Las Vegas Sands Reports Third Quarter 2021 Results

For the quarter ended September 30, 2021
(Compared to the quarter ended September 30, 2020)

- Heightened Pandemic-Related Restrictions and Reduced Visitation Continue to Impact Financial Results
- Generating Positive Adjusted Property EBITDA in Macao and Singapore
- Safety and Security of Team Members and Guests and Support for Local Communities in Macao, Singapore and Las Vegas Remain Central to our Efforts
- Investment and Capital Expenditure Programs to Expand and Enhance our Integrated Resort Offerings in Macao and Singapore Continue

LAS VEGAS, NV, October 20, 2021 - Las Vegas Sands Corp. (NYSE: LVS), the world's leading developer and operator of convention-based Integrated Resorts, today reported financial results for the quarter ended September 30, 2021.

“While heightened pandemic-related restrictions impacted our financial results this quarter, we were able to generate positive EBITDA in each of our markets. We remain enthusiastic about the opportunity to welcome more guests back to our properties as greater volumes of visitors are eventually able to travel to Macao and Singapore,” said Robert G. Goldstein, chairman and chief executive officer. “We also remain deeply committed to supporting our team members and to helping those in need in each of our local communities as they recover from the impact of the COVID-19 pandemic.”

“We remain confident in the eventual recovery in travel and tourism spending across our markets. Demand for our offerings from customers who have been able to visit remains strong, but pandemic-

related travel restrictions in both Macao and Singapore continue to limit visitation and hinder our current financial performance.”

“Our industry-leading investments in our team members, our communities, and our market-leading Integrated Resort offerings position us exceedingly well to deliver growth as these travel restrictions eventually subside and the recovery comes to fruition. We are fortunate that our financial strength supports our investment and capital expenditure programs in both Macao and Singapore, as well as our pursuit of growth opportunities in new markets.”

Net revenue was \$857 million, compared to \$446 million in the prior year quarter. Operating loss was \$316 million, compared to \$523 million in the prior year quarter. Net loss from continuing operations in the third quarter of 2021 was \$594 million, compared to \$664 million in the third quarter of 2020. Consolidated adjusted property EBITDA was \$47 million, compared to \$(163) million in the prior year quarter.

In March 2021, LVS entered into definitive agreements to sell its Las Vegas real property and operations for an aggregate purchase price of approximately \$6.25 billion and anticipates the transaction to close in the first quarter of 2022. The financial position, results of operations and cash flows of the Las Vegas Operating Properties have been presented as a discontinued operation held for sale.

Sands China Ltd. Consolidated Financial Results

On a GAAP basis, total net revenues for SCL increased to \$611 million, compared to \$167 million in the third quarter of 2020. Net loss for SCL was \$423 million, compared to \$562 million in the third quarter of 2020.

Other Factors Affecting Earnings

Interest expense, net of amounts capitalized, was \$157 million for the third quarter of 2021, compared to \$134 million in the prior year quarter. Our weighted average borrowing cost in the third quarter of 2021 increased to 4.4% due to the expiration of interest rate swaps in August 2020 related to the SCL senior notes, and our weighted average debt balance increased compared to the prior year quarter due to borrowings of \$505 million under the SCL Credit Facility in the first quarter of 2021.

Our income tax benefit for the third quarter of 2021 was \$27 million, compared to an income tax expense of \$5 million in the prior year quarter. The income tax benefit for the third quarter of 2021 was primarily

driven by a 21% statutory rate on our U.S. operations and a 17% statutory rate on our Singapore operations.

Balance Sheet Items

Unrestricted cash balances as of September 30, 2021 were \$1.64 billion.

The company has access to \$3.93 billion available for borrowing under our U.S., SCL and Singapore revolving credit facilities, net of outstanding letters of credit.

As of September 30, 2021, total debt outstanding, excluding finance leases, was \$14.50 billion.

