

LEXINGTON
REALTY TRUST

Investor Presentation
Third Quarter 2020

This presentation contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which involve known and unknown risks, uncertainties or other factors not under Lexington Realty Trust's ("Lexington" or "LXP") control which may cause actual results, performance or achievements of Lexington to be materially different from the results, performance, or other expectations implied by these forward-looking statements. These factors include, but are not limited to, those factors and risks detailed in Lexington's filings with the Securities and Exchange Commission. Except as required by law, Lexington undertakes no obligation to (1) publicly release the results of any revisions to those forward-looking statements which may be made to reflect events or circumstances after the occurrence of unanticipated events or (2) update or supplement forward-looking statements that become untrue because of subsequent events. Accordingly, there is no assurance that Lexington's expectations will be realized.

For information on non-GAAP measures, please see the definitions at the end of the presentation.

Investment Features

Single-Tenant Industrial Assets

High-Quality Investment Portfolio

Income and Growth Strategy

Active Portfolio Management

Consistent Operating Performance

Attractive and Flexible Balance Sheet

Investment Strategy

INVESTMENT FOCUS

- Multi-faceted growth strategy – purchases, build-to-suit, development, and sale-leaseback

SECTOR FOCUS

- Industrial

GROWTH & INCOME

- Grow cash flow through investment activity and annual rental growth
- Provide growing dividends that are attractive relative to fixed-income alternatives

PORTFOLIO MANAGEMENT

- Increase industrial asset exposure to become a 100% single-tenant industrial REIT
- Focus on maximizing value of remaining office/non-core portfolio

CAPITAL ALLOCATION

- Access capital markets when appropriate and utilize disposition proceeds to fund new industrial investments and repay debt

ASSET MANAGEMENT

- Focus on tenant relationships
- Manage lease expirations and weighted-average lease term
- Sustain high levels of occupancy

BALANCE SHEET

- Maintain low to moderate leverage
- Access to secured and investment-grade unsecured debt
- Incorporate primarily long-term, fixed-rate debt with balanced maturities

Third Quarter 2020 Execution

- **Growth Opportunities**

- Acquired \$70 million of high-quality industrial warehouse/distribution facilities.¹
- YTD acquisition volume totals approximately \$518 million at estimated GAAP and cash capitalization rates of 5.4% and 5.0%, respectively.²

- **Repositioning Efforts**

- Disposed of \$67 million of non-core assets.¹
- YTD disposition volume totals approximately \$372 million, inclusive of the Dow Chemical office property, at estimated GAAP and cash capitalization rates of 5.6% and 4.9%, respectively.²

- **Asset Management**

- Collected an average of 99.9% of Cash Base rents.¹
- Collected 99.8% of October Cash Base rents.³
- Leased 1.3 million square feet, with a portfolio leased of 98.9%.¹
- Increased industrial Cash Base renewals rents by 7.3%.¹

