Cautionary Statement

- **Cautionary "Safe Harbor" Statement Under the Private Securities Litigation Reform Act of 1995:** This presentation contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors that could cause actual results to differ materially from the projections and estimates contained herein and include, but are not limited to statements with regard to: solid, steady and successful performance; diverse, gold-focused, gold-weighted, high-quality portfolio generating organic growth; disciplined, accretive, non-dilutive capital deployment and growth; strong capital structure and liquidity; growing and sustainable dividend and leading TSR; cash costs of the operators of our stream and royalty properties; remaining mine life and asset maturity; recovery of initial investment; transaction timing; equity scarcity bringing project development and M&A opportunities; funding growth through cash flow and strategic use of debt; growth in operating cash flow, revenue, dividends and shares outstanding; strong capital structure and liquidity; expectations to repay June 2019 bonds with cash from credit facility; growing and sustainable dividend and compounded annual growth in dividends to date; leading TSR; gold as hedge against market risk, inflation and currency risk, and providing competitive returns; streaming companies trading at high P/NAV and P/CF multiples; Board and management positioned for success. Factors that could cause actual results to differ materially from these forward-looking statements include, among others: inability of operators to bring projects into production as expected, especially development stage mining properties, mine and mill expansion projects and other development and construction projects; revisions or inaccuracies in technical reports, reserves, mineralized material, costs, mine life and mine life parameters and economic and production estimates; changes in project parameters as plans of the operators are refined; the results of current or planned exploration activities; the risks inherent in the construction and operation of mining properties; a decreased price environment for gold and other metals on which our stream and royalty interests are determined; performance of and production at properties, and variation of actual production from the production estimates and forecasts made by the operators of those stream and royalty properties; decisions and activities of the Company's management affecting margins, use of capital and changes in strategy; unexpected operating costs, decisions and activities of the operators of the Company's stream and royalty properties; changes in operators' mining and processing techniques or stream or royalty calculation methodologies; resolution of regulatory and legal proceedings; unanticipated grade, geological, metallurgical, environmental, processing or other problems at the properties; operators' inability to access sufficient raw materials, water or power; errors or disputes in calculating stream deliveries and royalty payments, or deliveries or payments under stream or royalty agreements; the liquidity and future financial needs of the Company; economic and market conditions; the impact of future acquisitions and stream and royalty financing transactions; the impact of issuances of additional common stock; and risks associated with conducting business in foreign countries, including application of foreign laws to contract and other disputes, environmental laws, enforcement and uncertain political and economic environments. These risks and other factors are discussed in more detail in the Company's public filings with the Securities and Exchange Commission. Statements made herein are as of the date hereof or as of the date indicated and should not be relied upon as of any subsequent date. The Company's past performance is not necessarily indicative of its future performance. The Company disclaims any obligation to update any forward-looking statements.
- **Third-party information:** Certain information in this presentation has been provided to the Company by the operators of properties subject to our stream and royalty interests, or is publicly available information filed by these operators with applicable securities regulatory bodies, including the Securities and Exchange Commission. The Company has not verified, and is not in a position to verify, and expressly disclaims any responsibility for the accuracy, completeness or fairness of such third-party information and refers readers to the public reports filed by the operators for information regarding those properties.

Why Gold?

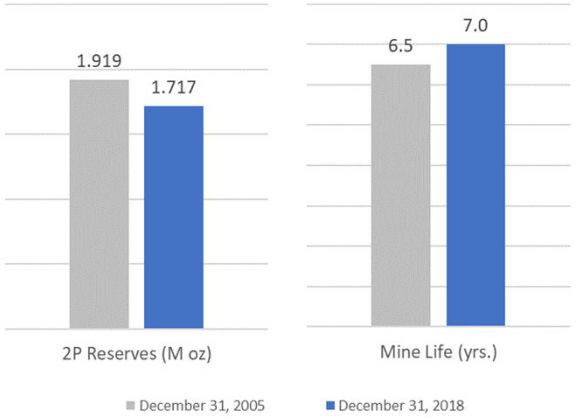

- Gold appeals to those who want:
  - Diversification
  - Hedge against market risk, inflation and currency risk
- Gold also provides competitive returns

