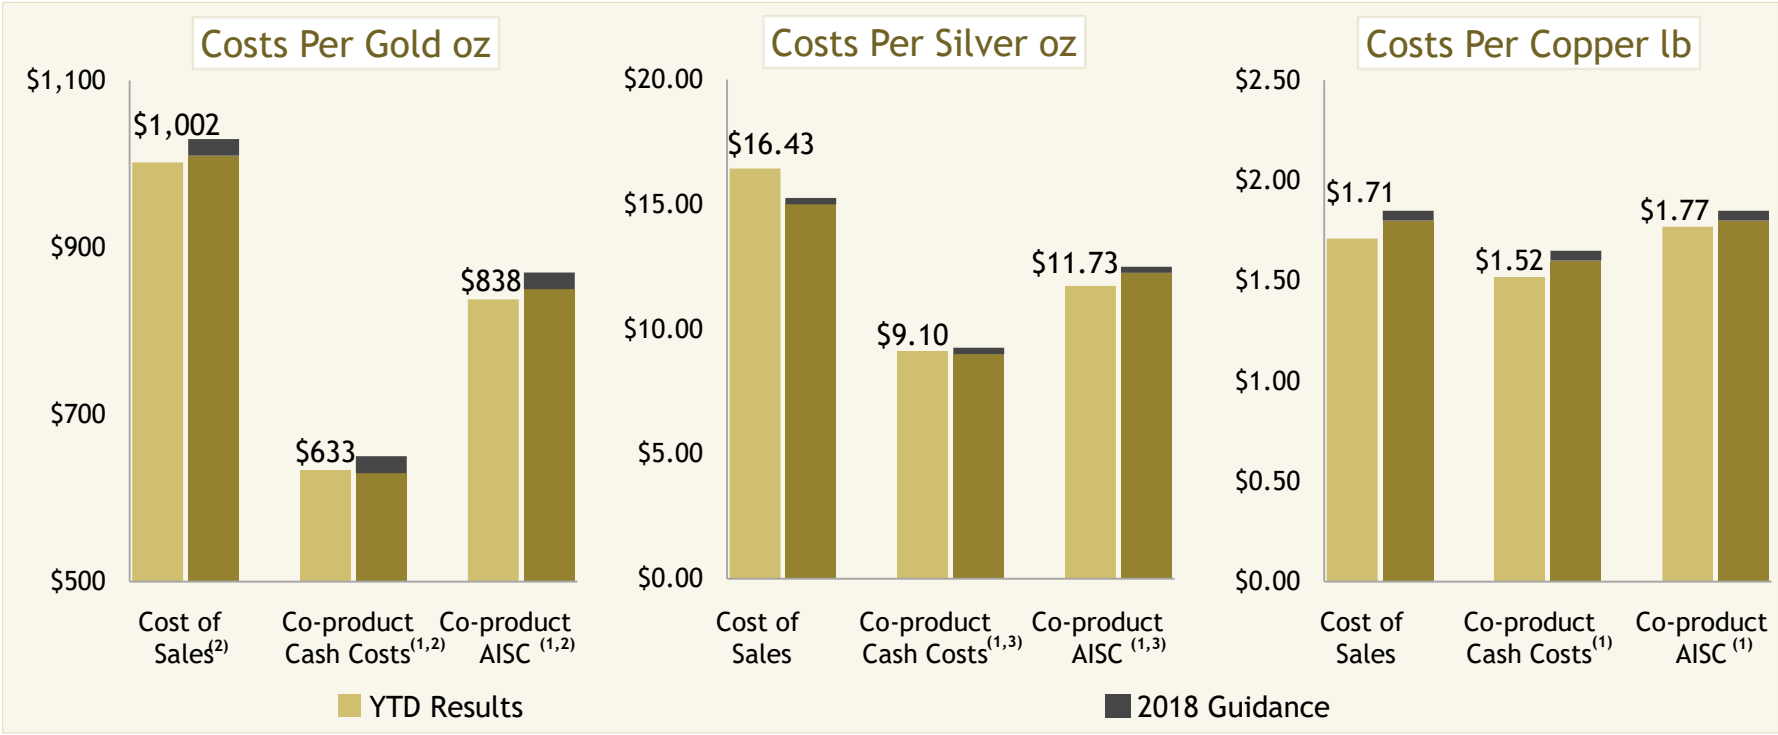

2016 Production(3)(4)

1. Preliminary production results for 2018 per the press release dated January 14, 2019; excludes production from the Gualcamayo mine.
2. Includes pre-commercial production at Cerro Moro of 8,625 ounces of gold and 333,878 ounces of silver.
3. Excludes any attribution from Brio Gold, which was ultimately acquired by Leagold Mining Corporation.
4. Guidance and production in 2016 excludes contribution from the Mercedes mine which was sold during the year.

