

NEWS RELEASE

REGAL REXNORD PUBLISHES 2024 SUSTAINABILITY REPORT

2025-09-04

MILWAUKEE, Sept. 4, 2025 /PRNewswire/ -- Regal Rexnord Corporation (NYSE: RRX) today published its annual Sustainability Report, including progress towards its environmental goals. The report provides an update on how sustainability considerations are intertwined with the Company's growth strategy:

- Developing innovative products and sustainable solutions that customers value, while intentionally factoring environmental considerations into how they are designed and manufactured;
- Creating a workplace that invites diversity of thought, experiences, and backgrounds, where all associates are included and can leverage their unique perspectives to foster innovation and drive success for customers, fellow associates, and shareholders; and
- Maintaining sound corporate governance policies and practices that are considered a cornerstone of effective risk management.

The Sustainability Report provides a strategic update on how the Company is operating consistently with its business purpose, which is to Create a Better Tomorrow with Sustainable Solutions that Power, Transmit, and Control Motion. Helping customers, communities, and the planet by providing sustainable solutions remains core to how and why Regal Rexnord operates.

The report also shares progress towards the Company's goal of achieving carbon emission neutrality across Scope 1 and 2 GHG emissions by 2032. In 2024, the Company achieved a 13% year-over-year reduction in absolute Scope 1 and 2 GHG emissions and decreased its GHG emission intensity by 9.8%. Additionally, the report outlines ways the Company is helping customers achieve their own sustainability goals by making our end users' applications more environmentally friendly.

"Helping our customers, our communities, and our planet by providing sustainable products remains core to how and why we operate," said Louis Pinkham, CEO. "It is integrated into our growth strategy and embedded in our purpose. We were extremely pleased to see our progress and contributions around sustainability recognized externally, most recently by Barron's, which ranked Regal Rexnord 36th on its 2025 list of the 100 most sustainable U.S. companies. This is the second year in a row that Regal Rexnord ranked highly in Barron's annual assessment."

Mr. Pinkham continued, "Looking ahead, our strategy will continue to include advancing innovation and sustainability initiatives that align with our Regal Rexnord values, support our emission reduction targets, and help our customers achieve their sustainability goals. I believe a key to our continued success is acknowledging that our customers' environmental objectives and our pursuit of profitable growth opportunities can be synergistic."

Regal Rexnord's annual sustainability report and accompanying disclosures demonstrate its progress around the world and provide key data and metrics prepared in general alignment with the Task Force on Climate-Related Financial Disclosure (TCFD), the Global Reporting Initiative (GRI), and the Sustainability Accounting Standards Board (SASB). The report covers the fiscal year that ended December 31, 2024, with reference to certain actions and developments during 2025. The current and prior sustainability reports are available [here](#) and on the Regal Rexnord investor relations website.

About Regal Rexnord

Regal Rexnord's 30,000 associates around the world help create a better tomorrow by providing sustainable solutions that power, transmit and control motion. The Company's electric motors and air moving subsystems provide the power to create motion. A portfolio of highly engineered power transmission components and subsystems efficiently transmits motion to power industrial applications. The Company's automation offering, comprised of controllers, drives, precision motors, and actuators, controls motion in applications ranging from factory automation to precision tools used in surgical applications.

The Company's end markets benefit from meaningful secular demand tailwinds, and include discrete automation, food & beverage, aerospace, medical, data center, energy, residential and commercial buildings, general industrial, and metals and mining.

Regal Rexnord is comprised of three operating segments: Industrial Powertrain Solutions, Power Efficiency Solutions, and Automation & Motion Control. Regal Rexnord is headquartered in Milwaukee, Wisconsin, and has manufacturing, sales and service facilities worldwide.
