# Forward Looking Statements

This presentation contains forward-looking statements made pursuant to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve a number of risks, uncertainties or other factors beyond the company's control, which may cause material differences in actual results, performance or other expectations. These factors include, but are not limited to, general economic conditions, competition, new development, construction and ventures, substantial leverage and debt service, fluctuations in currency exchange rates and interest rates, government regulation, tax law changes and the impact of U.S. tax reform, legalization of gaming, natural or man-made disasters, terrorist acts or war, outbreaks of infectious diseases, insurance, gaming promoters, risks relating to our gaming licenses, certificate and subconcession, infrastructure in Macao, our subsidiaries' ability to make distribution payments to us, and other factors detailed in the reports filed by Las Vegas Sands with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date thereof. Las Vegas Sands assumes no obligation to update such information.

Within this presentation, the company may make reference to certain non-GAAP financial measures including "adjusted net income," "adjusted earnings per diluted share," and "consolidated adjusted property EBITDA," which have directly comparable financial measures presented in accordance with accounting principles generally accepted in the United States of America ("GAAP"), along with "adjusted property EBITDA margin," "hold-normalized net revenue," "hold-normalized adjusted property EBITDA," "hold-normalized adjusted property EBITDA margin," "hold-normalized adjusted net income," and "hold-normalized adjusted earnings per diluted share," as well as presenting these items on a constant currency basis. The specific reasons why the company's management believes the presentation of each of these non-GAAP financial measures provides useful information to investors regarding Las Vegas Sands' financial condition, results of operations and cash flows, as well as reconciliations of the non-GAAP measures to the most directly comparable GAAP measures, are included in the company's Form 8-K dated April 17, 2019, which is available on the company's website at [www.sands.com](http://www.sands.com). Reconciliations also are available in the Non-GAAP Measures Reconciliations section of this presentation.

# Marina Bay Sands Hold Normalization Update

- In 2012, Marina Bay Sands began normalizing rolling win using an assumed win percentage of 2.85% when the Company’s actual rolling win percentage fell outside a range of 2.70% - 3.00%
  - Normalization calculation was based on actual historical trends at the time

- During the past three years, Marina Bay Sands has experienced an increase in its actual rolling win percentage:

(in US\$ millions)	<u>3-Year Trailing<sup>1</sup></u>	<u>2-Year Trailing<sup>2</sup></u>	<u>1-Year Trailing<sup>3</sup></u>
Actual Rolling Win %	3.22%	3.51%	3.50%
Actual Rolling Volume	\$ 94,044	\$ 62,158	\$ 27,164
Actual Rolling Win	\$ 3,030	\$ 2,184	\$ 952

- As of Q1 2019, normalized win will be adjusted to 3.15% when outside the range of 3.00% - 3.30%
- All periods presented throughout this document reflect this normalization range

1. Calculated based on actual rolling figures from 1/1/2016 through 12/31/2018.  
 2. Calculated based on actual rolling figures from 1/1/2017 through 12/31/2018.  
 3. Calculated based on actual rolling figures from 1/1/2018 through 12/31/2018.

**Industry's Strongest Balance Sheet and Cash Flow Create Ability to Reinvest in Current Portfolio, Return Capital to Shareholders and Preserve The Flexibility to Make Investments in New Jurisdictions – Allows Potential Investments of \$20 Billion or More in the Future**

1. Debt balances shown here are net of deferred financing costs and original issue discounts of \$109 million and exclude finance leases. SCL debt balance is net of a positive cumulative fair value adjustment of \$26 million.

2. Reflects only the public (non-LVS) portion of dividends paid by Sands China. Total dividends paid by Sands China in the TTM period ended March 31, 2019 were \$2.05 billion.

3. U.S. Operations include the cash and debt at the U.S. Restricted Group and adjusted property EBITDA from Las Vegas Operations and Sands Bethlehem.