- **Balance Sheet¹**

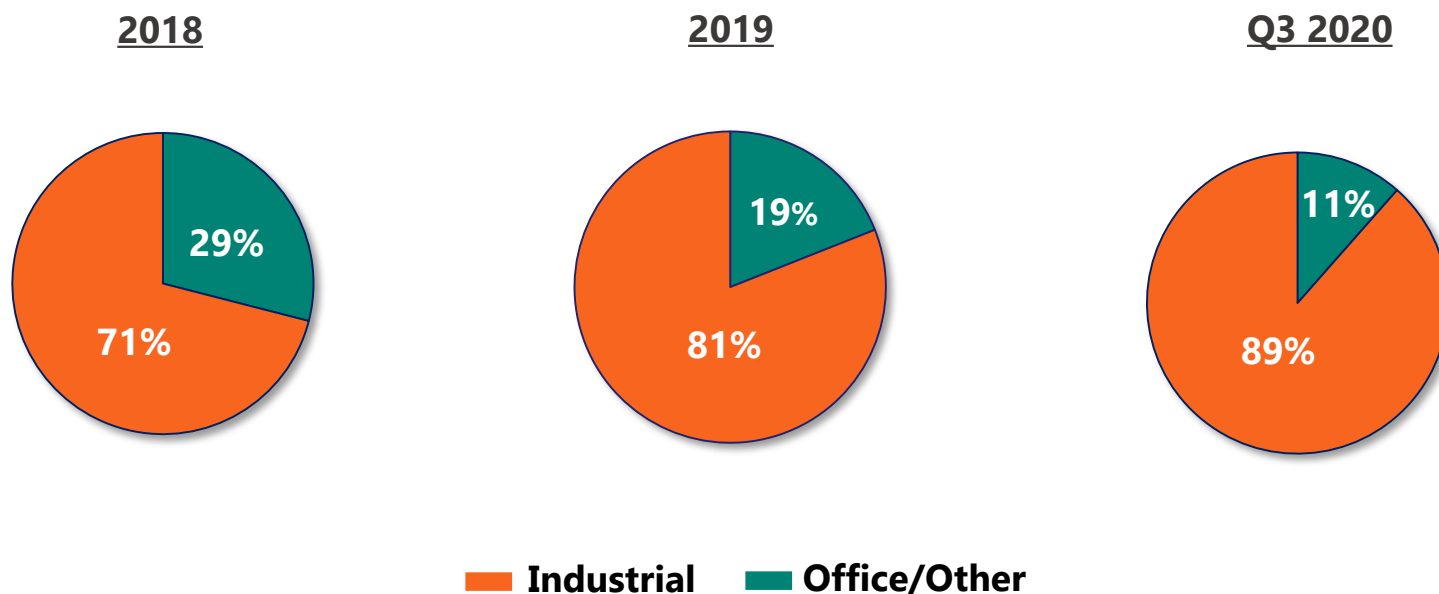

- Through a public bond offering, issued \$400 million aggregate principal amount of 2.70% Senior Notes due 2030 at an issuance price of 99.233%.
- Raised net proceeds of \$6.7 million (629,294 common shares) of equity through At-the-Market (ATM) program. Sold on a forward basis an additional 3.9 million shares through the ATM program at an initial weighted-average price of \$11.23 per share.
- Reduced leverage to 5.1x net debt to Adjusted EBITDA.
- Ample cash and credit facility availability.

- **Healthy Financial Results¹**

- Generated net income of \$0.15 per diluted common share.
- Generated Adjusted Company FFO of \$0.19 per diluted common share.
- Maintained Adjusted Company FFO guidance range of \$0.74-\$0.76 per diluted common share.
- Increased common share dividend 2.4% to an annualized dividend of \$0.43 per share, to be paid in January 2021.

Portfolio Evolution

Substantial progress transitioning to a single-tenant industrial focused REIT.

Note: Based on gross book value of real estate assets; excludes held for sale assets.

Disciplined Acquisition Activity

Disciplined acquisition activity with an industrial focus.

Build-to-Suit and Acquisition Volume and Cash Capitalization Rate¹

1. Includes 100% of joint venture acquisitions (\$80 million in 2016). Historical capitalization rates are not indicative of future expectations or results. 2. Cash capitalization rate slightly impacted by free rent period. 3. As of 11/10/2020.