DELIVERING OPERATIONAL PERFORMANCE
COSTS STABLE AND IMPROVING

2018 Co-Product Costs and AISC Expected to be Below Guidance Ranges

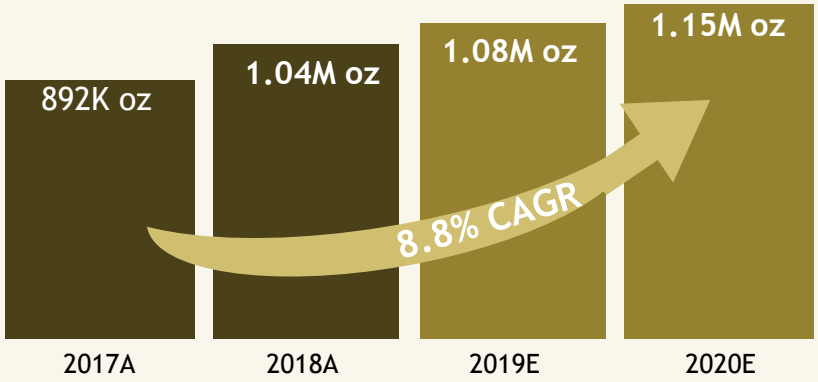

Cost History	Cost of Sales			Co-Product Cash Cost			Co-Product AISC		
	Gold $/oz	Silver $/oz	Copper $/lb	Gold $/oz	Silver $/oz	Copper $/lb	Gold $/oz	Silver $/oz	Copper $/lb
2017	1,023	13.63	1.73	672	10.01	1.54	888	13.48	1.74
2016	991	13.79	1.93	650	8.96	1.58	905	12.65	2.03

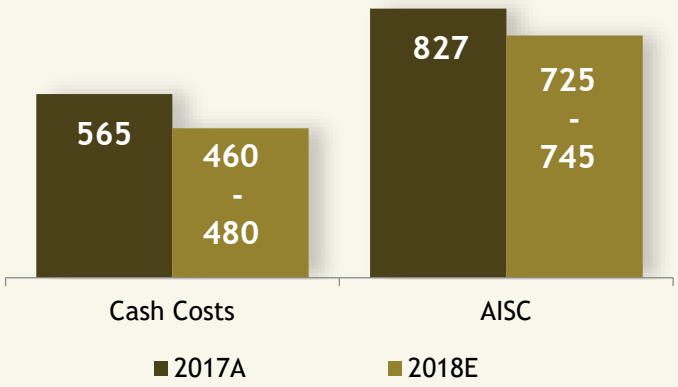

1. A non-GAAP measure, additional line item or subtotal. A reconciliation of the IFRS measure to the non-GAAP measure can be found at www.yamana.com/Q32018.
2. Excludes production from the Gualcamayo mine. includes pre-commercial production of 8,625 gold ounces from Cerro Moro.
3. Includes pre-commercial production of 333,878 silver ounces from Cerro Moro.

