Sands ECO360

Industry Leading Global Sustainability Program

The Sands ECO360 Global Sustainability program reflects our vision to lead our industry in sustainable development and integrated resort operations

Global Goals:

Our 2016-2020 Targets

- We have aligned our global sustainability targets for 2016-2020 with three key, measurable, UN Sustainable Development Goals (SDGs) and our emissions reduction goals are approved by science-based targets:

	 7 AFFORDABLE AND CLEAN ENERGY Emissions	 6 CLEAN WATER AND SANITATION Water	 12 RESPONSIBLE CONSUMPTION AND PRODUCTION Waste
UN Sustainable Development Goals (SDGs)	- Double the global rate of improvement in energy efficiency - Increase substantially the share of renewable energy in the global energy mix	Substantially increase water-use efficiency across all sectors	- Substantially reduce waste generation through prevention, reduction, recycling, and reuse - Halve per capita global food waste
Sands ECO360 Alignment with SDGs	 Energy  Transportation	 Water	 Waste  Food  Procurement
LVS Goals (2016-2020)	6% reduction in emissions from resort operations, in addition to offsetting newly opened resorts 6% reduction in ferry emissions	3% reduction in consumption on a per square foot basis	5% increase in waste diversion rate
Select 2018 LVS Accomplishments	- Implemented 43 eco-efficiency projects throughout our resorts - Established first renewable energy purchase agreement at Marina Bay Sands - Achieved 98% of LED lighting at Sands China properties	- Conducted extensive water audit and implemented 10 water efficiency projects at The Venetian Resort Las Vegas - Sands China successfully engaged with laundry services suppliers to reduce water consumption	- Expanded recycling program to construction waste in Marina Bay Sands - Implemented various initiatives to reduce single-use plastics at all our properties

The initiatives implemented before our 2016-2020 cycle reduced our electricity consumption by 247 million kWh and improved waste diversion by more than 10%

Sands ECO360

Key Initiatives:

1

GHG Emissions Goal Exceeded: During 2018, our property teams worked relentlessly reducing our energy consumption and related GHG emissions, which allowed us to reach our 2020 GHG Emissions goal two years in advance.

2

LEED Gold Certification: The ArtScience Museum at Marina Bay Sands obtained the LEED Gold certification for “Existing Buildings: Maintenance & Operations.” It is believed to be the first such museum in South East Asia.

3

First Macao Green Hotel Platinum Award: The Venetian Macao received the first ever Platinum level recognition by Macao Green Hotel Awards. Multiple other properties in Macao obtained or maintained their Gold level award.

4

CDP and DJSI: We are the only company from the Casino & Gaming industry named on the DJSI North America, and are part of both the CDP Climate A List and CDP Water A List.

5

Employee Engagement: In 2018, our Team Members globally contributed over 190,000 Sands ECO360 actions to protect the environment and we are on track to meet our 1 million Sands ECO360 actions target by 2020. For example, working with Clean the World, we repurposed amenities from hotel rooms into 90,000 hygiene kits.

Setting the Tone for 2019: Sands China announced on January 2, 2019 that it has discontinued its use of plastic straws at all its properties in an effort to reduce the consumption of single-use plastics.