4. TTM Adjusted Property EBITDA for Sands China presented here reflects Adjusted Property EBITDA from our Macao Operations.

5. TTM Adjusted Property EBITDA for U.S. Operations for covenant compliance purposes, which is adjusted primarily for the dividends and royalty fees paid by Sands China and Marina Bay Sands to the U.S. Operations, was \$2.89 billion.

6. This ratio is a simplified calculation using adjusted property EBITDA. The TTM adjusted property EBITDA amounts shown above are different from the calculation as defined per respective debt agreements for covenant compliance purposes. For Sands China, Marina Bay Sands and U.S. Operations, the leverage ratio for covenant compliance purposes was 1.8x, 2.0x and 1.0x, respectively.

## Changes in Casino Regulations

### Casino Exclusivity:

- The Singapore government has announced a renewal of the exclusivity period for the casinos within the two Integrated Resorts to the end of 2030

### Singapore Casino Entry Levy Increase:

- The entry levy increased on April 4, 2019 by 50% to S\$150 daily, or S\$3,000 annually

### Changes Specific to the Casino at Marina Bay Sands:

- Approval to develop the 55<sup>th</sup> floor of MBS' hotel Tower 1, or other areas within Tower 1, to conduct casino gaming
- Upon the achievement of certain milestones:
  - Ability to operate up to 3,500 gaming machines (up from 2,500 previously)
  - Option to purchase an additional 2,000 Sq. meters of additional gaming area

## Changes in Casino Tax Rates Effective March 1, 2022

On March 1, 2022, a tiered casino tax system will go into effect. These tax rates will be in effect until at least February 2032.

### Casino Tax Rate Structure

Mass Gaming Tax Rates:		
Before March 1, 2022	After March 1, 2022	
All GGR: 15.0%	First S\$3.1B GGR: 18.0%	GGR>S\$3.1B: 22.0%

Premium Gaming Tax Rates:		
Before March 1, 2022	After March 1, 2022	
All GGR: 5.0%	First S\$2.4B GGR: 8.0%	GGR>S\$2.4B: 12.0%

Note: if the IR fails to meet its investment commitments, then a flat tax rate of 12% will apply on the entire amount of GGR from premium gaming, and a flat tax of 22% will apply on the entire amount of GGR from mass gaming.

# Changi Airport

## Conveniently Connecting the World to Singapore

### Overview:

- Singapore's Changi Airport processed 65.6 million passenger movements in 2018, ranking it 19<sup>th</sup> Globally and 8<sup>th</sup> in Asia by that measurement
- Qualitative measures place it significantly higher – ranked World's Best Airport in 2019 (*Skytrax World Airport Awards*) for seventh consecutive year and for the tenth time overall
- Changi currently services ~400 cities in ~100 countries
- Future traffic growth estimated at least 3 – 4% per annum long-term and significant capacity increases are underway to facilitate that additional traffic

Changi Airport

### Recent Passenger Growth:

- Changi passenger movements increased by 5.5% in 2018 versus 2017
- 2015 to 2018 CAGR rate in passenger movement is +5.8%
- Most recent data for the first two months of 2019 reports growth of +5.1%

**Changi is one of the world's largest airports, an important Asian transport hub and a strong contributor to Singapore's leisure and business tourism appeal**

# Changi Airport

## Significant Development to Sustain Growth in Passenger Capacity

### Recent Airport Expansion:

- Terminal 4 opened October 2017 and hosts nine airlines including Cathay Pacific, Korean Air, Air Asia and Vietnam Airlines
- This has allowed these carriers to expand their operations as well as freeing up capacity in Terminals 1, 2 & 3
- Terminal 4 capacity is 16 million passengers taking the total capacity to 82 million passenger movements
- Changi Jewel opened in April 2019 – multi-use retail, hotel, F&B destination jointly developed by Changi Airport and CapitalLand Includes 280 shopping and dining outlets

*Changi Airport – Layout of Existing Facilities and Proposed Future Developments*

