FORWARD-LOOKING STATEMENTS

This presentation contains statements that are forward looking within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding CBRE's future growth momentum, operations, financial performance (including adjusted earnings per share expectations), market share, acquisition opportunities, consolidation within our industry and business outlook. These statements are estimates only and actual results may ultimately differ from them. Except to the extent required by applicable securities laws, we undertake no obligation to update or publicly revise any of the forward-looking statements that you may hear today. Please refer to our most recent earnings release, filed on Form 8-K and our most recent annual report on Form 10-K, in particular any discussion of risk factors or forward-looking statements, which are filed with the SEC and available at the SEC's website (www.sec.gov), for a full discussion of the risks and other factors that may affect any forward-looking statements that you may hear today. We may make certain statements during the course of this presentation, which include references to "non-GAAP financial measures," as defined by SEC regulations. Where required by these regulations, we have provided reconciliations of these measures to what we believe are the most directly comparable GAAP measures, as well as explanations of such measures, within the appendix hereto.

POSITIONED FOR LONG-TERM GROWTH

CBRE leads a sector with strong underlying growth dynamics

- Consolidation
 - Core leasing and capital markets remain highly fragmented and continue to consolidate
- Outsourcing
 - Still in early stage of penetration with occupiers
 - Contributes to largely recurring leasing revenues
- Capability
 - Acquired the leading global facility management business (Johnson Controls' Global Workplace Solutions business)
 - Clients appreciate CBRE's unmatched global depth and capability

KEY STRATEGIC PRIORITIES

- Capitalize on our unique leadership position to widen our competitive advantages in the marketplace
- Continue to:
 - Drive market share gains in our core leasing and capital markets businesses
 - Capitalize on growth opportunities in Occupier Outsourcing business
 - Enrich our operating platform (IT, Research, Marketing) to support long-term growth
 - Acquire leading companies in our sector that enhance our ability to serve clients

MERGERS & ACQUISITIONS STRATEGY

Over 100 acquisitions since 2005

- Transactions generally fall into two categories:
 - Strategic in-fill acquisitions sourced principally by lines of business
 - Larger, transformational transactions driven by macro strategy
- On September 1, 2015, CBRE acquired the Global Workplace Solutions business from Johnson Controls, Inc.
 - \$1.475 billion purchase price or \$1.3 billion net of the present value of expected tax benefits¹
 - Approximately 7.3x multiple² of net purchase price to Global Workplace Solutions' 2014 calendar year adjusted EBITDA with run-rate synergies
- Over 30 acquisitions since 2013

NON-GAAP FINANCIAL MEASURES

The following measures are considered “non-GAAP financial measures” under SEC guidelines:

- (i) Fee revenue
- (ii) Net income attributable to CBRE Group, Inc., as adjusted (which we also refer to as “adjusted net income”)
- (iii) Diluted income per share attributable to CBRE Group, Inc. shareholders, as adjusted (which we also refer to as “adjusted earnings per share” or “adjusted EPS”)
- (iv) EBITDA and EBITDA, as adjusted (the latter of which we also refer to as “Normalized EBITDA”)

None of these measures is a recognized measurement under U.S. generally accepted accounting principles, or U.S. GAAP, and when analyzing our operating performance, readers should use them in addition to, and not as an alternative for, their most directly comparable financial measure calculated and presented in accordance with U.S. GAAP. Because not all companies use identical calculations, our presentation of these measures may not be comparable to similarly titled measures of other companies.

Our management generally uses these non-GAAP financial measures to evaluate operating performance and for other discretionary purposes, and the Company believes that these measures provide a more complete understanding of ongoing operations, enhance comparability of current results to prior periods and may be useful for investors to analyze our financial performance because they eliminate the impact of selected charges that may obscure trends in the underlying performance of our business. The Company further uses certain of these measures, and believes that they are useful to investors, for purposes described below.

With respect to fee revenue: The Company believes that investors may find this measure useful to analyze the financial performance of our Occupier Outsourcing and Asset Services business lines and our business generally because it excludes costs reimbursable by clients and as such provides greater visibility into the underlying performance of our business.

With respect to adjusted net income, adjusted EPS, EBITDA and Normalized EBITDA: The Company believes that investors may find these measures useful in evaluating our operating performance compared to that of other companies in our industry because their calculations generally eliminate the accounting effects of acquisitions, which would include impairment charges of goodwill and intangibles created from acquisitions, and—in the case of EBITDA and Normalized EBITDA—the effects of financings and income tax and the accounting effects of capital spending. All of these measures may vary for different companies for reasons unrelated to overall operating performance. In the case of EBITDA and Normalized EBITDA, these measures are not intended to be measures of free cash flow for our management’s discretionary use because they do not consider cash requirements such as tax and debt service payments. The EBITDA and Normalized EBITDA measures calculated herein may also differ from the amounts calculated under similarly titled definitions in our credit facilities and debt instruments, which amounts are further adjusted to reflect certain other cash and non-cash charges and are used by us to determine compliance with financial covenants therein and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments. The Company also uses Normalized EBITDA and adjusted EPS as significant components when measuring our operating performance under our employee incentive compensation programs.

