#### **Non-GAAP Financial Measures**

In addition to reporting financial results in accordance with accounting principles generally accepted in the United States ("GAAP"), the company presents Adjusted EBITDA, Adjusted EBIT, and Adjusted diluted earnings per share. These measures are not in accordance with, and are not intended as alternatives to, GAAP. The company's management believes that this presentation provides useful information to management, analysts and investors regarding certain additional financial and business trends relating to its results of operations and financial condition. In addition, management uses these measures for reviewing the financial results of the company, and certain of these measures may be used as components of incentive compensation.

The company defines EBITDA as net income before interest expense, provision for income tax, and depreciation, amortization and accretion. Adjusted EBITDA, Adjusted EBIT and Adjusted diluted earnings per share exclude the impact of certain specified special items. The Company has begun reporting these adjusted measures to provide additional information with respect to the impact of store closure costs and certain other items during the thirteen weeks ended April 2, 2023. There were no such material adjustments during the thirteen weeks ended April 3, 2022.

Non-GAAP measures are intended to provide additional information only and do not have any standard meanings prescribed by GAAP. Use of these terms may differ from similar measures reported by other companies. Because of their limitations, non-GAAP measures should not be considered as a measure of discretionary cash available to use to reinvest in the growth of the company's business, or as a measure of cash that will be available to meet the company's obligations. Each non-GAAP measure has its limitations as an analytical tool, and they should not be considered in isolation or as a substitute for analysis of the company's results as reported under GAAP.

The following table shows a reconciliation of (i) Adjusted EBITDA and Adjusted EBIT to net income and (ii) Adjusted diluted earnings per share to diluted earnings per share, in each case, for the thirteen weeks ended April 2, 2023 and April 3, 2022:
