- **Operating Revenues \$1.7 billion; \$1.4 billion in 2021**
- **Income from Operations \$177 million; Adjusted Income from Operations \$175 million**
- **Diluted Earnings Per Share \$0.73; Adjusted Diluted Earnings Per Share \$0.72**
- **Increased full year Adjusted Diluted Earnings per Share guidance to \$2.60 - \$2.70**

Green Bay, Wis. - July 28, 2022 – Schneider National, Inc. (NYSE: SNDR, “Schneider” or the “Company”), a leading transportation and logistics services company, today announced results for the three and six months ended June 30, 2022.

“Our enterprise delivered solid earnings performance in the second quarter, illustrating the utility and momentum of our multimodal platform,” said Mark Rourke, Chief Executive Officer and President of Schneider. “Two of our strategic growth offerings crossed meaningful milestones in the quarter. Dedicated operated over 6,000 tractors in the quarter, an increase of over 40% from a year ago. Our Logistics segment achieved record earnings of \$47.3 million on 21% growth in revenue over a year ago.”

“As strong as the second quarter was, we did observe signs of moderation in freight market conditions as the quarter progressed, consistent with industry narrative,” Rourke commented. “However, we continue to expect a constructive freight environment for the remainder of 2022, including a return of seasonality, starting with fourth of July holiday and back-to-school demand. We believe we are well-positioned as a result of the purposeful shaping of our portfolio over the past several years to drive durable earnings and shareholder value.”

Enterprise Results

Enterprise income from operations for the second quarter of 2022 was \$176.6 million, an increase of \$50.8 million, or 40%, compared to the same quarter in 2021. Adjusted income from operations for the second quarter of 2022 was \$174.8 million, an increase of \$49.0 million, or 39%, compared to the prior year. Gains on the sale of revenue equipment in the second quarter of 2022 were \$2.8 million, compared to \$14.1 million the prior year. In addition, diluted earnings per share was negatively impacted by \$0.09 year over year due to changes in the value of equity investments.

At June 30, 2022, the Company had a total of \$211.8 million outstanding on various debt instruments compared to \$270.3 million as of December 31, 2021. The Company had cash and cash equivalents of \$331.0 million and \$244.8 million as of June 30, 2022 and December 31, 2021, respectively.

In April 2022, the Company's Board of Directors declared an \$0.08 dividend payable to shareholders of record as of June 10, 2022. This dividend was paid on July 11, 2022. On July 25, 2022, the Company's Board of Directors declared an \$0.08 dividend payable to shareholders of record as of September 9, 2022, expected to be paid on October 10, 2022.

Results of Operations – Reportable Segments

Truckload

Truckload revenues (excluding fuel surcharge) for the second quarter of 2022 were \$571.6 million, an increase of \$96.4 million, or 20%, compared to the same quarter in 2021 due to Midwest Logistics Systems revenues, effective yield management, and dedicated new business growth, partially offset by lower network miles. Truckload revenue per truck per week was \$4,242, an increase of 6% compared to the same quarter in 2021.

Truckload income from operations was \$80.7 million in the second quarter of 2022, an increase of \$7.1 million, or 10%, compared to the same quarter in 2021. Earnings growth due to the factors cited above more than offset the impact of higher driver-related and dedicated start-up costs, and lower gains on sale of revenue equipment. Truckload segment operating ratio was 85.9% in the second quarter of 2022, compared to 84.5% in the second quarter of 2021.

Intermodal

Intermodal revenues (excluding fuel surcharge) for the second quarter of 2022 were \$335.1 million, an increase of \$61.1 million, or 22%, compared to the same quarter in 2021 primarily driven by revenue per order and volume growth, despite continued rail and customer fluidity challenges. In addition, container count grew 28% compared to the same quarter a year ago.

Intermodal income from operations for the second quarter of 2022 was \$42.3 million, an increase of \$7.4 million, or 21%, compared to the same quarter in 2021, primarily due to favorable revenue management actions, partially offset by increased rail and dray driver costs. Intermodal operating ratio was 87.4% in the second quarter of 2022, compared to 87.3% in the second quarter of 2021.