PRODUCTION GROWTH AT LOWER COSTS
DECLINING CAPEX

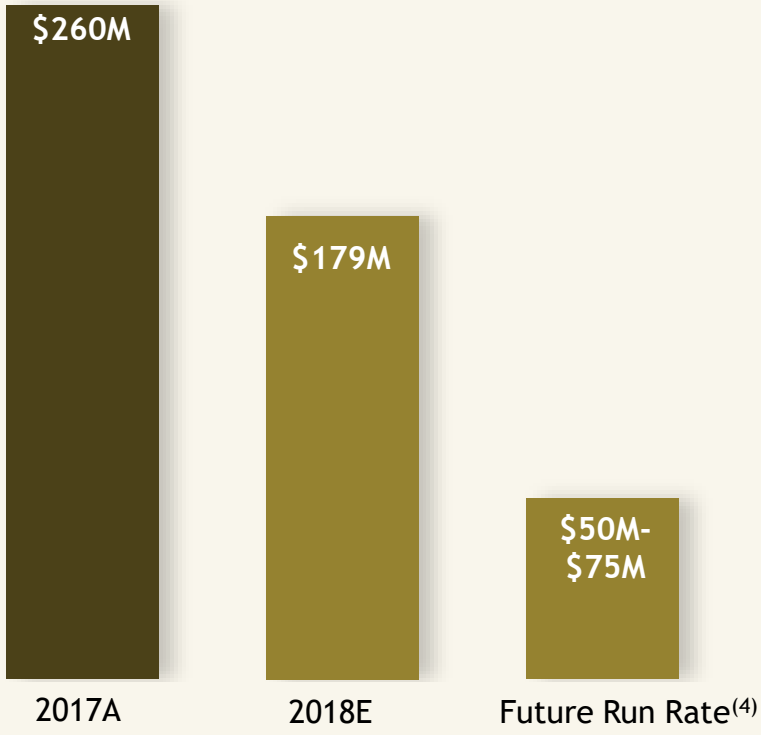

Production GEO (1,2)

2018 Costs, $/GEO(1,2,3)

Expansionary Capital(5)

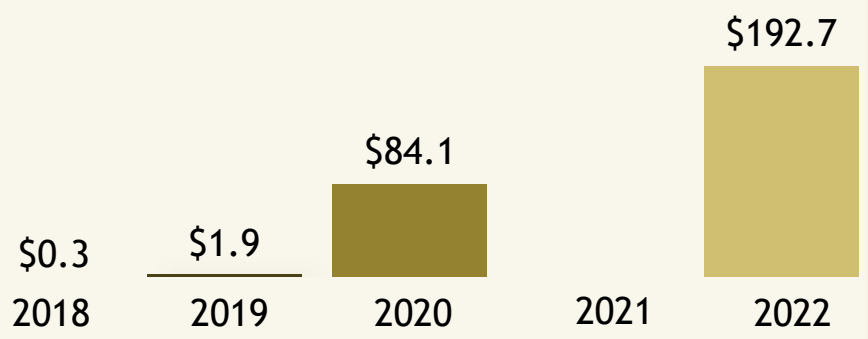

1. Gold equivalent ounces include gold plus silver at a ratio of 79.6 for full year 2018 and 72:1 for guidance.
2. Preliminary production results for 2018 per the press release dated January 14, 2019; excludes production from the Gualcamayo mine.
3. A non-GAAP measure, additional line item or subtotal. A reconciliation of the IFRS measure to the non-GAAP measure can be found at www.yamana.com/Q32018.
4. Absent new projects which may move into the development stage. See Cautionary Note.
5. Excluding capitalized interest and wages.

BALANCE SHEET
WELL POSITIONED WITH RESPECT TO COMMITMENTS

Improvements	• Since 2014, net debt has improved by $211M, and this was while developing Cerro Moro.
Optimized Portfolio	• Optimized the portfolio in terms of the contributing assets and their performance.
Opportunities to Monetize Assets	• For the non-producing assets, advancing technical studies to assess monetization (and development) opportunities, the most notable of which is Agua Rica.
Well Positioned	• With an optimized portfolio of mines that are executing on plan, a declining capex intensity, and a favourable debt maturity profile, the company is well positioned with respect to its balance sheet commitments.

Longer Dated Debt Maturity Profile:

- Following the early redemption of the 2019 notes and the 2018 maturities, the next scheduled maturity of fixed rate debt is not until March 2020.

PORTFOLIO SUMMARY
HIGH QUALITY PORTFOLIO WITH LONG LIFE ASSETS

2018 Preliminary Production		2018 Guidance			
	Production Results	Production Guidance	Total Cost of Sales	Co-product Cash Cost[1]	AISC[1]
Gold	(k oz)	(k oz)	($/oz)	($/oz)	($/oz)
Canadian Malartic	349	325	1,000	590	760
Jacobina	145	135	1,100	730	910
Chapada	121	110	450	385	430
El Peñón	152	145	1,065	790	965
Minera Florida	82	90	1,275	750	930
Cerro Moro	93	85	1,100	510	650
Silver	(M oz)	(M oz)	($/oz)	($/oz)	($/oz)
El Peñón	3.9	3.8[2]	14.75	10.75	13.25
Cerro Moro	4.12	3.75	15.25	7.10	9.15
Copper	(M lbs)	(M lbs)	($/lb)	($/lb)	($/lb)
Chapada	129	125[2]	1.80 - 1.85	1.60 - 1.65	1.80 - 1.85

1. A non-GAAP measure, additional line item or subtotal. A reconciliation of the IFRS measure to the non-GAAP measure can be found at www.yamana.com/Q32018.
2. Production guidance at El Peñón for silver reflects updated guidance of 3.8M oz of silver which was lowered from the original guidance provided of 4.4M oz of silver. Production guidance at Chapada reflects updated guidance of 125M lbs of copper which was increased from the original guidance of 120M lbs.

