CAUTIONARY NOTE ON REVENUE COMPARISONS PRIOR TO 2016 & INFORMATION ON FORWARD-LOOKING STATEMENTS

Revenue Recognition Accounting Standard

The financial information in the slides that follow for any period prior to 2016 is presented under “Old GAAP” – i.e., before implementation of the changed revenue recognition accounting standard (ASC Topic 606), which we adopted as of January 1, 2018, using the full retrospective method.

Information Regarding Forward-Looking Statements

This presentation contains certain statements related to future results, or states our intentions, beliefs and expectations or predictions for the future of Arthur J. Gallagher & Co. and its subsidiaries, collectively referred to herein as we, our, us, Gallagher or the company, which are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. When used in this presentation, the words “anticipates,” “believes,” “contemplates,” “see,” “should,” “could,” “will,” “estimates,” “expects,” “intends,” “plans” and variations thereof and similar expressions, are intended to identify forward-looking statements. Examples of forward-looking statements in this presentation include, but are not limited to, statements regarding: future dividends; improvements in our new business production; global brand recognition; the leveraging of internal resources across divisions and borders; our status as the premier provider of claims management services; our global presence in the claims space; our ability to stay in front of improvements in technology; commercial P/C pricing; drivers and expected levels of our organic growth; future M&A opportunities, including bolt-on and tuck-in acquisitions to our “platforms”; increasing productivity and quality; our management team; our use of leverage; our balance sheet; our return to shareholders; the premium rate environment; impact of general economic conditions, including inflation and related monetary policy in response to inflation; and tax credit carryforwards and expected future cash taxes paid as a result of our clean energy investments.

Important factors that could cause actual results to differ materially from those in the forward-looking statements include global economic and geopolitical events, including, among others, fluctuations in interest and inflation rates; protectionism such as tariffs; trade disruptions; a recession or economic downturns; a U.S. government shutdown; political instability, such as global armed conflicts; actual acquisition opportunities, including closing risks related to pending acquisitions; risks with respect to larger acquisitions such as AssuredPartners, the largest acquisition in our history, including risks related to our ability to successfully integrate operations and the possibility that assumptions may be inaccurate resulting in unforeseen obligations or liabilities and failure to realize expected benefits; damage to our reputation due to a failure to uphold our culture or negative perceptions or publicity, including as a result of amplifying effects that the Internet and social media may have on such perceptions; reputational issues related to its sustainability-related activities, including potential backlash against such activities, and compliance with increasingly complex climate- and other sustainability-related regulations, such as risks related to “greenwashing” and “greenhushing”; cybersecurity-related risks; our ability to apply technology, data analytics and artificial intelligence effectively and potential increased costs resulting from such activities; risks associated with the use of artificial intelligence in our business operations, including regulatory, data privacy, cybersecurity, errors and omissions, intellectual property and competition risks; risks related to “AI-washing”; heightened competition for talent and increased compensation costs; disasters or other business interruptions, including with respect to our operations in India; risks related to our international operations, such as those related to regulatory, tax, sustainability, sanctions and anti-corruption compliance and increased scrutiny of the use of off-shore centers of excellence such as those we operate in India and elsewhere; changes to data privacy and protection laws and regulations; foreign exchange rates; changes in accounting standards; changes in premium rates and in insurance markets generally, including the impact of large natural or man-made events; tax, environmental or other compliance risks related to our legacy clean energy investments; our inability to receive dividends or other distributions from subsidiaries; and changes in the insurance brokerage industry’s competitive landscape.

Please refer to Gallagher’s filings with the Securities and Exchange Commission, including Item 1A, “Risk Factors,” of its Annual Report on Form 10-K for the fiscal year ended December 31, 2025, and its subsequently filed Quarterly Reports on Form 10-Q for a more detailed discussion of these and other factors that could impact its forward-looking statements. Any forward-looking statement made by Gallagher in this press release speaks only as of the date on which it is made. Except as required by applicable law, Gallagher does not undertake to update the information included herein or the corresponding earnings release posted on Gallagher’s website.