Logistics

Logistics revenues (excluding fuel surcharge) for the second quarter of 2022 were \$521.3 million, an increase of \$90.6 million, or 21%, compared to the same quarter in 2021 due to increased revenue per order, higher volumes within our brokerage offering including increased contribution from the Power Only service offering, and incremental port dray revenues.

Logistics income from operations for the second quarter of 2022 was \$47.3 million, an increase of \$30.3 million, or 178%, compared to the same quarter in 2021. Effective gross margin management throughout the quarter enabled growth in net revenue per order. Logistics operating ratio was 90.9% in the second quarter of 2022, compared to 96.1% in the second quarter of 2021.

Business Outlook

“Our updated full year adjusted diluted earnings per share guidance is \$2.60 - \$2.70, an increase from our prior guidance of \$2.55 - \$2.70, based on our expectations for moderating, yet stable, freight fundamentals throughout the remainder of 2022,”

Rourke commented. “Our full year guidance for net capital expenditures remains at approximately \$500 million, subject to OEM supply chain constraints.”

Non-GAAP Financial Measures

The Company has presented certain non-GAAP financial measures, including revenues (excluding fuel surcharge), adjusted income from operations, adjusted operating ratio, adjusted net income, and adjusted diluted earnings per share. Management believes the use of non-GAAP measures assists investors in understanding the business, as further described below. The non-GAAP information provided is used by Company management and may not be comparable to similar measures disclosed by other companies. The non-GAAP measures used herein have limitations as analytical tools and should not be considered in isolation or as substitutes for analysis of results as reported under GAAP.

A reconciliation of net income per share to adjusted diluted earnings per share as projected for 2022 is not provided. Schneider does not forecast net income per share as the Company cannot, without unreasonable effort, estimate or predict with certainty various components of net income. The components of net income that cannot be predicted include expenses for items that do not relate to core operating performance, such as costs related to potential future acquisitions, as well as the related tax impact of these items. Further, in the future, other items with similar characteristics to those currently included in adjusted net income, that have a similar impact on the comparability of periods, and which are not known at this time may exist and impact adjusted net income.

About Schneider National, Inc.

Schneider National, Inc. and its subsidiaries (together “Schneider,” the “Company,” “we,” “us,” or “our”) are among the largest providers of surface transportation and logistics solutions in North America. We offer a multimodal portfolio of services and possess an array of capabilities and resources that leverage artificial intelligence, data science, and analytics to provide innovative solutions that coordinate the movement of customer products timely, safely, and effectively. The Company offers truckload, intermodal, and logistics services to a diverse customer base throughout the continental United States, Canada, and Mexico, thus adding value to their supply chains. We were founded in 1935 and have been a publicly held holding company since our initial public offering in 2017. Our stock is publicly traded on the NYSE under the ticker symbol SNDR.

Our diversified portfolio of complementary service offerings combines truckload services with intermodal and logistics offerings, enabling us to serve the varied needs of our customers. Our service offerings include transportation of full-truckload freight, which we directly transport utilizing either our company-controlled revenue equipment and company drivers or owner-operators under contract with us. We have arrangements with most of the major North American rail carriers to transport freight in containers. We also provide customized freight movement, revenue equipment, labor, systems, and delivery services tailored to meet individual customer requirements and which typically involve long-term contracts. These arrangements are generally referred to as dedicated services and may include multiple pickups and drops, local deliveries, freight handling, specialized equipment, and freight network design. We also provide comprehensive logistics services with a network of thousands of reliable third-party carriers, and through a China-based subsidiary, we offer limited transportation and logistics services in China which consist primarily of brokerage services. Additionally, we lease equipment to third parties through our wholly owned subsidiary Schneider Finance, Inc., which is primarily engaged in leasing trucks to owner-operators, including, but not limited to, owner-operators with whom we contract, and we provide insurance for both company drivers and owner-operators through our wholly owned insurance subsidiary.