CHAPADA
MAXIMIZING VALUE

- Advancing Phase 1 – Plant Optimization, targeting a 2% increase in gold and copper recoveries. On track for completion mid-2019.
- Costs benefiting from operational efficiencies and the depreciation of the Brazilian Real.

Advancing plans and studies:

- Phase 1 - Plant Optimization to improve gold and copper recoveries.
- Phase 2 - Plant Expansion up to 32 Mtpa from 23 Mtpa.
- Phase 3 - Pit wall pushback to access additional Sucupira mineralization.
- Anticipated upside potential with Suruca.

2018 Preliminary Production Results	
Gold (k oz)	121
Copper (M lbs)	129

2018 Guidance	Total Cost of Sales	Co-product Cash Cost(1)	AISC(1)
Gold	$450/oz	$385/oz	$430/oz
Copper	$1.80 – 1.85/lb	$1.60 – 1.65/lb	$1.80 – 1.85/lb

1. A non-GAAP measure, additional line item or subtotal. A reconciliation of the IFRS measure to the non-GAAP measure can be found at www.yamana.com/Q32018.

JACOBINA
CONTINUING STRONG MOMENTUM

- Strong operational performance driven by the flexibility of developed underground areas and the availability of a surface stockpile.
- Costs benefiting from ongoing cost optimization initiatives and the depreciation of local currency.

Opportunities:

- Targeting a production objective of 150k oz. Only minor plant modifications are expected to support the target.
- Exploration drilling has demonstrated the potential to add new, near mine shallow mineral resources at higher than life-of-mine grades, namely in the new Serra do Corrego area.

2018 Preliminary Production Results	
Gold (k oz)	145

2018 Guidance	Total Cost of Sales	Co-product Cash Cost[1]	AISC[1]
Gold	$1,100/oz	$730/oz	$910/oz

1. A non-GAAP measure, additional line item or subtotal. A reconciliation of the IFRS measure to the non-GAAP measure can be found at www.yamana.com/Q32018.

CANADIAN MALARTIC
CREATING VALUE

- Well positioned to exceed 2018 guidance with Q3 production of 89k oz, aided by the continuation of the higher than planned mill feed grades.
- All costs were lower than guidance for the year, benefiting from higher production and the depreciation of the Canadian Dollar relative to the US Dollar.

Opportunities:

- The Canadian Malartic Extension Project is continuing according to plan.
- In Q3 3,540m of drilling were completed at the Odyssey Zone and 7,831m of drilling were completed at the East Malartic and Sheehan zones.

2018 Preliminary Production Results	
Gold (k oz)	349

2018 Guidance	Total Cost of Sales	Co-product Cash Cost[1]	AISC[1]
Gold	$1,000/oz	$590/oz	$760/oz

1. A non-GAAP measure, additional line item or subtotal. A reconciliation of the IFRS measure to the non-GAAP measure can be found at www.yamana.com/Q32018.

EL PEÑÓN
FOCUSING ON QUALITY OF PRODUCTION

- Positioned to meet gold production guidance for the year. Gold grades are expected to increase in Q4 as mining transitions to higher-grade zones.

- A higher proportion of silver sulphides and silver sulphosalts from Ventura and other high-grade zones impacted silver recoveries in Q3. Starting in Q4, development is expected to ramp-up, allowing blending opportunities to mitigate the aforementioned impact.

Opportunities:

- The exploration program continues to identify structures in the core mine area which are expected to increase the mineral inventory and potentially extend the mine life.

2018 Preliminary Production Results	
Gold (k oz)	152
Silver (M oz)	3.9

2018 Guidance	Total Cost of Sales	Co-product Cash Cost(1)	AISC(1)
Gold	$1,065/oz	$790/oz	$965/oz
Silver	$14.75/oz	$10.75/oz	$13.25/oz

1. A non-GAAP measure, additional line item or subtotal. A reconciliation of the IFRS measure to the non-GAAP measure can be found at www.yamana.com/Q32018.