Industrial Strategy Focus

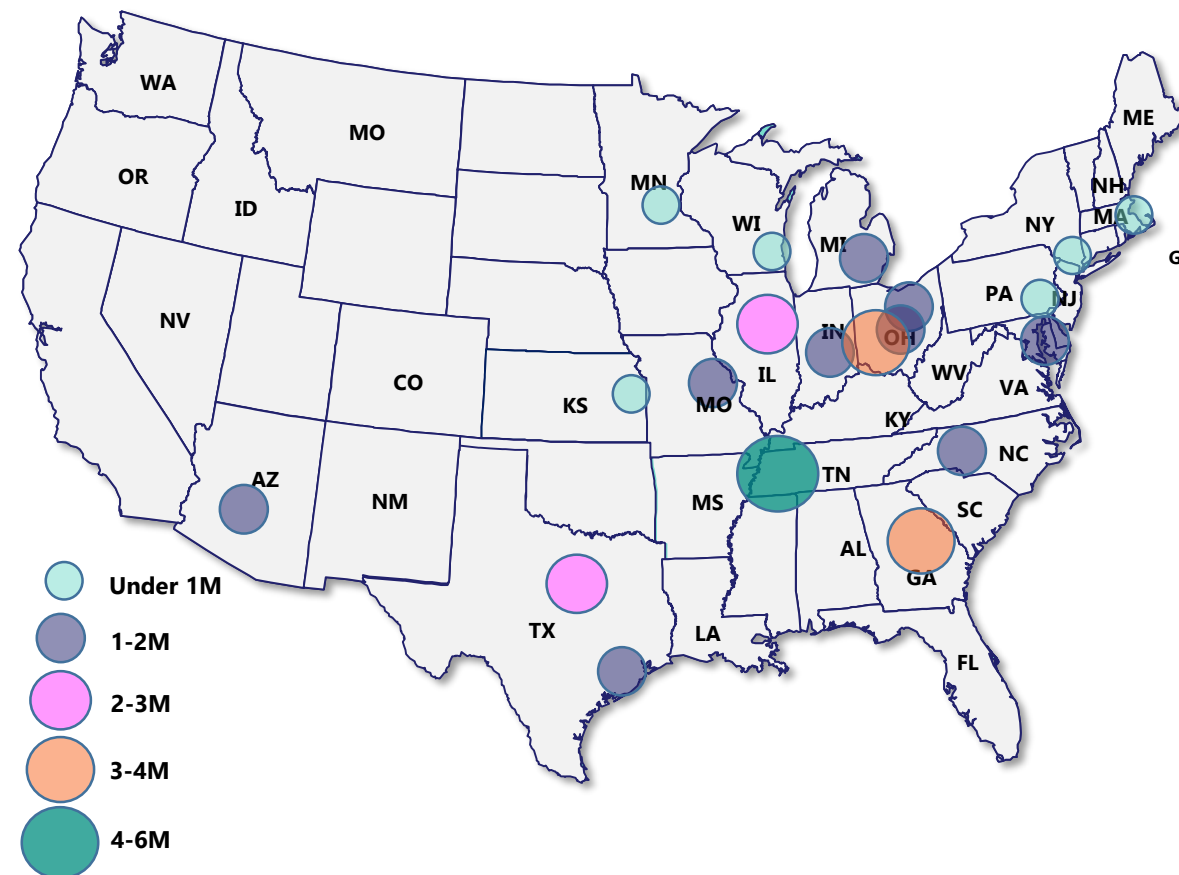

- Target single-tenant, net-leased facilities
- Primarily warehouse and bulk distribution facilities, easily repurposed for other users
- Partner with developers on build-to-suits and development opportunities
- Lease term range generally 5-20 years, ability to go shorter for right opportunity
- Select primary and secondary markets
- Realize value of specific assets in portfolio when appropriate

Industrial Property Geography

Properties primarily located in the South and Midwest with over 60% of the portfolio Base Rent located in top 25 industrial markets.¹

LXP Top 20 Industrial Markets (by Square Footage)¹

Market Concentration (by Base Rent)²

1. According to CoStar Analytics' top industrial markets as of 9/30/2020. 2. Markets based on geographic boundaries defined by CoStar Analytics. As a % of Base Rent for consolidated industrial properties owned as of 9/30/2020.

Industrial Investment Activity

**Among most active industrial investors in the market since 2016 -
Have acquired nearly 34 million square feet of primarily warehouse/distribution product.¹**

Year-to-Date Warehouse/Distribution Acquisitions¹

Primary Tenant/ Guarantor	Market	Sq. Ft. (000's)	Initial Basis (mm)	Approx. Lease Term (Yrs) ²
Amazon	Phoenix, AZ	202	\$87.8	12

Total³		5,429	\$517.6	9

1. Acquisitions from 1/1/2016 – 11/10/2020. 2. Lease term at acquisition date. 3. Total shown may differ from detailed amounts due to rounding.

Representative Industrial Investments

Savannah, Georgia

- 356,000 square foot state-of-the-art Class A distribution facility completed in 2019
- Located less than 10 miles away from the Port of Savannah, which is the fastest growing container port in the U.S.
- Situated in a strong submarket with high absorption rates and low market vacancy
- Leased for five years to a logistics company¹
- Right-sized for market with generic site plan

Fort Worth, Texas

- 1.2 million square foot state-of-the-art Class A distribution facility completed in 2018
- Located in high growth and high-demand submarket situated in a popular industrial park
- Leased to strong brand name credit Black and Decker for just under 10 years¹
- Operational connection with brand new manufacturing plant located under two miles away
- Generic, well-designed building and site plan

