Digital Core REIT's interest).

4. RATIONALE FOR AND BENEFITS OF THE ACQUISITION

The Manager believes the acquisition will provide the following key benefits to unitholders of Digital Core REIT (“**Unitholders**”):

4.1 Expanding Presence in Asia Pacific

The acquisition of an additional 10.0% interest in the Osaka data centre will expand Digital Core REIT's presence in a top-tier global data centre market characterised by robust, diverse and durable customer demand. Japan is the third-largest country in the world by GDP and serves as a key connectivity hub for internet traffic to and from North America, serving as the initial landing point for multiple submarine cables connecting the Americas to the Asia Pacific region before branching out across the rest of Asia. The Japanese data centre market also benefits from high barriers to entry given high build costs, labour shortages and long lead times for power infrastructure development.

Osaka is one of the fastest growing data centre markets in the Asia Pacific region and serves as a critical availability zone for public cloud providers serving Japan.

⁵ A portion of the 1Q2024 Private Placement proceeds was used to repay existing debt and Digital Core REIT borrowed an equal amount of Japanese Yen-denominated debt to finance the acquisition. 7. Other Information

7.1 Relative Figures Computed on the Bases set out in Rule 1006

The relative figures for the acquisition computed on the bases of comparison set out in Rules 1006(b) and (c) of the Listing Manual are as follows:

- (i) net profits attributable to the assets acquired, compared with Digital Core REIT's net profits; and

- (ii) aggregate value of the consideration given, compared with Digital Core REIT's market capitalisation.

Comparison of:	The Acquisition (US\$' millions)	Digital Core REIT (US\$ millions)	Relative figure (%)
Rule 1006(b) Net Profit After Tax Attributable to Unitholders	US\$1.6 ⁽¹⁾	(US\$108.6) ⁽²⁾	Not meaningful
Rule 1006(c) Consideration against market capitalisation (US\$ million)	US\$40.2 ⁽³⁾	US\$785.9 ⁽⁴⁾	5.1%

Notes:

- (1) Based on the net profit after tax for the 10.0% interest in the Osaka data centre.
- (2) Based on net profit after tax per Digital Core REIT's unaudited financial statements for the financial year ended 31 December 2023.
- (3) The estimated purchase price payable of JPY 6,014 million (approximately US\$40.1 million) as at closing (subject to closing adjustments) based on the illustrative exchange rate of US\$1.00 to JPY 150.
- (4) Based on 1,308,800,864 Units in issue and the one-day volume weighted average price of US\$0.6005 per Unit on the SGX-ST on 28 March 2024 as reported by FactSet, being the market day immediately prior to the date of the share purchase agreement.

Rule 1006(a) of the Listing Manual is not applicable to the acquisition as Digital Core REIT will not be disposing of any assets under the acquisition. Rule 1006(d) of the Listing Manual is not applicable as Digital Core REIT will not be issuing any Units as consideration for the acquisition.

As shown in the table above, the acquisition constitutes a "disclosable transaction" under Rule 1014(1) of the Listing Manual (read with Rules 1006(b) and 1006(c) of the Listing Manual) as the relative figure under Rule 1006(c) exceeds 5% but does not exceed 20%. Therefore, the approval of Unitholders would not be required in relation to the acquisition pursuant to Chapter 10 of the Listing Manual. In any event, the Manager is of the view that the acquisition is in the ordinary course of Digital Core REIT's business as the property being acquired is within Digital Core REIT's investment mandate and does not adversely impact Digital Core REIT's risk profile. As such, the acquisition should not be subject to Chapter 10 of the Listing Manual.