MINERA FLORIDA
TRANSITIONING TO NEWER HIGH-GRADE ZONES

- Production in Q3 increased 31% Q/Q, mainly from the contribution of the higher-grade Pataguas and PVS. Q4 production is expected to maintain the momentum reflecting higher grades from Pataguas and PVS, which averaged 4.2 g/t in September.
- The development of the ventilation system in the Pataguas and PVS area is continuing which will further improve productivity of higher grade workings.

Opportunities:

- Transitioning to the newer higher-grade Pataguas and PVS zones, expected to provide the foundation for greater production.

2018 Preliminary Production Results	
Gold (k oz)	82

2018 Guidance	Total Cost of Sales	Co-product Cash Cost(1)	AISC(1)
Gold	$1,275/oz	$750/oz	$930/oz

1. A non-GAAP measure, additional line item or subtotal. A reconciliation of the IFRS measure to the non-GAAP measure can be found at www.yamana.com/Q32018.

CERRO MORO
OUR NEWEST CORE MINE, ON TRACK FOR 2018 GUIDANCE

- On track to exceed 2018 production guidance with 38k oz of gold and 1.7M oz of silver in Q3.
- Cerro Moro, in its first full quarter of commercial production, provided significant contributions to the overall performance with production run-rates already at levels needed to meet guidance for 2018 and 2019 and also with costs below the levels guided for both years.

Opportunities:

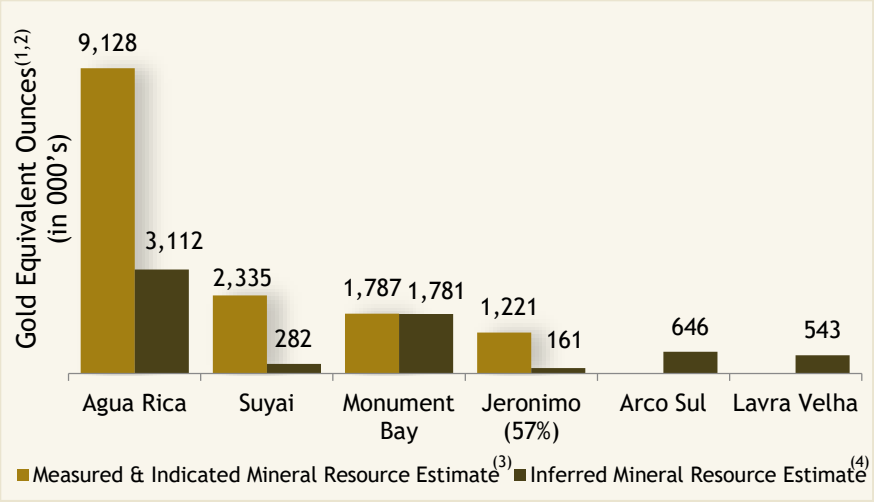

- Strategic target to potentially add 1.0M GEO to mineral inventory and extend mine life.

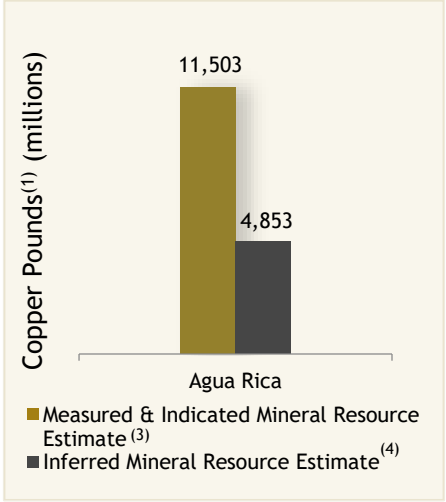

2018 Preliminary Production Results	
Gold (k oz)	93
Silver (M oz)	4.12

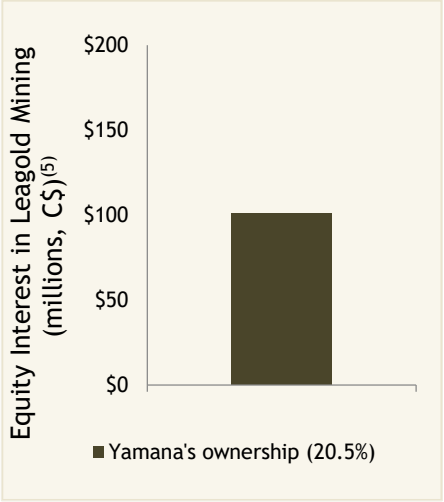

2018 Guidance	Total Cost of Sales	Co-product Cash Cost[1]	AISC[1]
Gold	$1,100/oz	$510/oz	$650/oz
Silver	$15.25/oz	$7.10/oz	$9.15/oz

1. A non-GAAP measure, additional line item or subtotal. A reconciliation of the IFRS measure to the non-GAAP measure can be found at www.yamana.com/Q32018.