INFORMATION REGARDING NON-GAAP MEASURES

In addition to reporting financial results in accordance with GAAP, this presentation provides information regarding EBITDAC, EBITDAC margin, adjusted EBITDAC, adjusted EBITDAC margin, diluted net earnings per share, as adjusted (adjusted EPS), adjusted revenue, adjusted compensation and operating expenses, adjusted compensation expense ratio, adjusted operating expense ratio and organic revenue. These measures are not in accordance with, or an alternative to, the GAAP information provided in this press release. Gallagher's management believes that these presentations provide useful information to management, analysts and investors regarding financial and business trends relating to Gallagher's results of operations and financial condition or because they provide investors with measures that its chief operating decision maker uses when reviewing Gallagher's performance. See further below for definitions and additional reasons each of these measures is useful to investors. Gallagher's industry peers may provide similar supplemental non-GAAP information with respect to one or more of these measures, although they may not use the same or comparable terminology and may not make identical adjustments. The non-GAAP information provided by Gallagher should be used in addition to, but not as a substitute for, the GAAP information provided. As disclosed in its most recent Proxy Statement, Gallagher makes determinations regarding certain elements of executive officer incentive compensation, performance share awards and annual cash incentive awards, partly on the basis of measures related to adjusted EBITDAC.

Earnings Measures - Gallagher believes that each of EBITDAC, as Adjusted and EBITDAC margin, as Adjusted, as defined below, provides a meaningful representation of its operating performance and improves the comparability of Gallagher's results between periods by eliminating the impact of certain items that have a high degree of variability.

- EBITDAC is defined as net earnings before interest, income taxes, depreciation, amortization and the change in estimated acquisition earnout payables.
- EBITDAC, as Adjusted is EBITDAC further adjusted to exclude net gains on divestitures, acquisition integration costs, workforce related charges, lease termination related charges, acquisition related adjustments, transaction related costs, legal and tax related costs, and the period-over-period impact of foreign currency translation, as applicable.
- EBITDAC margin, as Adjusted is defined as Adjusted EBITDAC divided by Adjusted Revenues (defined below).

Revenue and Expense Measures - Gallagher believes that Adjusted Revenues and Adjusted Operating Expense Ratio, each as defined below, provides stockholders and other interested persons with useful information that will assist such persons in analyzing Gallagher's operating results as they develop a future outlook for Gallagher. Gallagher believes that Organic Revenue provides a comparable measurement of revenue growth that is associated with the revenue sources that will continue in the future. Gallagher has historically viewed organic revenue as an important indicator when assessing and evaluating the performance of its Brokerage and Risk Management segments. Gallagher also believes that using this measure allows financial statement users to measure, analyze and compare the growth from its Brokerage and Risk Management segments in a meaningful and consistent manner.

- Adjusted Revenues is defined as revenues (for the Brokerage segment) and revenues before reimbursements (for the Risk Management segment beginning in 2016) adjusted to exclude net gains realized on divestitures, acquisition related adjustments and other non-recurring items, acquisition integration costs for workforce related charges, lease termination related charges, and the period-over-period impact of foreign currency translation, as applicable.
- Adjusted Operating Expense Ratio is defined as operating expense, adjusted to exclude the items listed above for Adjusted EBITDAC, as applicable, divided by Adjusted Revenues.
- Organic Revenue. For the Brokerage segment, organic revenue consists of base commission and fee revenues, supplemental revenues and contingent revenues, excluding the first twelve months of such revenues generated from acquisitions and such revenues related to divested operations, which include disposals of a business through sale or closure, estimate changes, run-off of a business and the restructuring and/or repricing of programs and products, in each period presented. Such revenues are excluded from organic revenues in order to help interested persons analyze the revenue growth associated with the operations that were a part of Gallagher in both the current and prior period. In order to improve the comparability of Gallagher's results between periods, we further exclude the period-over-period impact of foreign currency translation; revenue from certain large life product sales within Gallagher's Executive Life and Benefits practice group (which are typically large, singular transactions with a high degree of variability in amount and timing); and revenue attributable to changes in assumptions used to calculate estimated deferred revenues, which impact the quarterly timing of revenues during the annual contract period. For the Risk Management segment, organic revenue consists of fee revenues excluding the first twelve months of such revenues generated from acquisitions and such revenues related to divested operations in each period presented. In order to improve the comparability of Gallagher's results between periods, we further exclude the period-over-period impact of foreign currency translation.