RECONCILIATION OF NORMALIZED EBITDA TO EBITDA TO NET INCOME (LOSS)

(\$ in millions)	Twelve Months Ended December 31,	
	2015	2003
Normalized EBITDA	\$ 1,412.7	\$ 183.2

Provision for (benefit of) income taxes	320.8	(6.3)
Net income (loss) attributable to CBRE Group, Inc.	\$ 547.1	\$ (34.7)

1. CBRE began normalizing carried interest compensation expense in Q2 2013 in order to better match the timing of this expense with associated carried interest revenue. This expense has only been normalized for funds that incurred carried interest expense for the first time in Q2 2013 or in subsequent quarters.

RECONCILIATION OF NET INCOME TO ADJUSTED NET INCOME AND ADJUSTED EARNINGS PER SHARE

Consolidated fee revenue	\$ 7,730.3	\$ 6,791.3

1. Occupier Outsourcing and Asset Services (AS) revenue excludes associated leasing and sales revenue, most of which is contractual.

FOOTNOTES

NOTE: Local currency percent changes versus prior year is a non-GAAP financial measure noted on slides 6 and 11. These percent changes are calculated by comparing current year results versus prior year results, in each case at prior year exchange rates.

Slide 6

1. Normalized EBITDA excludes cost containment expenses, integration and other costs related to acquisitions and certain carried interest incentive compensation expense (to align with timing of associated revenue).
2. Adjusted EPS excludes cost containment expenses (net of tax), amortization expense related to certain intangible assets attributable to acquisitions (net of tax), integration and other costs related to acquisitions (net of tax), certain carried interest incentive compensation expense (net of tax) and the write-off of financing costs (net of tax).
3. Excludes the net impact of mark-to-market hedges and exchange rate transaction impact.

Slide 9

1. The base purchase price was \$1.475 billion in cash plus approximately \$36 million in estimated net adjustments for working capital and other items. Such net adjustments took into account approximately \$45 million in cash acquired by CBRE in the acquisition. The purchase price is subject to post-closing adjustments as outlined in the purchase agreement for the transaction. Deal costs are excluded from the purchase price.
2. Multiple based on GWS adjusted EBITDA as calculated by GWS (when owned by Johnson Controls) and using GWS's methodologies (when owned by Johnson Controls) as well as as previously announced run-rate cost synergies of approximately \$50 million, which are expected to be fully realized in 2017.

Slide 10

1. Other includes Development Services (1% in both 2006 and pro-forma 2015) and Other (1% in both 2006 and pro-forma 2015).
2. Capital Markets includes Sales (33% in 2006 and 20% in pro-forma 2015) and Commercial Mortgage Services (4% in 2006 and 5% in pro-forma 2015).
3. Contractual Revenues include Occupier Outsourcing and Asset Services (7% in 2006 and 32% in pro-forma 2015; excludes associated sales and lease revenues, most of which are contractual), Global Investment Management (6% in 2006 and 5% in pro-forma 2015), and Valuation (8% in 2006 and 6% in pro-forma 2015).
4. Fee Revenue is gross revenue less client reimbursed costs largely associated with our employees that are dedicated to client facilities and subcontracted vendor work performed for clients.
5. Contractual plus leasing revenues are 64% of 2006 GAAP revenue and 78% of 2015 GAAP revenue.

Slide 11

1. We regard leasing revenue as largely recurring because unlike most other transaction businesses, leasing activity normally takes place when leases expire. The average lease expires in five to six years. This means that, on average, in a typical year approximately 17% to 20% of leases roll over and a new leasing decision must be made. When a lease expires in the ordinary course, we expect it to be renewed, extended or the tenant to vacate the space to lease another space in the market. In each instance, a transaction is completed. If there is a downturn in economic activity, some tenants may seek a short term lease extension, often a year, before making a longer term commitment. In this scenario, that delayed leasing activity tends to be stacked on top of the normal activity in the following year. Thus, we characterize leasing as largely recurring because we expect an expiration of a lease, in the ordinary course, to lead to an opportunity for a leasing commission from such completed transaction.
2. Occupier Outsourcing and Asset Services revenue excludes associated leasing and sales revenue, most of which is contractual.
3. Fee revenue is gross revenue less both client reimbursed costs largely associated with employees that are dedicated to client facilities and subcontracted vendor work performed for clients.

Slide 16

Slide 21

1. As of December 31 for each year presented.
2. In Process figures include Long-Term Operating Assets (LTOA) of \$0.1 billion for Q4 2015, \$0.3 billion for Q4 2014, \$0.9 billion for Q4 2013, \$1.2 billion for Q4 2012 and \$1.5 billion for Q4 2011. LTOA are projects that have achieved a stabilized level of occupancy or have been held 18-24 months following shell completion or acquisition.
3. Pipeline deals are those projects we are pursuing which we believe have a greater than 50% chance of closing or where land has been acquired and the projected construction start is more than twelve months out.