LOOKING FORWARD
STRATEGIC ASSETS

OPERATING CASH FLOW

- Increasing operating cash flow with the addition of Cerro Moro, operational improvements and optimizations.

CARRYING VALUE

- Disproportionate exposure to non-producing assets.
- Evaluating opportunities for portfolio rationalization and other strategic alternatives.

1. As of December 31, 2017, further details including tonnes, grade and assumptions are presented in the Company's press release issued on February 15, 2018 and AIF filed March 28, 2018.
2. Gold equivalent ounces include gold plus silver at a ratio of 72:1. please refer to the Mineral Reserves and Mineral Resources Estimates commencing on slide 37.
3. Measured and Indicated Mineral Resources are inclusive of Proven and Probable Mineral Reserves, please refer to the Mineral Reserves and Mineral Resources Estimates on slide 37.
4. Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability.
5. Leagold Mining's acquisition of Brio Gold closed on May 24, 2018. FactSet market data as of January 2, 2019.

COPPER ADVANCED SALES PROGRAM
ILLUSTRATIVE IMPACT DUE TO THE ADVANCED COPPER SALES

(In millions)	March 31, 2018	June 30, 2018	September 30, 2018	December 31, 2018[2]	March 31, 2019[2]	June 30, 2019[2]	Cumulative Impact
Copper pounds to be delivered per contract (millions)			13.2	10.7	8.2	8.2	40.3
Cash flows from operating activities before net change in working capital[1]	$206.4	$157.5	$86.6				
Impact due to copper advanced sales program	(125.0)	-	41.7	33.3	25.1	24.9	
Cash flows from operating activities before net change in working capital, normalized due to copper advanced sales program[1]	$81.4	$157.5	$128.3	-	-	-	

1. A cautionary note regarding non-GAAP financial measures is included in Section 10: Non-GAAP Financial Measures and Additional Subtotals in Financial Statements of this MD&A. Adjusted operating cash flows are adjusted for payments not reflective of current period operations and advance payments received pursuant to metal purchase agreements.
2. For illustration purposes only; the Company intends to provide information each subsequent period reflecting the impact due to copper advanced sales program over its term.

CURRENCY TAILWINDS
LOCKING IN FOREIGN EXCHANGE BENEFITS

Zero Cost Collar Contracts:

BRL	October 2018 - June 2019, Brazilian Real to US Dollar average call and put strike prices of R$3.15 and R$3.47 per US Dollar, respectively, totalling R$270 million evenly split by month.
	January - December 2019, Brazilian Real to US Dollar average call and put strike prices of R$3.75 and R$4.74 per US Dollar, respectively, totalling R$348 million evenly split by month.
	July - December 2019, Brazilian Real to US Dollar average call and put strike prices of R$3.75 and R$4.87 per US Dollar, respectively, totalling R$135 million evenly split by month.

Forward Contracts:

CAD	C$15 million evenly split by month from October 2018 to December 2018 with Canadian Dollar to US Dollar forward rates of C$1.25 per US Dollar.

THIRD QUARTER PROGRESS
HIGHLIGHTS

Delivered on Results	Delivered production above expectations with 279,464 GEO[1] and copper production of 28.6M lbs with costs at or lower than the guidance ranges for our cost metrics.
Increased Production Guidance	Increased production guidance to 920,000 oz for gold and 125M lbs for copper. Our silver guidance was lowered to 7.55M oz but on a gold equivalent basis we are still tracking well to our production guidance.
Improved Cost Outlook	Improved outlook for co-product and by-product cash costs and AISC which are now expected to be below the bottom end of guided ranges.
Successful First Full Quarter at Cerro Moro	Successful first full quarter of commercial production with 38,083 oz gold at an average mill feed grade of 16.15 g/t, recovery rate of 92.5% and costs below guidance.
Exploration	Exploration continued to advance discoveries at existing operations expected to generate increases to Mineral Reserve and Mineral Resource estimates during the year.
Portfolio Optimization	Delivered on the sale of Gualcamayo, which had been classified as held for sale. Retained the opportunity to participate in medium to longer term value creation with NSR agreements.