Capital Expenditures

Capital expenditures during the third quarter totaled \$192 million, primarily including construction, development and maintenance activities of \$116 million in Macao, \$52 million at Marina Bay Sands and \$24 million in Corporate and Other.

Third Quarter 2021 Results

Non-GAAP Measures

Within the company's third quarter 2021 press release, the company makes reference to certain non-GAAP financial measures that supplement the company's consolidated financial information prepared in accordance with GAAP including "adjusted net income/loss," "adjusted earnings/loss per diluted share," and "consolidated adjusted property EBITDA," which have directly comparable GAAP financial measures along with "adjusted property EBITDA margin," "hold-normalized adjusted property EBITDA," "hold-normalized adjusted property EBITDA margin," "hold-normalized adjusted net income/loss," and "hold-normalized adjusted earnings/loss per diluted share." The company believes these measures represent important internal measures of financial performance. Set forth in the financial schedules accompanying this release and presentations included on the company's website are reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures. The non-GAAP financial measure disclosure by the company has limitations and should not be considered a substitute for, or superior to, the financial measures prepared in accordance with GAAP. The definitions of our non-GAAP financial measures and the specific reasons why the company's management believes the presentation of the non-GAAP financial measures provides useful information to investors regarding the company's financial condition, results of operations and cash flows are presented below.

The following non-GAAP financial measures are used by management, as well as industry analysts, to evaluate the company's operations and operating performance. These non-GAAP financial measures are presented so investors have the same financial data management uses in evaluating financial performance with the belief it will assist the investment community in properly assessing the underlying financial performance of the company on a year-over-year and a quarter sequential basis.

Adjusted net income/loss, which is a non-GAAP financial measure, is net income (loss) attributable to Las Vegas Sands excluding certain nonrecurring corporate expenses, pre-opening expense, development expense, gain or loss on disposal or impairment of assets, loss on modification or early retirement of debt, other income or expense and income (loss) from discontinued operations, net of income tax. Adjusted net income/loss and adjusted earnings/loss per diluted share are presented as supplemental disclosures as management believes they are (1) each widely used measures of performance by industry analysts and investors and (2) a principal basis for valuation of Integrated Resort companies, as these non-GAAP

measures are considered by many as alternative measures on which to base expectations for future results. These measures also form the basis of certain internal management performance expectations.

Consolidated adjusted property EBITDA, which is a non-GAAP financial measure, is net income/loss from continuing operations before stock-based compensation expense, corporate expense, pre-opening expense, development expense, depreciation and amortization, amortization of leasehold interests in land, gain or loss on disposal or impairment of assets, interest, other income or expense, gain or loss on modification or early retirement of debt and income taxes. Management utilizes consolidated adjusted property EBITDA to compare the operating profitability of its operations with those of its competitors, as well as a basis for determining certain incentive compensation. Integrated Resort companies have historically reported adjusted property EBITDA as a supplemental performance measure to GAAP financial measures. In order to view the operations of their casinos on a more stand-alone basis, Integrated Resort companies, including Las Vegas Sands, have historically excluded certain expenses that do not relate to the management of specific properties, such as pre-opening expense, development expense and corporate expense, from their adjusted property EBITDA calculations. Consolidated adjusted property EBITDA should not be interpreted as an alternative to income/loss from operations (as an indicator of operating performance) or to cash flows from operations (as a measure of liquidity), in each case, as determined in accordance with GAAP. The company has significant uses of cash flow, including capital expenditures, dividend payments, interest payments, debt principal payments and income tax payments, which are not reflected in consolidated adjusted property EBITDA. Not all companies calculate adjusted property EBITDA in the same manner. As a result, consolidated adjusted property EBITDA as presented by Las Vegas Sands may not be directly comparable to similarly titled measures presented by other companies.