*Changi Jewel - Opened April 2019*

### Future Airport Expansion:

- Runways: Work currently ongoing to expand from a two runway to three-runway system. Completion anticipated early 2020's
- New 'Mega-Terminal' known variously as Terminal 5 or Changi East will ultimately take passenger handling capacity from 82million to >130 million passengers by ~2030
- In the longer-term Terminal 5 could add a further 20 million passengers if justified by demand, taking capacity >80% higher than it is today, even after the recent opening of Terminal 4

# Changi Airport - 31 Cities in China with Direct Flights to Singapore

Thirteen airlines fly direct services between Singapore Changi and cities in China:

- Singapore Airlines
- SilkAir

1. This schedule presents hold-normalized adjusted property EBITDA based on the following methodology:

- for Macao operations and Marina Bay Sands: if the rolling win percentage for the quarter is outside of the 3.00%-3.30% range, then a hold adjustment is calculated by applying a rolling win percentage of 3.15% to the rolling volume for the quarter.
- for Las Vegas Operations: if the baccarat win percentage for the quarter is outside of the 18.0%-26.0% band, then a hold adjustment is calculated by applying a baccarat win percentage of 22.0% for the quarter, and if the non-baccarat win percentage for the quarter is outside of the 16.0%-24.0% band, then a hold adjustment is calculated by applying a non-baccarat win percentage of 20.0% for the quarter.
- for Sands Bethlehem: no hold adjustment is made.
- for all properties: gaming taxes, commissions paid to third parties on incremental win, bad debt expense, discounts and other incentives are applied to determine the hold-normalized adjusted property EBITDA impact.

2. Adjusted property EBITDA presented here reflects adjusted property EBITDA from The Venetian Macao, Sands Cotai Central, The Parisian Macao, The Plaza Macao and Four Seasons Hotel Macao, Sands Macao and Ferry Operations and Other.

3. Denotes revised normalized rolling win percentage implemented in Q1 2019.

- Provides seamless connection from Northern China to the Macao border via the Guangzhou-Zhuhai Intercity Rail