1. Gold equivalent ounces include gold plus silver at a ratio of 78.01:1 for Q3 2018.

THIRD QUARTER IN REVIEW
FINANCIAL HIGHLIGHTS

(In millions except per share figures)	Q3 2018	Q3 2017	Change
Revenue	$416.8	$493.4	$(76.6)
Gross margin excluding DD&A	$183.3	$214.4	$(31.1)
DD&A	$109.4	$108.0	$1.40
G&A expense (excluding stock based expenses)[2]	$19.2	$21.8	$(2.6)
Net (loss)/earnings[3]	$(81.3)	$45.7	$(127.0)
Net (loss)/earnings per share[3]	$(0.09)	$0.05	$(0.14)
Adjusted earnings per share[1,3,4]	$0.02	$0.04	$(0.02)
Sustaining capital	$52.8	$50.1	$2.7
Expansionary capital	$30.1	$86.5	$(56.4)
Exploration capitalized/expensed	$19.9/$2.5	$22.9/$4.9	$(3.0)/$(2.4)
Cash flows from operating activities	$64.5	$149.8	$(85.3)
Cash flows from operating activities before net change in working capital[1]	$86.6	$135.8	$(49.2)
Cash flows from operating activities before income taxes paid and net change in working capital[1]	$104.5	$171.5	$(67.0)

1. A non-GAAP measure, additional line item or subtotal. A reconciliation of the IFRS measure to the non-GAAP measure can be found at www.yamana.com/Q32018.
2. G&A expense in Q3 2017 excludes Brio Gold which was ultimately acquired by Leagold Mining.
3. Attributable to Yamana equity holders.
4. Certain non-cash and other items that may not be reflective of current and ongoing operations were $104.9 million or $0.11 per share for Q3 2018.