Schneider National, Inc.
Reconciliation of Non-GAAP Financial Measures
(unaudited)

In this earnings release, we present the following non-GAAP financial measures: (1) revenues (excluding fuel surcharge), (2) adjusted income from operations, (3) adjusted operating ratio, (4) adjusted net income, and (5) adjusted diluted earnings per share. We also provide reconciliations of these measures to the most directly comparable financial measures calculated and presented in accordance with GAAP.

Management believes the use of each of these non-GAAP measures assists investors in understanding our business by (1) removing the impact of items from our operating results that, in our opinion, do not reflect our core operating performance, (2) providing investors with the same information our management uses internally to assess our core operating performance, and (3) presenting comparable financial results between periods. In addition, in the case of revenues (excluding fuel surcharge), we believe the measure is useful to investors because it isolates volume, price, and cost changes directly related to industry demand and the way we operate our business from the external factor of fluctuating fuel prices and the programs we have in place to manage such fluctuations. Fuel-related costs and their impact on our industry are important to our results of operations, but they are often independent of other, more relevant factors affecting our results of operations and our industry.

Although we believe these non-GAAP measures are useful to investors, they have limitations as analytical tools and may not be comparable to similar measures disclosed by other companies. You should not consider the non-GAAP measures in this report in isolation or as substitutes for, or alternatives to, analysis of our results as reported under GAAP. The exclusion of unusual or infrequent items or other adjustments reflected in the non-GAAP measures should not be construed as an inference that our future results will not be affected by unusual or infrequent items or by other items similar to such adjustments. Our management compensates for these limitations by relying primarily on our GAAP results in addition to using the non-GAAP measures.

Adjustments to arrive at non-GAAP measures are made at the enterprise level, with the exception of fuel surcharge revenues, which are not included in segment revenues.

Revenues (excluding fuel surcharge)

We define “revenues (excluding fuel surcharge)” as operating revenues less fuel surcharge revenues, which are excluded from revenues at the segment level. Included below is a reconciliation of operating revenues, the most closely comparable GAAP financial measure, to revenues (excluding fuel surcharge).

<i>(in millions)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021
Operating revenues	\$ 1,746.9	\$ 1,360.8	\$ 3,367.4	\$ 2,589.4

Revenues (excluding fuel surcharge)	\$ 1,497.9	\$ 1,250.6	\$ 2,952.4	\$ 2,389.0

Adjusted income from operations

We define “adjusted income from operations” as income from operations, adjusted to exclude material items that do not reflect our core operating performance. Included below is a reconciliation of income from operations, which is the most directly comparable GAAP measure, to adjusted income from operations. Excluded items for the periods shown are explained in the table and notes below.

- (1) Includes \$5.2 million in charges related to an adverse audit assessment for prior period state sales tax on rolling stock equipment used within that state for the six months ended June 30, 2022. There were no similar charges for the three months ended June 30, 2022.
- (2) Includes a benefit of \$2.0 million and a charge of \$57.0 million for an adverse settlement related to a lawsuit with former owners of WSL, inclusive of prejudgment interest and the former owners’ attorneys’ fees, for the three and six months ended June 30, 2022, respectively.
- (3) Advisory, legal, and accounting costs related to the acquisition of deBoer Transportation, Inc. (“deBoer”) on June 7, 2022.
- (4) Net gain on the sale of our Canadian facility due to a change in approach to servicing Canada.

Adjusted operating ratio

We define “adjusted operating ratio” as operating expenses, adjusted to exclude material items that do not reflect our core operating performance, divided by revenues (excluding fuel surcharge). Included below is a reconciliation of operating ratio, which is the most directly comparable GAAP measure, to adjusted operating ratio.