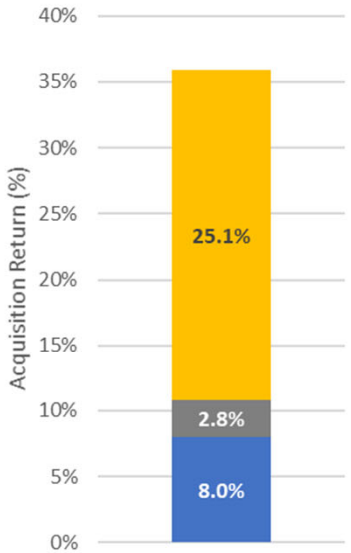

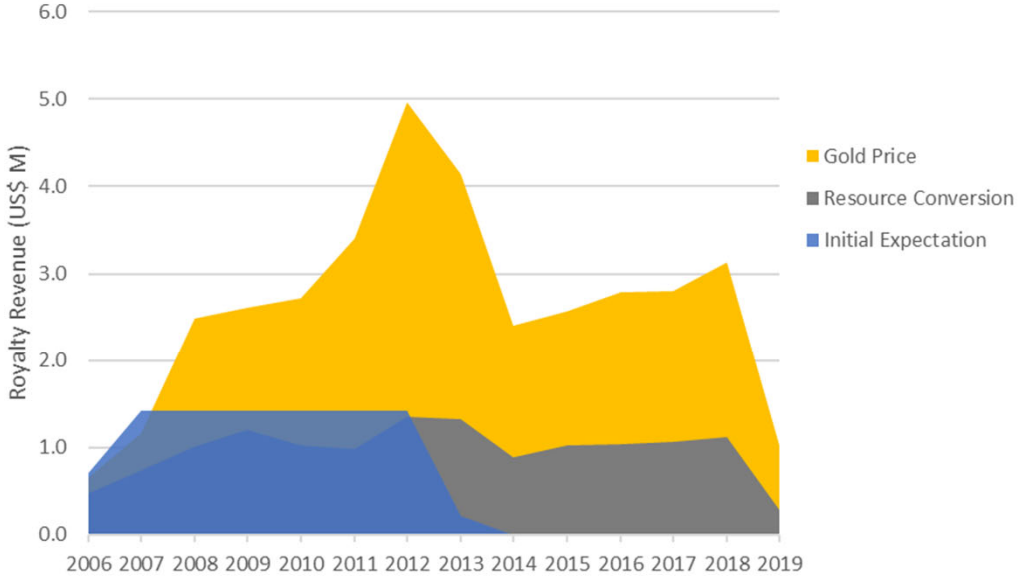

*As of 31 December 2018. Computations in US dollars of total return indices for ICE 3-month Treasury, Bloomberg Barclays US Bond Aggregate, MSCI US, EAFE and EM indices, Bloomberg Commodity Index and spot for LBMA Gold Price PM.

Case Study – Optionality and Return

- Mulatos (Alamos Gold)
  - Royal Gold acquired 1.5% NSR from Kennecott Minerals, Dec. 2005
    - 2M oz cap reached April 2019
  - Pre-tax return ~36%
    - Excess return from mine life extension (2016 through 2025) and higher gold price

