

## **EXPRO SECURES CONTRACT WITH WOODSIDE ENERGY FOR TRION DEEPWATER PROJECT**

*Expro to deliver advanced tubular running and cementing services for Woodside's first ultra-deepwater development offshore Mexico.*

HOUSTON, 14 JULY 2025 – Expro (NYSE:XPRO) has been awarded a major three-year contract by Woodside Petróleo Operaciones de México, S. de R.L. de C.V. (Woodside Energy) in support of the Trion deepwater oil and gas development offshore Mexico.

Under the agreement, Expro will provide industry-leading tubular running services (TRS) and cementing services for what will be Mexico's first deepwater oil production facility - a major milestone in the region's energy evolution.

Woodside and Expro have a long-standing partnership, with Expro supporting well construction activities in Mexico during the exploration phase. This latest collaboration further strengthens their well-established presence in deepwater operations across the country. As part of the project, Woodside Energy will manage operations from its Tampico shore base and office, while Expro is actively establishing a new hub in the area, supporting local employment and contributing to the economic growth of the area.

The contract enables Expro to deploy its differentiated well construction technologies, designed to offer a seamless solution from top drive to target depth. Services will include TRS casing, completion and drilling support, as well as the provision of casing accessories, cement heads, and Expro's Skyhook® system.

In addition to technical execution, Expro's approach is aimed at optimizing well performance, driving cost-efficiencies, and enhancing operational reliability throughout the project lifecycle.

Jeremy Angelle, Vice President of Well Construction said, "With our extensive track record and a reputation as a trusted provider of Well Construction solutions, we are proud to play a key role in this world-class development. This contract win reflects not only the strength of our technical capabilities and commercial offering but also our legacy of supporting Trion exploration wells through Frank's TRS and VERSAFLO™ systems.

This project represents an exciting opportunity to showcase our innovative technologies on a historic deepwater development, and we look forward to building a strong, long-term partnership with Woodside in Mexico."

Trion is a greenfield development located in the Perdido Fold Belt, approximately 180 km off Mexico's coastline in the Gulf of Mexico, in water depths of around 2,500 meters. Representing the first deepwater oil production in Mexico, the project is a joint venture between Woodside Energy and Petróleos Mexicanos (PEMEX), with first oil targeted for 2028.

### **SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This press release, and oral statements made from time to time by representatives of the Company, may contain certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements regarding, among other things, the success and safety of the Company's tubular running and cementing services technologies, the Company's environmental, social and governance goals, targets and initiatives, and future growth, and are indicated by words or phrases such as "anticipate," "outlook," "estimate," "expect," "project," "believe," "envision," "goal," "target," "can," "will," and similar words or phrases. These forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to be materially different from the future results, performance or achievements expressed in or implied by such forward-looking statements. Forward-looking statements are based largely on the Company's expectations and judgments and are subject to certain risks and uncertainties, many of which are unforeseeable and beyond our control. The factors that could cause actual results, performance or achievements to materially differ include, among others the risk factors identified in the Company's Annual Report on Form 10-K, Form 10-Q and Form 8-K reports filed with the Securities and Exchange Commission. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, historical practice, or otherwise.
