CarboNet™ Water Treatment	CarboNet™ is a clean tech company that can eliminate barriers to widespread adoption of recycled water. CarboNet fundamentally changes the economics of water treatment to the point where industry and agriculture will choose to reuse their water or adopt non-freshwater sources (desalinization of seawater) to feed their growing demand. <i>Amielle Lake, Chief Commercial Officer</i>
Clir Renewables SaaS – Power and Utilities	Renewable energy Software as a Service (SaaS) provider whose industry-leading, cloud-based tools enable project stakeholders to maximize production, monitor asset health and manage technical financial risk <i>Gareth Brown, CEO & Co-Founder</i>
CubicFarm Systems Agtech	Ag-tech company that automates the controlled-environment to grow fresh produce and nutritious livestock feed. CubicFarms enables its customers to grow locally and to provide their markets with safe, sustainable, secure, and fresh ingredients that are consistent in color, size, taste, nutrition and allows for longer shelf life. <i>Edoardo De Martin, CTO</i>
Damon Motors Inc. Transportation + SaaS	Electric Motorcycle changing the way we ride. It makes riding smarter, safer, more exhilarating and more personal. Award winning manufacturer recognized in top magazines. <i>Jay Giraud, Founder & CEO</i>
Fasken Law Firm	Fasken is a leading international law firm with more than 800 lawyers and ten offices, including offices in Vancouver and Surrey. Cleantech companies rely on Fasken to advise on legal matters across a variety of practice areas and industries and through every step of the supply chain. We work with clients of various sizes, from startups, growth stage companies and large cleantech and related organizations. <i>Dan Brock, Partner</i> <i>Kai Alderson, Partner</i> <i>Christopher Bystrom, Partner</i>
Finning International Inc. Industrial Equipment	Finning is the world's largest Caterpillar dealer, selling, renting and providing parts and service for equipment and engines to customers across diverse industries, including mining, construction, petroleum, forestry and a wide range of power systems applications. <i>Scott Thomson, President & CEO</i>
