DISCLAIMER

This presentation and the accompanying webcast contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All such statements, other than statements of historical facts, are forward-looking statements. Generally, you can identify forward-looking statements by terms such as “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “could,” “intends,” “targets,” “projects,” “contemplates,” “believes,” “estimates,” “predicts,” “potential” or “continue” or the negative of these terms or other similar expressions. Forward-looking statements contained in this presentation and the webcast include, but are not limited to, statements about our bookings and backlog, seasonality, hiring plans, investments, our ability to continue to expand our market share or expand into new markets and verticals, the impact of inflation and our ability to address such impacts, our ability to manage expenses, our ability to timely implement new clients, investment highlights, our CAGR model, and our fourth quarter 2024 and full year 2024 financial guidance. Forward-looking statements are subject to known and unknown risks, uncertainties, assumptions and other factors. Some of these risks are described in greater detail under the captions “Special Note Regarding Forward-Looking Statements” and “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2023 filed with the Securities and Exchange Commission (the “SEC”) on March 5, 2024, and in our other filings with the SEC. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. These factors may cause our actual results, performance or achievements to differ materially and adversely from those anticipated or implied by our forward-looking statements. Furthermore, our forward-looking statements may prove to be materially inaccurate. In light of the significant uncertainties in these forward-looking statements, you should not place undue reliance on them or regard them as a representation or warranty by us or any other person that we will achieve our objectives and plans in any specified time frame, or at all. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

In addition, forward-looking statements reflect our current beliefs and opinions on the relevant subject. These statements are based upon information available to us as of the date of this presentation and webcast, and although we believe such information forms a reasonable basis for such statements, such information may be limited or incomplete, and our statements should not be read to indicate that we have conducted a thorough inquiry into, or review of, all potentially available relevant information.

In addition to the GAAP financial measures presented in our consolidated financial statements, this presentation includes key performance indicators and non-GAAP financial measures that our management uses to help us evaluate our business, identify trends affecting our business, formulate business plans and make strategic decisions. There are limitations to contribution profit and margin, adjusted gross profit, non-GAAP operating expenses, non-GAAP net income, non-GAAP earnings per share, EBITDA, adjusted EBITDA and margin, and free cash flow, the non-GAAP measures included in this presentation. These non-GAAP measures may not be comparable to similarly titled measures of other companies; other companies, including companies in our industry, may calculate non-GAAP measures differently than we do, limiting the usefulness of those measures for comparative purposes. These non-GAAP measures should not be considered in isolation from or as a substitute for GAAP financial measures. Reconciliations of these non-GAAP measures to the most directly comparable GAAP measures are included in the Appendix to this presentation.

Unless otherwise indicated, all references in this presentation to “Paymentus,” “we,” “our,” “us,” or similar terms refer to Paymentus Holdings, Inc. and its subsidiaries.

PAYMENTUS Q3 2024 EARNINGS REPORT

APPENDIX

USE AND DEFINITIONS OF NON-GAAP MEASURES

In addition to disclosing financial measures in accordance with accounting principles generally accepted in the United States, or GAAP, this presentation contains certain non-GAAP financial measures set forth below. We use non-GAAP measures to supplement financial information presented on a GAAP basis. We believe that excluding certain items from our GAAP results allows management and our board of directors to more fully understand our consolidated financial performance from period to period and helps management project our future consolidated financial performance as forecasts are developed at a level of detail different from that used to prepare GAAP-based financial measures.

Contribution profit: We define contribution profit as gross profit plus other cost of revenue. Other cost of revenue equals cost of revenue less interchange and assessment fees paid by us to our payment processors.

Adjusted gross profit: We define adjusted gross profit as gross profit adjusted for non-cash items, primarily stock-based compensation and amortization.

Adjusted EBITDA: We define adjusted EBITDA as net income before interest income (expense), net, other income (expense), depreciation and amortization of acquisition related intangible assets and capitalized software development costs, and income taxes, adjusted to exclude foreign exchange gain (loss), the effects of stock-based compensation expense and certain nonrecurring expenses that management believes are not indicative of ongoing operations.

Adjusted EBITDA margin or %: Adjusted EBITDA margin or % is a non-GAAP financial measure defined as adjusted EBITDA as a percentage of contribution profit.

Non-GAAP operating expense: We define non-GAAP operating expense as total operating expense excluding amortization of acquisition-related intangibles, stock-based compensation and other non-recurring expenses. Management believes that the adjustment of acquisition-related intangibles amortization supplements the GAAP information with a measure that can be used to assess the comparability of operating performance. Although we exclude amortization from acquisition-related intangible assets from our non-GAAP expenses, management believes that it is important for investors to understand that such intangible assets were recorded as part of purchase accounting and contribute to revenue generation. Amortization of intangible assets that relate to past acquisitions will recur in future periods until such intangible assets have been fully amortized. Any future acquisitions may result in the amortization of additional intangible assets.

Non-GAAP net income and non-GAAP EPS: We define non-GAAP net income and non-GAAP EPS as net income and net income per share, respectively, excluding stock-based compensation, amortization of acquisition-related intangibles and certain nonrecurring items such as discrete tax items, one-time expenses or other non-cash items.

Free Cash Flow: We define free cash flow as net cash provided by (used in) operating activities less capital expenditures and software and capitalized internal-use software development costs.

We encourage investors and others to review our financial information in its entirety, not to rely on any single financial measure, and to view our non-GAAP measures in conjunction with GAAP financial measures. For a reconciliation of these non-GAAP financial measures to GAAP measures, please see the tables below for the reconciliation of GAAP to non-GAAP results included in this presentation.

Use of Forward-Looking Non-GAAP Measures. We do not meaningfully reconcile guidance for non-GAAP measures, because we cannot provide guidance for the more significant reconciling items without unreasonable effort. This is due to the fact that future period non-GAAP guidance includes adjustments for items not indicative of our core operations, which may include, without limitation, items included in the supplemental financial information for reconciliation of reported GAAP results to non-GAAP results or items beyond our control. Such items include acquisition related amortization expense for acquired intangibles, foreign exchange gains and losses, adjustments to our income tax provision and certain other items we believe to be non-indicative of our ongoing operations. Such adjustments may be affected by changes in ongoing assumptions, judgments, as well as nonrecurring, unusual or unanticipated charges, expenses or gains/losses or other items that may not directly correlate to the underlying performance of our business operations. The exact amount of these adjustments is not currently determinable but may be significant.
