

## NEWS RELEASE

# REGAL REXNORD ANNOUNCES CHANGE IN CORPORATE ADDRESS

9/8/2023

BELOIT, Wis., Sept. 8, 2023 /PRNewswire/ -- Regal Rexnord Corporation (NYSE: RRX)

Regal Rexnord Corporation ("Regal Rexnord") today announced its decision, effective immediately, to change its corporate address from 200 State Street, Beloit, Wisconsin 53511 to:

111 West Michigan Street, Milwaukee, Wisconsin 53203

The new corporate location, one of the Company's largest offices, is already the headquarters for its Industrial Powertrain Solutions business segment. Its Power Efficiency Solutions business segment headquarters are located just north of Milwaukee, in Grafton, WI, and the Milwaukee area is home to several other Regal Rexnord facilities.

Regal Rexnord, formerly known as Regal Beloit Corporation, was headquartered in Beloit, Wisconsin for over 30 years and currently has two facilities within the Beloit-Stateline area.

CEO Louis Pinkham commented on the news, noting, "We are pleased to make this change, recognizing our increased presence in Southeastern Wisconsin. We honor our roots and appreciate the wonderful relationship we continue to maintain with the Beloit-Stateline area."

The Company confirmed that none of the Regal Rexnord associates making up various functional and business teams in Beloit and South Beloit are being displaced as a result of this address change.

Mr. Pinkham added, "While we anticipate some of our leaders spending more time in Milwaukee, we are a decentralized organization, and we continue to collaborate effectively among all our RRX sites, for the benefit of all our stakeholders. Changing our headquarters address does not change that approach to collaboration."

[About Regal Rexnord](#)

Regal Rexnord Corporation is a global leader in the engineering and manufacturing of factory automation sub-systems, industrial powertrain solutions, automation and mechanical power transmission components, electric motors and electronic controls, air moving products, and specialty electrical components and systems, serving customers around the world.