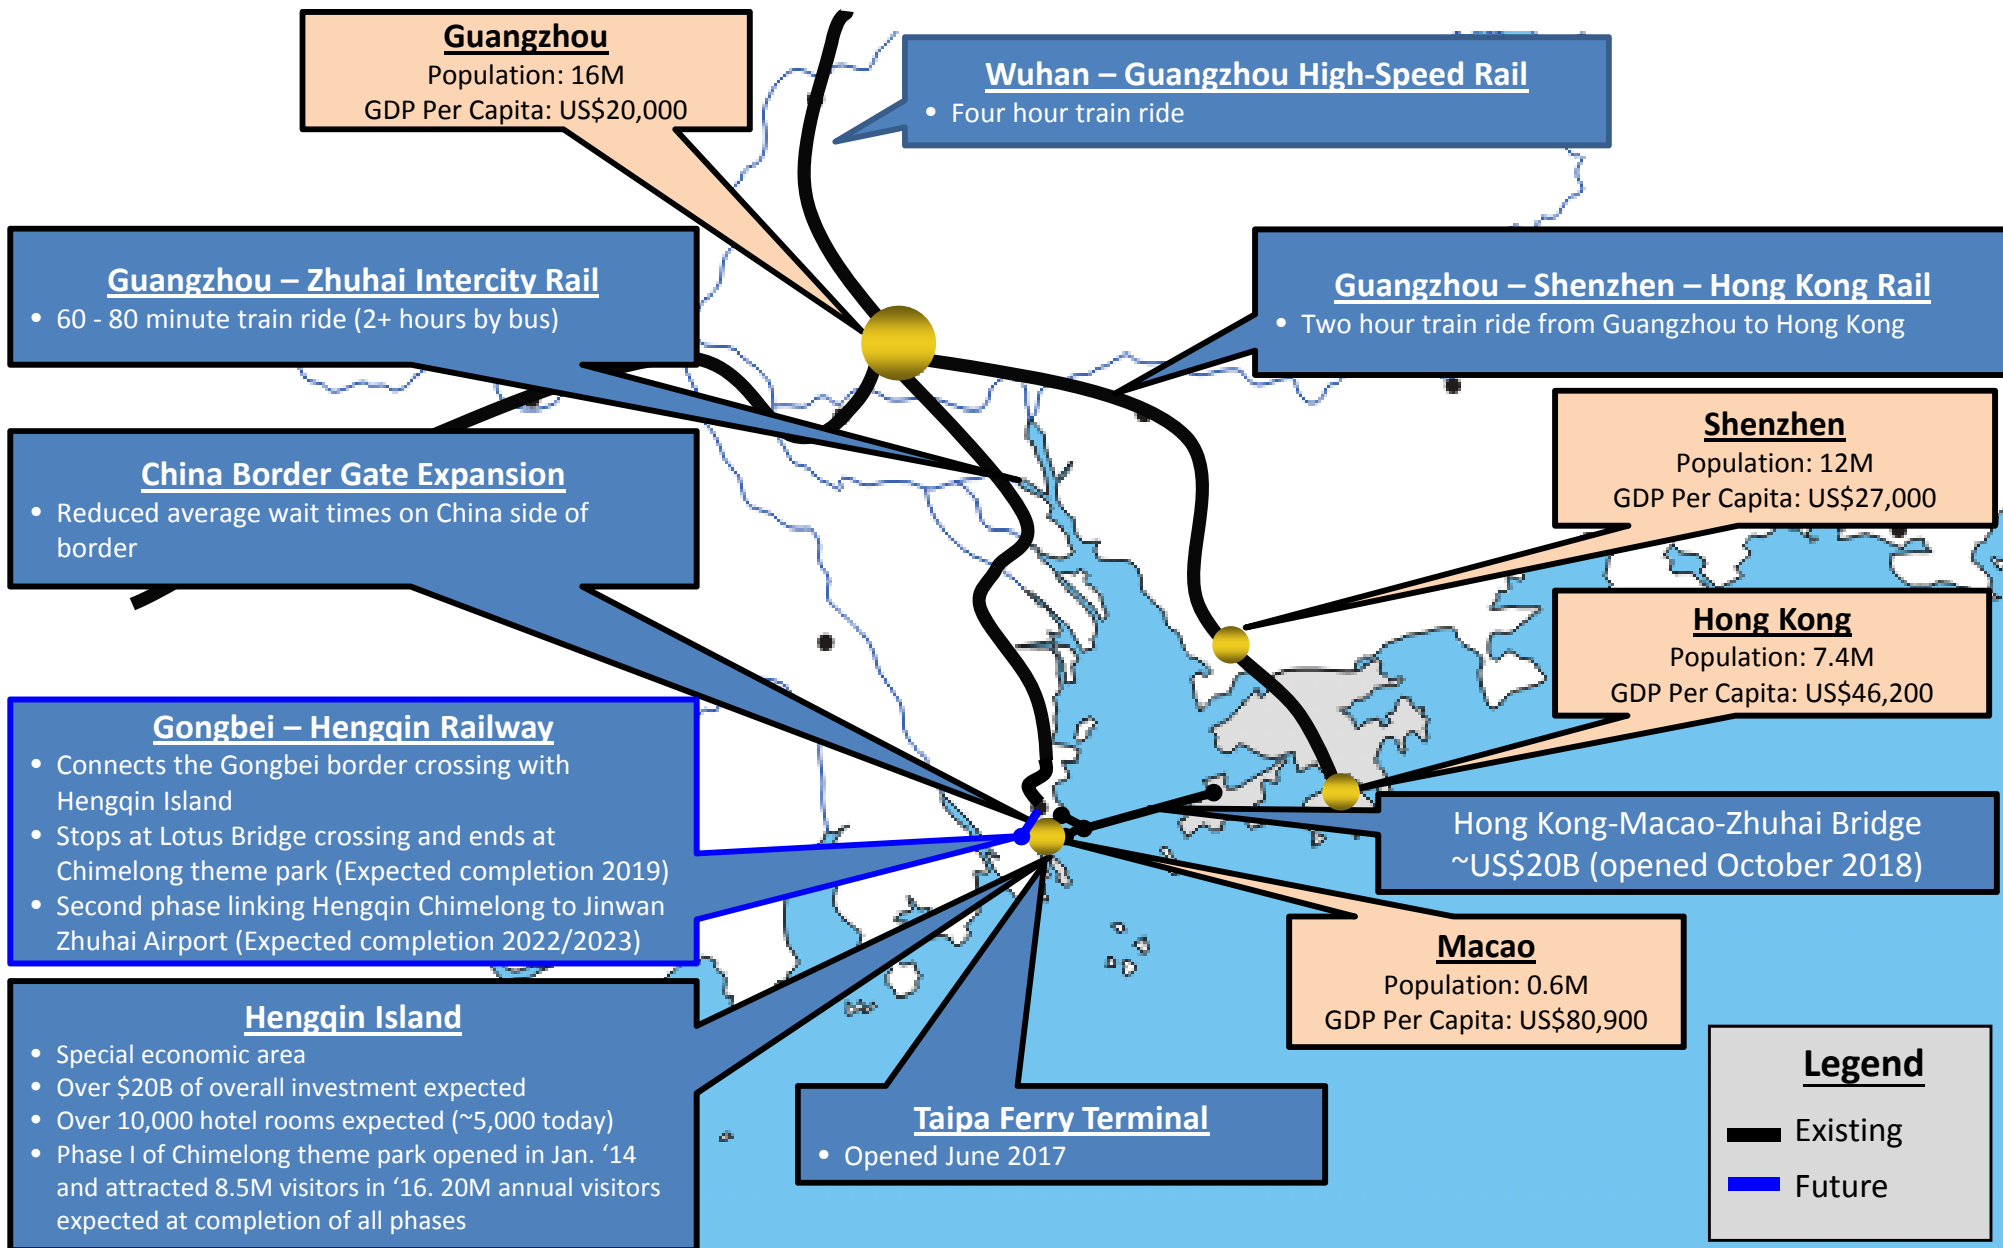

**Wuhan – Guangzhou High-Speed Rail**

- Wuhan is the capital of Hubei Province and one of the most populous cities in Central China with ~10 million people
- Wuhan is an important economic and transportation hub in Central China
- HSR reduces travel time to Guangzhou from 11 hours by bus to under 4 hours by train

**Plan to Continue Heavy Investment in the High-Speed Rail System –  
Approximately US\$130 Billion Per Year for the 2016-2020 Period**

## The Hong Kong-Macao-Zhuhai Bridge

\$20 Billion Bridge Is Vital Transportation Infrastructure Component  
Increasing Connectivity in Greater Bay Area

- Transportation to Macao from the Hong Kong International Airport, one of the largest and most important transportation hubs in the region, no longer requires a ferry or helicopter connection
- Prior to project completion, no roads directly connected Zhuhai and Macao with Hong Kong or the Hong Kong International Airport on Lantau Island. While service by ferry boat was available between Hong Kong and Macao, automobile traffic was required to travel via the Humen Bridge - a 200km journey of approximately four hours
- Future extension of HKIA Airport Express rail line to bridge will facilitate a more seamless transit process
- Bridge Facts:
  - The bridge opened for traffic on October 24, 2018
  - Access to Macao is now provided via an artificial island which connects to the Macao peninsula
  - The main structure measures 29.6 kilometers, consisting of a 22.9-km bridge section and 6.7-km underground tunnel
  - The bridge is one of the longest in the world, equivalent to more than 15 Golden Gate Bridges lined end to end