Reconciliations – Please see Pages 43 to 51 of this presentation for reconciliations of historical non-GAAP information to the closest GAAP information. The non-GAAP information provided in this presentation should be used in addition to, but not as a substitute for, GAAP information.

GALLAGHER MISSION STATEMENT

We are an international Sales and Marketing company that plans and administers cost-effective, differentiated property/casualty and human resource risk management programs as brokers, consultants and third-party administrators.

Our mission is to:

- Provide superior, cost-effective risk management products and services that meet the ever-changing needs of our current and prospective clients, while continuing to strive for the highest professional excellence in the delivery of those products and services.
- Provide our employees with an opportunity for professional growth, personal satisfaction and financial security.
- Build and maintain long-lasting, consistent, honest and profitable relationships with our insurance markets, who we recognize play a crucial role in meeting our clients' risk management needs.
- Grow shareholder value by increasing our client base, dedicating ourselves to increased productivity, profitability and professionalism resulting in long-term earnings-per-share growth.

We will accomplish our mission with the kind of leadership that will ensure perpetuation of our corporate culture. We will also adhere to rigid moral and ethical standards in all of our dealings as we look to the challenges of the future with confidence in our ability to create and maintain a Gallagher Team that is the very best at what we do.

SNAPSHOT OF CORE OPERATIONS

BROKERAGE SEGMENT

- 89% of revenue*
- We advise and consult on insurance programs and place insurance for clients
- Property/casualty and employee benefits
- Retail, wholesale and reinsurance
- Middle-market commercial focus, while also serving small businesses, risk management accounts and individuals
- 76% of revenue is commission-based, 24% is fee-based**

RISK MANAGEMENT SEGMENT

- 11% of revenue*
- We adjust claims and help companies and carriers reduce their losses
- Workers' compensation, liability, managed care, auto and property
- Modest amount of storm/earthquake claims
- Primarily Fortune 1,000 clients
- While this segment complements our brokerage offerings, about 95% of revenue is derived from non-brokerage clients, including underwriting enterprises and clients of other insurance brokers

* Adjusted Brokerage and Risk Management segment revenue before reimbursements for the twelve months ended June 30, 2026.

** Represents percentage of total Commission & Fee revenue for the Brokerage segment over the twelve months ended June 30, 2026.

TAX CREDIT CARRYFORWARDS (\$M)

The amounts above represent the outstanding deferred tax asset associated with tax credit carryforwards on our balance sheet at each period end.

* The tax credit carryforward balance as of December 31, 2023, reflects a change in method election made in fourth quarter 2023 when filing 2022 US Federal tax return.

** As of June 30, 2026.

DIVIDENDS PER SHARE

* Indicated based on annualized quarterly cash dividend of \$0.70/share. On July 29, 2026, Gallagher's Board of Directors declared a \$0.70/share third quarter 2026 dividend.

2026 M&A HIGHLIGHTS

Executing a disciplined, tuck-in M&A strategy at attractive valuations.

\$122M

in estimated annual
acquired revenues*

16

new merger partners*

Fair valuations

Focus on tuck-in opportunities

* Brokerage and Risk Management segments for the six months ended June 30, 2026.

WHERE WE ARE GOING

BROKERAGE SEGMENT

- Driving new business production
- Continuing tuck-in M&A
- Growing global brand recognition
- Leveraging internal resources and processes across divisions
- Increasing data utilization to deliver a better client experience

RISK MANAGEMENT SEGMENT

- Increasing global presence in claims space
- Building out specialty claims handling capabilities (outside of WC and GL)
- Developing, building and harnessing improving technology
- Growing brand recognition globally
- Leveraging resources across borders

US COMMERCIAL P/C PRICING & INFLATION

U.S. Commercial Rate Index reflects P&C premium costs relative to 2000, based on data from the Council of Insurance Agents & Brokers (CIAB) for the period ended June 30, 2026. CPI reflects U.S. Bureau of Labor Statistics data for the period ended June 30, 2026.