Hold-normalized adjusted property EBITDA, a supplemental non-GAAP financial measure, that, in addition to the aforementioned reasons for the presentation of consolidated adjusted property EBITDA, is presented to adjust for the impact of certain variances in table games' win percentages, which can vary from period to period. Hold-normalized adjusted property EBITDA is based on applying a Rolling Chip win percentage of 3.30% to the Rolling Chip volume for the quarter if the actual win percentage is outside the expected range of 3.15% to 3.45% for our Macao and Singapore properties and applying a win percentage of 22.0% for Baccarat and 20.0% for non-Baccarat games to the respective table games drops for the quarter if the actual win percentages are outside the expected ranges of 18.0% to 26.0% for Baccarat and 16.0% to 24.0% for non-Baccarat at our Las Vegas properties. We do not present adjustments for Non-Rolling Chip drop for our table games play at our Macao and Singapore properties,

nor for slots at any of our properties. Hold-normalized adjusted property EBITDA is also adjusted for the estimated gaming taxes, commissions paid, bad debt expense, discounts and other incentives that would have been incurred when applying the win percentages noted above to the respective gaming volumes. The hold-normalized adjusted property EBITDA measure presents a consistent measure for evaluating the operating performance of our properties from period to period.

Hold-normalized adjusted net income/loss and hold-normalized adjusted earnings/loss per diluted share are additional supplemental non-GAAP financial measures that, in addition to the aforementioned reasons for the presentation of adjusted net income/loss and adjusted earnings/loss per diluted share, are presented to adjust for the impact of certain variances in table games' win percentages, which can vary from period to period.

The company may also present the above items on a constant currency basis. This information is a non-GAAP financial measure that is calculated by translating current quarter local currency amounts to U.S. dollars based on prior period exchange rates. These amounts are compared to the prior period to derive non-GAAP constant-currency growth/decline. Management considers non-GAAP constant-currency growth/decline to be a useful metric to investors and management as it allows a more direct comparison of current performance to historical performance.

The company also makes reference to adjusted property EBITDA margin and hold-normalized adjusted property EBITDA margin, which are calculated using the aforementioned non-GAAP financial measures.

Note: The information for the three months ended September 30, 2021 and 2020, excludes the results of the Las Vegas Operating Properties, as they are classified as a discontinued operation held for sale.

(1) For Macao Operations and Marina Bay Sands, this represents the estimated incremental casino revenue related to Rolling Chip volume play that would have been earned or lost had the company's current period win percentage equaled 3.30%. This calculation will only be applied if the current period win percentage is outside the expected range of 3.15% to 3.45%.

These amounts have been offset by the estimated commissions paid and discounts and other incentives rebated directly or indirectly to customers.

(2) Represents the estimated incremental expenses (gaming taxes and bad debt expense) that would have been incurred or avoided on the incremental casino revenue calculated in (1) above.

Note: These casino statistics exclude table games and slot machines shutdown due to social distancing measures or closure of the gaming facilities as a result of the COVID-19 pandemic. The gaming operations at our Macao properties were closed on February 5, 2020 and reopened on February 20, 2020 due to a government mandate, except for gaming operations at The Londoner Macao, which resumed on February 27, 2020. The Las Vegas Operating Properties were closed on March 18, 2020 and reopened on June 4, 2020, due to the statewide closure of non-essential services by the State of Nevada. Marina Bay Sands gaming operations were closed effective April 7, 2020 through June 30, 2020, due to Singapore mandated government closures of all non-essential services. During the nine months ended September 30, 2021, gaming operations at Marina Bay Sands were closed on May 17 until May 18, and on July 22 until August 4, due to pandemic-related measures implemented in consultation with Singapore government authorities.

- (1) Table games win per unit per day is shown before discounts, commissions, deferring revenue associated with the company's loyalty programs and allocating casino revenues related to goods and services provided to patrons on a complimentary basis.
- (2) Slot machine win per unit per day is shown before deferring revenue associated with the company's loyalty programs and allocating casino revenues related to goods and services provided to patrons on a complimentary basis.
