

NEWS RELEASE

Regal Beloit Corporation Announces Additional Plant Restructuring

6/5/2014

BELOIT, Wis., June 5, 2014 /PRNewswire/ -- Regal Beloit Corporation (NYSE:RBC) has informed employees at its Mt. Sterling and Winchester, Kentucky locations of its decision to cease operations at both facilities. The products and processes located at these facilities will be transferred to other Regal and non-Regal facilities. This will affect approximately 200 employees.

Regal has multiple manufacturing facilities that make various component parts and motors. Regal believes that consolidating these operations will enable it to remain globally competitive, reduce variation between its manufacturing facilities and improve cycle times. The decision to close these facilities is not a reflection on the efforts of Regal employees.

Regal will be meeting with the union to discuss the impact of this decision in compliance with the National Labor Relations Act. It is the Company's intention to provide a comprehensive benefits package for eligible employees affected by the plant closures.

Regal's goal will be to help affected employees make a successful transition from their jobs to other work within Regal Beloit Corporation or in the community.