**During December 2018 Through February 2019 Monthly Visitor Arrivals to Macao via The Hong Kong-Macao-Zhuhai Bridge Averaged Approximately 500,000, Over 14% of Total Visitation**

## The Greater Bay Area Initiative Promoting the Economic Growth of The Pearl River Delta

- The Greater Bay Area (“GBA”) initiative was officially presented during the 12<sup>th</sup> National Peoples Congress in March 2017
- The GBA initiative promotes the development of the Pearl River Delta region via economic and social integration of 11 cities, including Hong Kong, Macao and nine major cities of Guangdong Province (the most affluent and populous province in China)
- The Guangdong-Hong Kong-Macao Greater Bay Area is geared to replicate the success stories of the world's three leading bay areas - in New York, San Francisco and Tokyo

### Greater Bay Area

- A 56,500 sq. km area encompassing 11 cities
- US\$1.36 trillion GDP in 2016, with an estimated population of 66.7 million
- Two key railways: Beijing-Guangzhou and Beijing-Kowloon lines
- 2 of China’s 4 busiest airports: Hong Kong International Airport (2<sup>nd</sup> in China, 8<sup>th</sup> globally) and Baiyun Airport of Guangzhou (4<sup>th</sup> in China, 15<sup>th</sup> globally)
- Connected by the Hong Kong-Macao-Zhuhai bridge

**The Greater Bay Area Accounted for 5% of China’s Population and ~12% of China’s GDP in 2016**

# Hengqin Island Expands Critical Mass of Tourism Offerings for Visitors to the Region

## Map of Hengqin Island New Area

## Important Facts

- Island adjacent to Macao (3X the size of Macao) that has been identified as a strategic zone for cooperation among Guangdong Province, Hong Kong and Macao
- Master-planned island with greater than US\$20 billion of investment focused on tourism development, industrial and technological innovation and education
- One of three current “New Area” reform zones in China
- Designed to contribute to the diversification of Macao
  - US\$3.2 billion Chimelong International Ocean Resort opened January 28, 2014 and attracted 8.5M visitors in 2016. It is expected to generate 20 million visits in the future after completion of all phases.<sup>1</sup>
  - Hengqin’s central business district features an 800,000 square foot convention center
  - More than 10,000 hotel rooms expected to open over the next five years. Around 5,000 hotel rooms are currently open.
- Favorable tax environment for corporations and certain individuals
  - Corporate tax: Reduced corporate tax of 15% for eligible Hengqin enterprises, compared to an average of 25% in China
  - Personal tax: Hong Kong and Macao residents working in Hengqin will only pay personal income tax on a par with the lower rates in the Special Administrative Regions

1. This schedule presents hold-normalized adjusted property EBITDA based on the following methodology:

- for Macao operations and Marina Bay Sands: if the rolling win percentage for the quarter is outside of the 3.00%-3.30% range, then a hold adjustment is calculated by applying a rolling win percentage of 3.15% to the rolling volume for the quarter.
- for Las Vegas Operations: if the baccarat win percentage for the quarter is outside of the 18.0%-26.0% band, then a hold adjustment is calculated by applying a baccarat win percentage of 22.0% for the quarter, and if the non-baccarat win percentage for the quarter is outside of the 16.0%-24.0% band, then a hold adjustment is calculated by applying a non-baccarat win percentage of 20.0% for the quarter.
- for Sands Bethlehem: no hold adjustment is made.
- for all properties: gaming taxes, commissions paid to third parties on incremental win, bad debt expense, discounts and other incentives are applied to determine the hold-normalized adjusted property EBITDA impact.

2. Adjusted property EBITDA presented here reflects adjusted property EBITDA from The Venetian Macao, Sands Cotai Central, The Parisian Macao, The Plaza Macao and Four Seasons Hotel Macao, Sands Macao and Ferry Operations and Other.

3. Denotes revised normalized rolling win percentage implemented in Q1 2019.