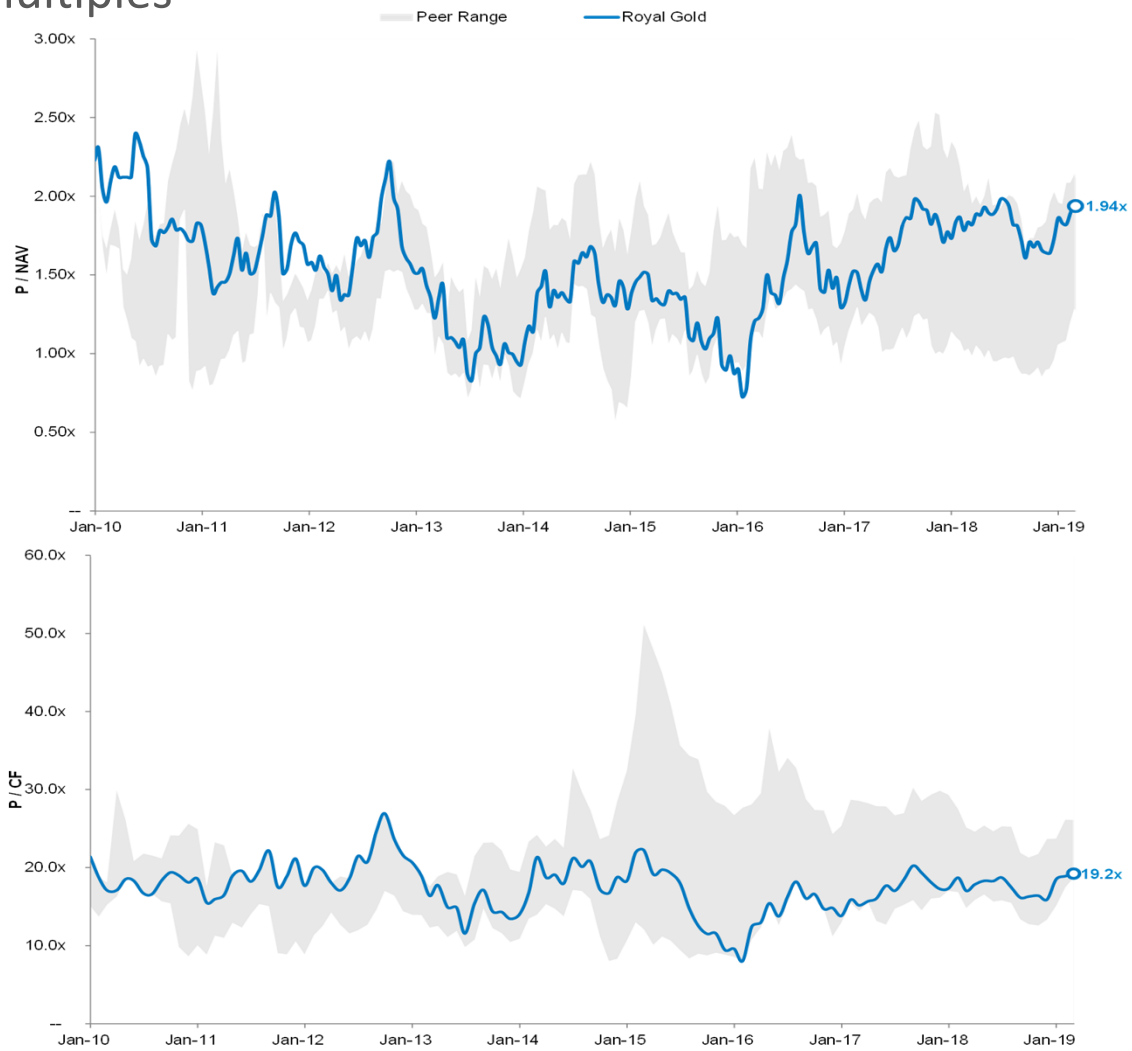

** Initial Expection based on 2P reserve processed at 15,000 t/d, assumed $450/oz flat gold price*
Resource Conversion based on actual production at $450/oz flat gold price
Gold Price includes actual royalty revenue received

Historical Multiples

- Streaming companies have historically traded at relatively high P/NAV and P/CF multiples