US COMMERCIAL P/C PRICING

Reflects Council of Insurance Agents and Brokers (CIAB) data.

Commercial Casualty represents the average of commercial auto, workers' compensation, general liability, umbrella, cyber and D&O.

SALES CULTURE PERFORMS THROUGH CYCLES

CIAB figures represent full-year average change in commercial premiums for each respective year. Gallagher Brokerage Organic excludes contingent commissions. 2026 Brokerage Organic represents the six months ended June 30, 2026. CIAB 2026 figure represents average change in commercial premiums for the six months ended June 30, 2026. See Cautionary Note on page 2 regarding the ASC 606 revenue recognition accounting standard. See important disclosures regarding Non-GAAP measures on Page 3 and reconciliations on Pages 43 to 51.

MAINTAIN UNIQUE CULTURE

MAINTAIN UNIQUE CULTURE

Shared values at Arthur J. Gallagher & Co. are the rock foundation of the Company and our Culture. What is a Shared Value? These are concepts that the vast majority of the movers and shakers in the Company passionately adhere to. What are some of Arthur J. Gallagher & Co's Shared Values?

1. We are a Sales and Marketing Company dedicated to providing excellence in Risk Management Services to our clients.
2. We support one another. We believe in one another. We acknowledge and respect the ability of one another.
3. We push for professional excellence.
4. We can all improve and learn from one another.
5. There are no second-class citizens—everyone is important and everyone's job is important.
6. We're an open society.
7. Empathy for the other person is not a weakness.
8. Suspicion breeds more suspicion. To trust and be trusted is vital.
9. Leaders need followers. How leaders treat followers has a direct impact on the effectiveness of the leader.
10. Interpersonal business relationships should be built.
11. We all need one another. We are all cogs in a wheel.
12. No department or person is an island.
13. Professional courtesy is expected.
14. Never ask someone to do something you wouldn't do yourself.
15. I consider myself support for our Sales and Marketing. We can't make things happen without each other. We are a team.
16. Loyalty and respect are earned—not dictated.
17. Fear is a turnoff.
18. People skills are very important at Arthur J. Gallagher & Co.
19. We're a very competitive and aggressive company.
20. We run to problems—not away from them.
21. We adhere to the highest standards of moral and ethical behavior.
22. People work harder and are more effective when they're turned on—not turned off.
23. We are a warm, close Company. This is a strength—not a weakness.
24. We must continue building a professional Company—together—as a team.
25. Shared values can be altered with circumstances—but carefully and with tact and consideration for one another's needs.

When accepted Shared Values are changed or challenged, the emotional impact and negative feelings can damage the Company.

- Robert E. Gallagher May 1984

WHY INVEST?

You Believe Our Company Has:

* 2024 includes certain acquisition-related adjustments that represent changes in balance sheet estimates arising primarily from conforming accounting principles, purchase-related true-ups, and other balance sheet adjustments made after the closing date. Additionally, in 2023, 2024, 2025, and 2026, in order to improve the comparability of Gallagher's results between periods, we further exclude revenue from certain large life product sales within Gallagher's Executive Life and Benefits practice group (which are typically large singular transactions with a high degree of variability in amount and timing) and revenue attributable to changes in assumptions used to calculate estimated deferred revenues, which impact the quarterly timing of revenues during the annual contract period.

* Includes MGA/MGU performance and supplemental commission revenue timing. Note that CYs 2005 and 2006 commission and fees have been recast to remove business moved to discontinued operations in 4Q 2017. CYs 2004 and prior were recast to remove brokerage expense from revenues.

** PY 2024 includes certain acquisition-related adjustments that represent changes in balance sheet estimates arising primarily from conforming accounting principles, purchase-related true-ups, and other balance sheet adjustments made after the closing date. Additionally, in 2023, 2024, 2025, and 2026, in order to improve the comparability of Gallagher's results between periods, we further exclude revenue from certain large life product sales within Gallagher's Executive Life and Benefits practice group (which are typically large singular transactions with a high degree of variability in amount and timing) and revenue attributable to changes in assumptions used to calculate estimated deferred revenues, which impact the quarterly timing of revenues during the annual contract period.