1. Lease term at acquisition date.

Representative Industrial Investments

Cincinnati, Ohio (E-Commerce Portfolio)

- 2.4 million square foot portfolio consisting of three recently constructed state-of-the-art Class A distribution facilities
- Located in an established logistics market that works well for e-commerce users
- Superior access to I-75 and multiple overnight providers
- Leased to recognized credit tenants Amazon, Walmart, and Blue Buffalo (a division of General Mills) for a weighted-average lease term of 9.3 years¹
- All buildings provide optionality to accommodate multiple tenants, if needed

1. Lease term at acquisition date.

Representative Industrial Investments

Memphis, Tennessee

- 928,000 square foot state-of-the-art Class A distribution facility completed in 2018
- Well-located within an established Memphis industrial park – close proximity to major highways, hubs and intermodal facilities
- 36' foot clear height, cross dock design, ample dock doors and trailer parking, LED lighting and wide concrete truck courts
- Leased for five years to Olam Cotton¹
- Flexible building design that can easily accommodate multiple tenants, if needed

Atlanta, Georgia

- 370,000 square foot state-of-the-art Class A distribution facility completed in 2016
- Located in one of Atlanta's most dynamic industrial submarkets
- 36' clear height, cross dock design, ample dock doors and trailer parking and 100% concrete truck courts
- Leased to Interface Americas for five years; 50 miles from Interface's manufacturing facility in LaGrange, GA¹
- Well-sized property for the market with flexibility to divide the space, if needed

1. Lease term at acquisition date.

Industrial Portfolio

Portfolio Metrics¹

# of Properties	112

1. Data reflects balances and interest rates at 9/30/2020. 2. \$600 million available, subject to covenant compliance. 3. \$179.1 million in liabilities held for sale at 9/30/2020. 4. Data includes OP Units and reflects a common share price of \$10.36 at 11/11/2020.

Balance Sheet Strategy

Focus on extending maturities, unencumbering assets, maintaining investment-grade ratings and selectively utilizing secured financing.

Consolidated Debt Maturity Profile (\$000's)¹

Credit Metrics Summary¹

Adjusted Company FFO Payout Ratio	55.3%
Unencumbered Assets	\$3.6B
Unencumbered NOI	85.0%
(Debt + Preferred)/Gross Assets	35.7%
Debt/Gross Assets	33.6%
Secured Debt/Gross Assets	7.3%
Net Debt/Adjusted EBITDA	5.1x
(Net Debt + Preferred)/Adjusted EBITDA	5.5x
Unsecured Debt/Unencumbered NOI	5.5x
Credit Facilities Availability	\$600.0M

1. As of 9/30/2020. Percentages on bar graph denote weighted-average interest rate.

Corporate Responsibility

LXP seeks to create a sustainable environmental, social and governance (“ESG”) platform that enhances both its company and shareholder value. LXP stands committed to supporting its shareholders, employees, tenants, suppliers, creditors, and communities as it executes on its ESG objectives and initiatives.

Environmental

- Many of LXP’s industrial properties have energy efficient features, such as energy management systems, LED lighting and solar arrays.
- LXP expects to increase engagement with third parties and determine an appropriate framework to submit benchmarking data.

Social

- LXP believes in giving back to its communities. Employees volunteer and participate in various food and clothing drives.
- LXP understand the importance of its employees’ physical, emotional, and financial health. Many opportunities and services are provided to meet these needs.

Governance

- LXP strives to implement best governance practices, mindful of the concerns of its shareholders and of proxy advisory groups.
- LXP received the 2019 NAREIT Bronze Investor CARE (Communications & Reporting Excellence) Award in the Small Cap Equity REIT Category.

Non-GAAP Measures-Definitions

Lexington has used non-GAAP financial measures as defined by Regulation G promulgated by the Securities and Exchange Commission in this presentation. Lexington believes that the measures defined below are helpful to investors in measuring Lexington's performance or that of an individual investment. Since these measures exclude certain items which are included in their respective most comparable Generally Accepted Accounting Principles ("GAAP") measures, reliance on the measures has limitations; management compensates for these limitations by using the measures simply as supplemental measures that are weighed in balance with other GAAP measures. These measures are not necessarily indications of our cash flow available to fund cash needs. Additionally, they should not be used as an alternative to the respective most comparable GAAP measures when evaluating Lexington's financial performance or cash flow from operating, investing, or financing activities or liquidity.

