About Kimball Electronics

Kimball Electronics (KE) is a global, multifaceted solutions provider of **Electronics Manufacturing Services (EMS)** and **Contract Development Manufacturing Organization (CDMO)** recognized for excellence and leadership in highly regulated and complex industries.

Founded in 1961 and incorporated in 1998, the Company spun off from its parent, Kimball International, in 2014 as a standalone, public company. As it celebrates 65 years of excellence, the Company has announced its intention to rebrand as **Kimball Solutions**, reflecting its continued evolution and expanded capabilities.

KE provides integrated manfacutring services, medical disposibles, drug delivery solutions, precision molded plastics, and end-to-end product lifecycle support.

Diversified Portfolio of End Markets

Capital Allocation Strategy

- Invest in growth, with capital deployment concentrated in expanding the medical CMO portfolio
- Pursue tuck-in M&A to add capabilities, end-markets, customers, and geographic reach – particularly in medical
- Return capital to shareowners through disciplined share repurchases

Investment Highlights

- **Sharpened strategic focus** through portfolio rationalization - divested non-core AT&M; integrated medical CDMO into EMS, and improved utilization via Tampa closure
- **Regulatory & operational strength** - deep compliance, resilient supply and cold-chain, globally integrated SAP platform
- **Strong liquidity profile** - debt well below peak, ten quarters of positive cash from operations, approximately $404M short-term liquidity
- **Margin upside** - cost alignment, higher utilization, and mix shift toward growing, higher-margin medical revenue
- **Durable customer base** - 7–10 year programs; 77% of revenue from 10+ year customers supporting recurring visibility
