

Kimball Electronics to be Featured on Manufacturing Marvels(R) February 9th, 2015

February 5, 2015

JASPER, Ind., Feb. 5, 2015 (GLOBE NEWSWIRE) -- Kimball Electronics, Inc. (Nasdaq:KE) will be the spotlighted company in a Manufacturing Marvels® production to be aired on February 9, 2015 on The FOX Business Network®.

Kimball Electronics will be the subject of a segment spotlighting the company as a global leader in the Electronics Manufacturing Services industry. Created by award winning producers Bob and Jerry May of Marvel Production Group, LLC and narrated by acclaimed former FOX and ABC anchor John Criswell, the segment portrays Kimball Electronics manufacturing, assembly, design and engineering capabilities.

The video clip gives viewers an inside look at one of Kimball Electronics' manufacturing facilities located in Jasper, Indiana. It also provides information about some of the types of products manufactured by Kimball Electronics as well as industries served. In the video footage, viewers will see the friendly faces of Kimball Electronics employees and the processes used to produce and assemble durable high-reliability electronics.

The segment featuring Kimball Electronics can be seen on February 9, 2015 during Manufacturing Marvels® broadcast between 8:30-8:45pm Central Standard Time CST (9:30-9:45pm Eastern Standard Time). The FOX Business Network (FBN) is available on DirectTV® channel 359 or DISH Network® channel 206. Check your local listings for other providers.