Funds from Operations and Adjusted Company FFO(FFO and Adjusted Company FFO): Lexington believes that Funds from Operations, or FFO, which is a non-GAAP measure, is a widely recognized and appropriate measure of the performance of an equity real estate investment trust ("REIT"). Lexington believes FFO is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. As a result, FFO provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities, interest costs and other matters without the inclusion of depreciation and amortization, providing perspective that may not necessarily be apparent from net income.

The National Association of Real Estate Investment Trusts, or NAREIT, defines FFO as "net income (calculated in accordance with GAAP), excluding depreciation and amortization related to real estate, gains and losses from the sales of certain real estate assets, gains and losses from change in control and impairment write-downs of certain real estate assets and investments in entities when the impairment is directly attributable to decreases in value of depreciable real estate held by the entity. The reconciling items include amounts to adjust earnings from consolidated partially-owned entities and equity in earnings of unconsolidated affiliates to FFO." FFO does not represent cash generated from operating activities in accordance with GAAP and is not indicative of cash available to fund cash needs.

Lexington presents FFO available to common shareholders and unitholders - basic and also presents FFO available to all equityholders and unitholders - diluted on a company-wide basis as if all securities that are convertible, at the holder's option, into Lexington's common shares, are converted at the beginning of the period. Lexington also presents Adjusted Company FFO available to all equityholders and unitholders - diluted which adjusts FFO available to all equityholders and unitholders - diluted for certain items which we believe are not indicative of the operating results of Lexington's real estate portfolio. Lexington believes this is an appropriate presentation as it is frequently requested by security analysts, investors and other interested parties. Since others do not calculate these measures in a similar fashion, these measures may not be comparable to similarly titled measures as reported by others. These measures should not be considered as an alternative to net income as an indicator of Lexington's operating performance or as an alternative to cash flow as a measure of liquidity.

Non-GAAP Measures-Definitions, cont.

GAAP and Cash Yield or Capitalization Rate: GAAP and cash yields or capitalization rates are measures of operating performance used to evaluate the individual performance of an investment. These measures are estimates and are not presented or intended to be viewed as a liquidity or performance measure that present a numerical measure of Lexington's historical or future financial performance, financial position or cash flows. The yield or capitalization rate is calculated by dividing the annualized NOI (as defined below, except GAAP rent adjustments are added back to rental income to calculate GAAP yield or capitalization rate) the investment is expected to generate (or has generated) divided by the acquisition/completion cost (or sale) price.

Net operating income (NOI): a measure of operating performance used to evaluate the individual performance of an investment. This measure is not presented or intended to be viewed as a liquidity or performance measure that presents a numerical measure of Lexington's historical or future financial performance, financial position or cash flows.

Adjusted EBITDA: Adjusted EBITDA represents EBITDA (earnings before interest, taxes, depreciation and amortization) modified to include other adjustments to GAAP net income for gains on sales of properties, impairment charges, debt satisfaction gains (charges), net, non-cash charges, net, straight-line adjustments, non-recurring charges and adjustments for pro-rata share of non-wholly owned entities. Lexington's calculation of Adjusted EBITDA may not be comparable to similarly titled measures used by other companies. Lexington believes that net income is the most directly comparable GAAP measure to Adjusted EBITDA.

Base Rent: Base Rent is calculated by making adjustments to GAAP rental revenue to exclude billed tenant reimbursements and lease termination income and to include ancillary income. Base Rent excludes reserves/write-offs of deferred rent receivable, as applicable. Lexington believes Base Rent provides a meaningful measure due to the net lease structure of leases in portfolio.

Cash Base Rent: Cash Base Rent is calculated by making adjustments to GAAP rental revenue to remove the impact of GAAP required adjustments to rental income such as adjustments for straight-line rents related to free rent periods and contractual rent increases. Cash Base Rent excludes billed tenant reimbursements and lease termination income and includes ancillary income.

Appendix

Combined Portfolio Metrics

Top 15 Tenants

Tenants/Guarantor/ Parent	Property Type	Lease Expirations	% of Base Rent ¹
Dow ²	Office	2036	5.2%
Nissan	Industrial	2027	4.4%