Special Note Regarding Forward-Looking Statements

This earnings release contains forward-looking statements, within the meaning of the safe harbor provisions of the United States Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect the Company's current expectations, beliefs, plans, or forecasts with respect to, among other things, future events and financial performance and trends in the business and industry. The words "may," "will," "could," "should," "would," "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," "prospects," "potential," "budget," "forecast," "continue," "predict," "seek," "objective," "goal," "guidance," "outlook," "effort," "target," and similar words, expressions, terms, and phrases among others, generally identify forward-looking statements, which speak only as of the date the statements were made. Forward-looking statements involve estimates, expectations, projections, goals, forecasts, assumptions, risks, and uncertainties. Readers are cautioned that a forward-looking statement is not a guarantee of future performance and that actual results could differ materially from those contained in the forward-looking statement.

The statements in this news release are based on currently available information and the current expectations, forecasts, and assumptions of the Company's management concerning risks and uncertainties that could cause actual outcomes or results to differ materially from those outcomes or results that are projected, anticipated, or implied in these statements. Such risks and uncertainties include, among others, those discussed in Part I, Item 1A, "Risk Factors," of the Company's Annual Report on Form 10-K filed on February 18, 2022, subsequent Reports on Form 10-Q and 8-K, and our other filings we make with the U.S. Securities and Exchange Commission. In addition to any such risks, uncertainties, and other factors discussed elsewhere herein, risks, uncertainties, and other factors that could cause or contribute to actual results differing materially from those expressed or implied by the forward-looking statements include, but are not limited to: accelerating inflation, both in the U.S and globally; our ability to successfully integrate MLS into Schneider's group structure; our ability to achieve our forecasted synergies associated with our acquisition of MLS; our ability to retain MLS' drivers and associates; the successful transition of our western United States rail operations from BNSF Railway to Union Pacific Railroad; our ability to continue to successfully manage the demand, supply, and operational challenges and disruptions (including the impact of reduced freight volumes) associated with the COVID-19 pandemic and the associated responses of federal, state, and local governments and businesses; economic and business risks inherent in the truckload and transportation industry, including competitive pressures pertaining to pricing, capacity, and service; our ability to effectively manage tight truck capacity brought about by driver shortages and successfully execute our yield management strategies; our ability to maintain key customer and supply arrangements (including Dedicated arrangements) and to manage disruption of our business due to factors outside of our control, such as natural disasters, acts of war or terrorism, disease outbreaks, or pandemics; volatility in the market valuation of our investments in strategic partners and technologies; our ability to manage and implement effectively our growth and diversification strategies and cost saving initiatives; our dependence on our reputation and the Schneider brand and the potential for adverse publicity, damage to our reputation, and the loss of brand equity; risks related to demand for our service offerings; risks associated with the loss of a significant customer or customers; capital investments that fail to match customer demand or for which we cannot obtain adequate funding; fluctuations in the price or availability of fuel, the volume and terms of diesel fuel purchase agreements, and our ability to recover fuel costs through our fuel surcharge programs; our ability to attract and retain qualified drivers and owner-operators; our reliance on owner-operators to provide a portion of our truck fleet; our dependence on railroads in the operation of our intermodal business; service instability and availability from third-party capacity providers used by our business; changes in the outsourcing practices of our third-party logistics customers; difficulty in obtaining material, equipment, goods, and services from our vendors and suppliers; variability in insurance and claims expenses and the risks of insuring claims through our captive insurance company; the impact of laws and regulations that apply to our business, including those that relate to the environment, taxes, associates, owner-operators, and our captive insurance company; changes to those laws and regulations; and the increased costs of compliance with existing or future federal, state, and local regulations; political, economic, and other risks related to our cross-border operations; risks associated with financial, credit, and equity markets, including our ability to service indebtedness and fund capital expenditures and strategic initiatives; negative seasonal patterns generally experienced in the trucking industry during traditionally slower shipping periods and winter months; risks associated with severe weather and similar events; significant systems disruptions, including those caused by cybersecurity events; exposure to claims and lawsuits in the ordinary course of business; and our ability to adapt to new technologies and new participants in the truckload and transportation industry.

The Company undertakes no obligation to publicly release any revision to its forward looking statements to reflect events or circumstances after the date of this earnings release.