Mineral Reserve and Mineral Resource Reporting Notes

1. Metal Prices and Cut-off Grades:

Mine	Mineral Reserves	Mineral Resources
Anoki-McBean (50%)	N/A	$1,200 Au, cut-off grade at 2.5 g/t Au
Amalgamated Kirkland (50%)	N/A	$1,200 Au, cut-off grade at 2.5 g/t Au
Alumbrera Deposit (12.5%)	$1,250 Au, $2.91 Cu. Underground cut-off at 0.5% Cueq. Metallurgical recoveries are 87.85% for Cu and 72.31% for Au.	0.5% Cueq within economic envelope
Bajo El Durazno Deposit (12.5% - Part of Alumbrera Projects)	$1,250 Au, $2.91 Cu. Open pit cut-off at 0.3 g/t Aueq within pit. Metallurgical recoveries are 72.83% for Cu and 66.75% for Au.	0.2 g/t Aueq within economic envelope
Arco Sul	N/A	2.5 g/t Au cut-off
Canadian Malartic (50%)	$1,200 Au, cut-off grades range from 0.334 to 0.374 g/t Au. Metallurgical recoveries for Au range from 87% to 96.7% depending on zone.	$1,200 Au, cut-off grades range from 0.35 g/t Au inside pit and 1.0 g/t Au outside or below pit. Cut-off grade Odyssey Underground at 1.0 g/t Au and East Malartic Underground at 1.25 g/t Au (MSO).
Cerro Moro	$950 Au and $18.00 Ag, Open pit cut-off at 3.4 g/t Aueq and Underground cut-off at 6.2 g/t Aueq. Metallurgical recoveries are 95% for Au and 93% for Ag.	1.0 g/t Aueq cut-off
Chapada	$1,250 Au, $3.00 Cu; $4.36 NSR cut-off at $4.06 / t (Main Pit, Corpo Sul, Cava Norte and Sucupira). Cut-off grade 0.21 g/t Au based on $1,300 / ounce Au (Suruca Oxide). Cut-off grade 0.3 g/t Au based on $900 / ounce Au (Suruca Sulphide). Metallurgical recoveries for Suruca Oxide are dependent on zone and average 85% for gold.	$1,600 / ounce Au Au, $4.00 / lb Cu (Chapada pits and Suruca SW). 0.2 g/t Au cut-off for oxide and 0.3 g/t Au cut-off for sulphide in Suruca Gold Project.
El Peñón	$1,250 Au, $18.00 Ag, Variable cut-off for Underground ranging from 3.48 g/t Aueq to 4.31 g/t Aueq dependent on zone. Reserves based on economic revenue. Metallurgical recoveries for Au ranges from 82% to 97% and Ag ranges from 56% to 95% dependent on zone.	$1,600 Au, $24.00 Ag, Variable cut-off for Underground ranging from 2.71 g/t Aueq to 2.82 g/t Aueq dependent on zone. Cut-off grade for tailings at 0.50 g/t Aueq and for low grade stock at 0.80 g/t Aueq. Metallurgical recoveries: Underground 95% Au and 86.5% Ag. Tailings 60% Au and 20% Ag. Low grade stock 75% Au and 70% Ag.
Gualcamayo	$1,250 Au, Reserves based on economic revenue with variable cut-offs. Metallurgical recoveries for Au open pit ore are 49% and 61% for Au underground ore.	Open pit resources based $1,500 Au resource pit with cut-offs dependent on zone. 1.00 g/t Au Cut-off UG material outside of the the resource pit shell.
Hammond Reef (50%)	N/A	$1,400 Au, Open pit cut-off 0.32 g/t Au West Pit and 0.34 g/t Au East Pit.
Jacobina	$1,200 Au; 1.2 g/t Au cut-off. Metallurgical recovery for Au is 96%.	0.5 g/t Au cut-off based on $1,600 Au price and a minimum width of 1.5 m, 96.5% metallurgical recovery and incremental mining cost.
Jeronimo (57%)	$900 Au, 2.0 g/t Au cut-off. Metallurgical recovery for Au is 86%.	2.0 g/t Au cut-off
La Pepa	N/A	$780 Au, 0.30 g/t Au cut-off
Lavra Velha	N/A	$1300 Au, $3.50 Cu and 0.2g/t Au, 0.1% Cu cut-offs
Minera Florida	$1,250 Au, $18.00 Ag, $1.25 Zn. Reserves based on a 2.17 g/t Aueq cut-off. Metallurgical recoveries are 90.81% for Au, 51.63% for Ag and 57.38% for Zn.	2.50 g/t Aueq cut-off
Monument Bay	N/A	$1,200 Au, 0.4 and 0.7 g/t cut-off for open pit and 4.0 g/t Au cut-off for underground.
Suyai	N/A	5.0 g/t Au cut-off
Upper Beaver (50%)	$1,200 Au, $2.75 Cu. Reserves based on NSR cut-off of C$125.00/t. Metallurgical recoveries are 95% for Au and 80% to 90% for Cu.	$1,200 Au and $2.75 Cu. Resources based on NSR cut-off of C$95.00/t. Metallurgical recoveries are 95% for Au and 90% for Cu.
Agua Rica	$1,000 Au, $2.25 lb Cu, $17.00 g/t Ag, $12.00 lb Mo. Metallurgical recoveries are 84.9% for Cu, 52.7% for Au, 67.6% for Ag, 65.9% for Zn, and 66.0% for Mo.	0.2% Cu cut-off

2. All Mineral Reserves and Mineral Resources have been calculated in accordance with the standards of the Canadian Institute of Mining, Metallurgy and Petroleum and NI 43-101, other than the estimates for the Alumbrera mine which have been calculated in accordance with the JORC Code which is accepted under NI 43-101.

3. All Mineral Resources are reported exclusive of Mineral Reserves.

4. Mineral Resources which are not Mineral Reserves do not have demonstrated economic viability.

5. Mineral Reserves and Mineral Resources are reported as of December 31, 2017.

6. For the qualified persons responsible for the Mineral Reserve and Mineral Resource estimates, see the qualified persons list below.

Property	Qualified Persons for Mineral Reserves	Qualified Persons for Mineral Resources
Canadian Malartic	Donald Gervais, P. Geo., Canadian Malartic GP	Donald Gervais, P. Geo., Canadian Malartic GP
Chapada	Luiz Pignatari, EDEM Engenharia	Luiz Pignatari, EDEM Engenharia . Felipe Machado de Araujo, Member of Chilean Mining Commission, Mineral Resources Coordinator Brazil, Yamana Gold Inc.
El Peñón	Sergio Castro, Yamana Gold Inc.	Jorge Camacho, Yamana Gold Inc. Marcos Valencia A. P.Geo., Registered Member of Chilean Mining Commission, Corporate Manager R&R, Andes/Mexico, Yamana Gold Inc.

1. As of December 31, 2017.
